Harita Haram

VJIT NSS Haritha Haram

Under the VJIT NSS Haritha Haram has been organized at VJIT, on — our Secretary and Correspondent Dr.Palla Rajeshwar Reddy and the Chief Guest Dr. Janardhan Reddy, IAS, Educational Secretary of TS have inaugurated the program by planting a saplings in the campus. The VJIT NSS believes that "Trees" can help clean the air we breathe, filter the water we drink, and provide habitat to over 80% of the world's terrestrial biodiversity. Trees are like the vacuums of our planet. Through their leaves and bark, they suck up harmful pollutants and release clean oxygen for us to breathe. In urban environments, trees absorb pollutant gases like nitrogen oxides, ozone, and carbon monoxide, and sweep up particles like dust and smoke. Healthy, strong trees act as carbon sinks; absorbing atmospheric carbon dioxide and reducing the effects of climate change.

REPORT

The idea of celebrating Ganesha Chaturthi in an eco-friendly manner.

- The students had performed cultural activities to create awareness.
- The students have also made organic Ganesh idols and distributed to the Management and Faculty.

Summary:

To go beyond learning to make the idols, it is to protect our root.

Immersing POP idols with chemical-based paint in water bodies creates a bigger inorganic chain. Aquatic life too gets destroyed.

To protect the environment by opting for eco-friendly Ganesh idols that can dissolve in water, grow into trees, or can be recycled. With an aim to keep the environment safe, by adopting eco-friendly ways to make the idol of Lord Ganesh, ahead of Ganesh Chaturthi.

One of the biggest festival of the year, Lord Ganesha's birthday Ganesh Chaturthi is just around the corner and like every other year, water and Air Pollution will go up in many parts of our country as hundreds of thousands of people will gather to immerse Ganpati idols into the water bodies. Since the idols are made from Plaster of Paris these are non-biodegradable naturally and so these continue to float on the water for a long time thereby choking the water bodies and adversely impacting aquatic ecosystem. Adding to the problem, the idols are often decorated with paints heavy on lead and mercury which adds to the ongoing process of destroying the flora and fauna of the water body.

To fight these challenges during the festival and to protect the environment, four childhood friends who were always passionate about gardening, environment and planting trees, Sudhakar, Bharat, Puneet and Vivek, from Bengaluru came up with Sasya Ganapathi, an eco-friendly Ganesha Puja kit. In Kannada, Sasya means plant, thus the kit provided by theseswachh warriors help devotees go green by converting the idols after visarjan into plants.

Women's rights and gender equality are taking centre stage in 2020.

The Generation Equality campaign is bringing together people of every gender, age, ethnicity, race, religion and country, to drive actions that will create the gender-equal world we all deserve.

Together, we want to mobilize to end gender-based violence; we are calling for economic justice and rights for all; bodily autonomy, sexual and reproductive health and rights; and feminist action for climate justice. We want technology and innovation for gender equality; and feminist leadership.

Small actions can have big impacts in making this vision a reality.
