Report on "Anti-Ragging Awareness Program and Haritha-Haaram"

VJIT organized a mindfulness program on ragging in its campus on July 28, 2018. This was directed in association with Samshabad and Moinabad Police. Samshabad zone DCP Ms. Padmaja Reddy, Moinabad CI Mr. Venkateswarlu and SI Mr. Mahendranath were the Guests of the programme. Samshabad Zone DCP Ms. Padmaja Reddy worried on the point that students ought to be far from ragging practices and not endanger their bright future. She affirmed on maintaining a disciplined life. Installation of CC cameras was on top priority to put a tab on the activities of the students in annihilating ragging from the grass root level. Rajendra Nagar ACP, Mr. Ashok Kumar pointed that ragging is an exceptionally horrifying practice that puts the innocent students to physical and mental trauma. He cautioned the students that under IPC section IV, the culprits are punishable. He urged the students to become responsible by adhering to the law as well as by upholding our culture and heritage. Mr. Ashok Kumar also insisted on setting a goal in life and tread in the right direction that leads to success. It is quite notable that the police have congratulated and valued our administration for fostering a healthy and disciplined environment and empowering the students in eradicating ragging. Our Principal, Dr. Padmaja appreciated the Cyberabad Police 'Jagruti Kalabrudam' headed by SI Mr. Rama Rao for playing an overwhelming skit that depicted the aftermath of atrocious habits like narcotics, drink and drive practice and other dreadful habits that shatters many lives. Our Director, Dr. Venugopal Reddy, Principal, Dr. Padmaja, Sr. Administration Officer, Mr. Venkatachalam vouched that the management and the students of VJIT will work hand in hand with the government to weed out the fatal practice of ragging. The programme ended on a positive note with students rendering a reverent salute to the esteemed guests.

State has inaugurated the program by planting the saplings,

Trees offer many benefits and not only to the environment. They can also have wider social, biodiversity and economic benefits to communities and society. We can arrange tree planting on behalf of businesses. Circular Ecology doesn't add a margin onto tree planting activities. We are simply passionate about planting more trees. In fact, at Circular Ecology we have embedded tree planting into everything we do.

The most cost effective tree planting is in developing countries. This gives the maximum number of trees for a set budget. They arrange tree planting in locations such as Kenya, Nepal, Madagascar, Haiti, Indonesia and Mozambique. Eden Reforestation Projects reduces extreme poverty and restores healthy forests by employing local villagers to plant millions of trees every year on a non-profit basis.

Harita Haram

VJIT NSS Haritha Haram

Under the VJIT NSS Haritha Haram has been organized at VJIT, on --- our Secretary and Correspondent Dr.Palla Rajeshwar Reddy and the Chief Guest Dr. Janardhan Reddy, IAS, Educational Secretary of TS have inaugurated the program by planting a saplings in the campus. The VJIT NSS believes that "Trees" can help clean the air we breathe, filter the water we drink, and provide habitat to over 80% of the world's terrestrial biodiversity. Trees are like the vacuums of our planet. Through their leaves and bark, they suck up harmful pollutants and release clean oxygen for us to breathe. In urban environments, trees absorb pollutant gases like nitrogen oxides, ozone, and carbon monoxide, and sweep up particles like dust and smoke. Healthy, strong trees act as carbon sinks; absorbing atmospheric carbon dioxide and reducing the effects of climate change.

REPORT

The idea of celebrating Ganesha Chaturthi in an eco-friendly manner.

- The students had performed cultural activities to create awareness.
- The students have also made organic Ganesh idols and distributed to the Management and Faculty.

Summary:

To go beyond learning to make the idols, it is to protect our root.

Immersing POP idols with chemical-based paint in water bodies creates a bigger inorganic chain. Aquatic life too gets destroyed.

To protect the environment by opting for eco-friendly Ganesh idols that can dissolve in water, grow into trees, or can be recycled. With an aim to keep the environment safe, by adopting eco-friendly ways to make the idol of Lord Ganesh, ahead of Ganesh Chaturthi.

One of the biggest festival of the year, Lord Ganesha's birthday Ganesh Chaturthi is just around the corner and like every other year, water and Air Pollution will go up in many parts of our country as hundreds of thousands of people will gather to immerse Ganapati idols into the water bodies. Since the idols are made from Plaster of Paris these are non-biodegradable naturally and so these continue to float on the water for a long time thereby choking the water bodies and adversely impacting aquatic ecosystem. Adding to the problem, the idols are often decorated with paints heavy on lead and mercury which adds to the ongoing process of destroying the flora and fauna of the water body.

To fight these challenges during the festival and to protect the environment, four childhood friends who were always passionate about gardening, environment and planting trees, Sudhakar, Bharat, Puneet and Vivek, from Bengaluru came up with Sasya Ganapathi, an eco-friendly Ganesha Puja kit. In Kannada, Sasya means plant, thus the kit provided by theseswachh warriors help devotees go green by converting the idols after visarjan into plants.

Spiritual retreat is time set apart to be in quiet, rest, and solitude with God. Retreats remove us from noise and distraction, and into a place of spiritual refreshing and renewing. Meditation allows an individual to relax the body, mind, and soul. As we settle into the stillness, we notice the stirrings of our soul, our deeper longings, and learn to command mind and soul. Meditation retreats are the best way to enjoy a holistic relaxation process.

Approximately 200 students from all the branches of VJIT Institution have attended. The students were advised to incorporate spiritual activities in their day to day life to maintain optimal health and emotional well-being.
