Report on

“Research Methodology and Good Administrative Practices”

Dr. Pradeep Kumar Ramancharla, Registrar, IIIT, Hyderabad in his virtual discourse on “Research Methodology and Good Administrative Practices” on 13th June 2020 has given expert inputs on various Research Methodologies and effective Administrative Practices that faculty have to adopt. He recommended faculty to undertake their research work for a larger purpose, self-exploration and base their research on sound Scientific Principles. He further advised to be evolutionary or revolutionary in research and bring in a moderate change or change that changes the phase of the society.

Hearty Welcome to

Dr Pradeep Kumar Ramancharla
IIIT Registrar

Sub: Requesting permission to use, 3rd floor Seminar Hall, C-Block – Reg.

Respected Madam,

The Dept.of EEE is planning to organize 4 days Faculty development Programme on **Effective teaching and research skills** on: **5th, 7th, 9th and 11th of November 2019**, are as follows.

| S.No | Topic | Speakers |
|------|-----------------------------------------------|-------------------------------------------------------------------------------------------|
| 1 | Effective teaching and research skills | Dr.G.Tulasi Ram Das, (Former V.C JNTUK) Professor Dept. of EEE, JNTUH Hyderabad. |
| 2 | Advances in MATLAB techniques | Prof. M.V. Ramana Rao Dept. of EEE, OU, Hyderabad. |
| 3 | MATLAB applications to electrical engineering | Resource person from Capricot, Mr.J.Prem Kumar |
| 4 | Research Methodologies | Dr. S.Siva Prasad, Professor, Dept. of EEE, VJIT, Hyderabad |

In this regard, it is requested to kindly approve the same, Momentum &Shawl to the speaker. Please permit us to use the E-Block seminar hall on 5th NOV,& 7th, 9th and 11th,2019 3rd floor seminar hall.

Report on
Faculty Development Program
On
“EFFECTIVE TEACHING & RESEARCH SKILLS”
at
EEE Department, Vidya Jyothi Institute of Technology

A one-week faculty development programme on “EFFECTIVE TEACHING & RESEARCH SKILLS” was held at the Department of Electrical & Electronics Engineering of Vidya Jyothi Institute of Technology from 05.11.2019 to 11.11.2019. The FDP aims to provide opportunities to faculty members, research scholars and post graduate students to enrich their teaching skill and research in the field of Power Electronics, Power Systems. This FDP has given a rare exposure to the participants on advances in knowledge, technologies and research methodologies in allied paradigm for shaping their research competency. With this FDP, faculty and research scholars in their teaching and research are benefited. It was helped a lot for the participants to interact with the expert speakers.

The world is changing and with this, the way people learn. There is therefore an urgent need to reinvent teaching practice and teaching methods, to adapt them to new contexts and thus ensure meaningful learning.

The commitment to the current educational quality implies having teachers committed and prepared to reveal the capabilities and potential of each student, stimulating motivation through novel methods and open the spaces necessary for the development of these new practices. The new teaching methods are a fact and are changing educational environments around the world. They have been created by the teachers themselves and it is imperative to consider them and continue formulating new proposals that bet on the renewal and improvement of current educational processes.

Day 1 Lecture on **Effective Teaching and Research Skills** by Dr. G. Tulasi Ram Das, (Former V.C JNTUK) Professor, Dept. of EEE, JNTUH Hyderabad.

PRINCIPAL
Vidya Jyothi Institute of Technology
Himayatnagar (VIII), C.B. Post,
Hyderabad-75.

Day 2 Lecture on **MATLAB Applications to Electrical Engineering** by Resource Person, Mr.Srinivasa Chary ,Capricot Pvt. Ltd., Hyderabad.

Day 3 Dr.C.N. Ravi Lecture on **MATLAB Simulation for Power Electronics & Power Systems** by Resource Person, Dept. of EEE, VJIT, Hyderabad.

Day Lecture on **Advances in MATLAB techniques** by Prof. M.V. Ramana Rao Dept. of EEE, OU, Hyderabad.

The FDP was attended by 25 participants from faculty members of the EEE department.

INAUGURAL SESSION: The esteemed personalities present on the inauguration of the programme:

- Dr P.venugopal Reddy, Director, VJIT,
- Dr A.padmaja, principal VJIT,
- Dr.S.Siva Prasad, Head of Department VJIT.

A. Padmaja
PRINCIPAL
Wajga Jyothi Institute of Technology
Himayatnagar (Villi), C.B. Post.,
Hyderabad-76.

OUTCOME: All the sessions were very much informative. The discussed areas are of great benefit for the participants as the topics match with the current working domain. Participants were enlightened with the most widely used advance technologies in this domain. This in turn will help in research activity and placement opportunity.

INTELLECTUAL PROPERTY RIGHTS CELL (IPR)

Event Summary

Intellectual Property Rights Cell (IPR Cell) of VJIT has conducted a One-Day Workshop on "Importance of Intellectual Property Rights and Startups" on 07th August, 2019.

This workshop addressed with a warm welcoming the gathering by Dr. P. Ramesh Babu, Professor, talks about the major functions of IPR and narrated about the objectives of the workshop and explains about the importance of IPR in current world. He explains about the entrepreneurship and functionality of an entrepreneur. He shared his personal experiences in his manner with several examples from society. Total 23 participants including Doctorates, Staff & Students of the Institution are participated in this programme. This workshop begins with the History of Intellectual Property from beginning to evolving phase. Later explaining the formation of World Intellectual Property Organization and its roles and functions i.e., IPR agreement administration, IPR Practices harmonization.

Further explaining the Indian scenario of Intellectual property System and the office of the Controller General of Patents, Designs and Trademarks, Department of Industrial Policy and Promotion. Subsequently explaining the roles and functions of Intellectual Property Office in India. Finally explaining the process of filing the patent application, Copyright application, Trademark application. Design application and the Scheme for Facilitating Start-ups, Intellectual Property Protection. The discussion session has more interactions from staff & students and this workshop ignite the younger minds of the institution. In short the workshop provided valuable awareness and Insight on the various aspects of IPR.

ENTREPRENEURSHIP DEVELOPMENT CELL (EDC)

Event Summary

A One Day Workshop on 'Starting up for a cause' was conducted on 3rd February, 2020, organized by the Entrepreneurship Development Cell (EDC), for the final year engineering students under 'Transforming India Initiative' by Access Livelihoods Consulting (ALC) India Ltd, Hyderabad. Mr. Kishore Vodapally, Head of BD & Marketing, ALC India Ltd., and Ms. Sneha Kulukuru, Technical Consultant, ALC India Ltd., two young, capable and budding entrepreneurs, were invited to inspire the students by sharing their experiences to become potential entrepreneurs. The Duo shared their views on the importance of the Transforming India Initiative and developing social entrepreneurial thoughts. Further, to their excellent, knowledgeable and inspiring speeches on Economic Inequity, Gender disparity, Environmental challenge, Employment challenge and growing slums in India, they have also conducted Social Business Plan Competition for the students. The different titles for the competition were, Low Primary Producer Incomes in India Today, Skill gap in Employment in India Today, Solid Waste Management in India Today and Menstrual Hygiene in India Today. The session was presided by Dr. A. Padmaja, Principal, VJIT and coordinated by Dr. M. Vadivel, EDC coordinator and Department EDC coordinators.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

In Association With Entrepreneurship Development Cell

Organizes Webinar on
"Ideation to Patenting"

Date: 19-08-2020, Wednesday

Time: 1.00 PM - 3.00 PM

Participants: Students, Faculty,
Research scholars and Industry
persons

Platform: GoogleMeet

Meeting ID will be sent to
your Registered Mail

Registration Fee : Rs.100

Balaji Devarajan

Registered Indian Patent Agent,

KPR Institute of Engineering and Technology

Topics Covered

- Ideation
- Variants of IP
- Patent filing procedures
- Case study

Registration Link: <https://forms.gle/1qKTMAtz5szL71ha6>

Google meet Link: <https://meet.google.com/fkb-nrbf-gcb>

For Contact: 9994524327, 9642177893

E-Certificate will be issued to all active
participants who submit the feedback

Dear Participants,

Greetings from VIDYA JYOTHI INSTITUTE OF TECHNOLOGY (Autonomous), Aziz Nagar Gate, C.B. Post,
Hyderabad-500075.

We are pleased to inform you that the Entrepreneurship Development Cell (EDC) is organizing a Webinar on
"Innovation & Entrepreneurship" on 19.09.2020 @ 04.30 PM

Who Can Attend???

PG & UG Students, Staffs

Register in advance for this webinar:

Registration Link: <https://forms.gle/kxaACLfX6oJnZgyk6>

Registration Fee: Nil

After registration, you are requested to join the following WhatsApp group, The Session link will be shared
with the Registered Candidates through these WhatsApp groups.

Group-1: <https://chat.whatsapp.com/ETwpJkWrzsZA7KuVKSTQa5>

E-Certificate will be provided to all Participants.

We look forward to seeing you there!

Thanks & Regards

Report on

Workshop

On

“Developing Electrical Safe Work Practices”

at

EEE Department, Vidya Jyothi Institute of Technology

One day workshop has conducted on **“Developing Electrical Safe Work Practices”** was held at the Department of Electrical & Electronics Engineering of Vidya Jyothi Institute of Technology on 01.11.2019. The resource person Mr.S.M.Zafarullah has given a talk and practice session. A person's understanding of a safety hazard has a dramatic effect on his or her behavior. An in-depth understanding of a hazard usually results in a healthy respect for what can happen. People who know the most about a specific hazard tend to rely more heavily on procedures and plans to guide their actions. Personal protective equipment selection and use are influenced by increased understanding of a hazard. Training and training programs are influenced by the depth of knowledge held by all members of the line organization. Recent work has focused attention on the thermal effects of arc flashes. However, when electrical energy is converted into thermal energy in an arcing fault, still another energy conversion is taking place. Applications are on record that suggest that a considerable amount of force is created during an arcing fault. Concrete block walls can be destroyed by the increased pressure that is created during an arcing fault.

With this session all the technicians have educated with the resource person talk.

One day workshop for non-teaching staff on "Cabling and wiring Practices"

Report

Department:

Electrical and Electronics Engineering

Academic Year:

2019 - 2020

Event Date:

Friday, February 02, 2020.

Event Category:

Training programme for non-teaching staff

Event Venue:

C-Block Seminar Hall

Target Audience:

Non-teaching staff of EEE dept.

Number of Audience: 5

Event Report:

M.Chandramouli delivered a workshop on Cabling and wiring Practices to non-teaching staff. If you are an electrician, there are some basic wiring methods I'm sure you are familiar with. Homeowners with some knowledge of residential electrical systems may also want to familiarize themselves with some of these methods. It can help them to understand electrical problems that occur in their homes. Whether you work with electricity professionally, or just want to do some work around the house, here are some basic wiring methods you should be familiar with.

Basic Wiring Methods

The utility company provides electricity to power homes and businesses. In order to get the electricity into the building, the connection must be taken from the main switchboard into the

PRINCIPAL

Vidya Jyothi Institute of Technology
Himayatnagar (Vill), C. B. Post,
Hyderabad-75.

home. Various types of loads run through this main switchboard and different types of wirings are used. These can be applied for residential, commercial and industrial purposes.

Cleat Wiring

Here, PVC insulated cables are used. They are fastened to the wall using porcelain, wood or plastic cleats which are installed at intervals that are .6 m apart. This type of wiring is relatively inexpensive but is also best for temporary applications and is not suitable for home electrical wiring. It is rarely used in modern times.

Casing and Capping Wiring

The cable runs through a wood casing that has parallel grooves that appear at regular intervals along it. The casing is fixed to ceilings or walls with screws. It is then covered with a cap so that the wires are protected. This system is also relatively inexpensive but there is a high risk of short circuits that can result in fire hazards.

Batten Wiring

Batten wiring is one of the basic wiring methods that is used today. In batten wiring, insulated wires are run through the straight teak wooden battens. These are fixed on ceilings or walls with plugs or screws. The cables are fitted onto the battens with tinned brass link clips that are fastened on with rust resistant nails. This is a simple and efficient form of wiring that is mainly used for indoor installations.

Conduit Wiring

Conduit wiring uses PVC cables that are threaded through PVC or steel conduit pipes. If the pipes run on the surface of the walls and ceilings, it's called surface conduit wiring. If it runs inside the surface of the walls and covered with plastering, it's called concealed conduit wiring.

Surface conduit wiring is used in industrial applications to connect heavy motors. Concealed wiring is used in residential applications and is the most popular of the basic wiring methods for residential use because it is safer and aesthetically pleasing.

If you are an electrician or doing electrical wiring in your home, it is important to be familiar with these basic wiring methods. That way you can better understand what type of work is needed in your home. However, while being familiar with the cabling in your home may be helpful, you should not attempt to perform any

27th July 2019

Report on Two day training program on Embedded system using PSoC VJIT, Hyderabad.

The training program on embedded system using PSoC and its applications is organized by ECE Department VJIT, Hyderabad on 23-07-2019 and 24-07-2019. The total of 7 non-teaching staff has participated in this training program.

The objective of the training program is to give knowledge about PSoC. This training program gave an understanding of connections on PSoC. Training program focused on exploring features of different embedded systems on PSoC.

First day session was successfully carried out by Mr. Akram Ahmed, Assistant professor, VJIT, Hyderabad, by focusing on PSoC and its practical development tools. The topics covered in this session are introduction to PSoC, Various controllers on PSoC.

Second session was carried out by Pradeep Kumar Reddy, Associate professor, VJIT, Hyderabad. Sir explained about CY8CKIT-042-BLE-A kit main features, connections, Pinout description, installation of PSoC creator, how to debug PSoC creator project, connecting the baseboard with the PSoC 4 BLE module to computer with a USB cable.

Report on A Workshop on “ ICT Tools ” Held on 10th OCT 2020

Resource Persons

D.Venkateswarlu ,CSE Dept,VJIT.

A one day workshop on ICT Tools was held on 10.10.2020. This workshop provided a chance to enhance their knowledge in the subject area.

Resource person discussed about importance of ICT in education and use of various ICT tools. ICT tools stand for Information Communication Technology tools like educational networking, web-based learning, mobile learning; and classroom equipment. ICT has also become integral to the teaching-learning interaction, through such approaches as replacing chalkboards with interactive digital whiteboards, E-readers, flipped classrooms. Computer based training (CBT) for letters generation, certificate preparation, report writing, Presentation and posters preparation, Spread sheets & evaluation etc.

At the end of the session the participants gain the knowledge about ICT tools

**REPORT on STTP on Management Issues of Laboratory and Workshop
Class (04/11/2019 to 08/11/2019)**

Short Term Training Program on Management Issues of Laboratory and Workshop Class, conducted by NITTTR, Kolkata, attended by 30 faculty members of the Department have gained knowledge on the issues raised in Laboratory and Workshop.

It enables the faculty to maintain the inventory required for the experiments appropriately and also tackle the problems of maintenance arising from time – to – time.

The non-teaching Staff of the department also participated.

The skill development of conducting the experiments, up keeping the infrastructure, maintenance of stock registers have been trained vigorously in this session.
