VJIT NSS successfully conducted HaritaHaram program on 17-08-2019. Secretary and correspondent Dr. Palla Rajeshwar Reddy and Chief Guest Dr. Janardhan Reddy, IAS, Educational Secretary Telangana State has inaugurated the program by planting the saplings. Trees offer many benefits and not only to the environment. They can also have wider social, biodiversity and economic benefits to communities and society. We can arrange tree planting on behalf of businesses. Circular Ecology doesn't add a margin onto tree planting activities. We are simply passionate about planting more trees. In fact, at Circular Ecology we have embedded tree planting into everything we do.

Trees offer many benefits and not only to the environment. They can also have wider social, biodiversity and economic benefits to communities and society.

We can arrange tree planting on behalf of businesses. Circular Ecology doesn't add a margin onto tree planting activities. We are simply passionate about planting more trees. In fact, at Circular Ecology we have embedded tree planting into everything we do.

The most cost effective tree planting is in developing countries. This gives the maximum number of trees for a set budget. They arrange tree planting in locations such as Kenya, Nepal, Madagascar, Haiti, Indonesia and Mozambique. Eden Reforestation Projects reduces extreme poverty and restores healthy forests by employing local villagers to plant millions of trees every year on a non-profit basis.

Haritha Haram

VJIT NSS Haritha Haram

Under the VJIT NSS Haritha Haram has been organized at VJIT, on ---- our Secretary and Correspondent Dr.Palla Rajeshwar Reddy and the Chief Guest Dr. Janardhan Reddy, IAS, Educational Secretary of TS have inaugurated the program by planting a saplings in the campus. The VJIT NSS believes that "Trees" can help clean the air we breathe, filter the water we drink, and provide habitat to over 80% of the world's terrestrial biodiversity. Trees are like the vacuums of our planet. Through their leaves and bark, they suck up harmful pollutants and release clean oxygen for us to breathe. In urban environments, trees absorb pollutant gases like nitrogen oxides, ozone, and carbon monoxide, and sweep up particles like dust and smoke. Healthy, strong trees act as carbon sinks; absorbing atmospheric carbon dioxide and reducing the effects of climate change.

Objective of the Program: To publicize the concept of using the EcoFriendly Ganesha during the Vnyakachavithi Festival and avoid using the Idols made using Plaster of Paris.

REPORT

The idea of celebrating Ganesha Chaturthi in an eco-friendly manner.

- The students had performed cultural activities to create awareness.
- The students have also made organic Ganesh idols and distributed to the Management and Faculty.

Summary:

To go beyond learning to make the idols, it is to protect our root. Immersing POP idols with chemical-based paint in water bodies creates a bigger problem in organic chain. Aquatic life too gets destroyed. To protect the environment by opting for eco-friendly Ganesh idols that can dissolve in water, grow into trees, or can be recycled. With an aim to keep the environment safe, by adopting eco-friendly ways to make the idol of Lord Ganesh, ahead of Ganesh Chaturthi.

One of the biggest festival of the year, Lord Ganesha’s birthday Ganesh Chaturthi is just around the corner and like every other year, water and Air Pollution will go up in many parts of our country as hundreds of thousands of people will gather to immerse Ganapati idols into the water bodies. Since the idols are made from Plaster of Paris these are non-bio degradable naturally and so these continue to float on the water for

a long time thereby choking the water bodies and adversely impacting aquatic ecosystem. Adding to the problem, the idols are often decorated with paints heavy on lead and mercury which adds to the ongoing process of destroying the flora and fauna of the water body.

To fight these challenges during the festival and to protect the environment, four childhood friends who were always passionate about gardening, environment and planting trees, Sudhakar, Bharat, Puneet and Vivek, from Bengaluru came up with SasyaGanapathi, an eco-friendly Ganesha Puja kit. In Kannada, Sasya means plant, thus the kit provided by these swachh warriors help devotees go green by converting the idols after visarjan into plants.

Summary:

A health camp for Teaching and Non-Teaching faculty was organized on 25th Jan 2020 at VJIT Campus. Camp was organized in association with VJIT NSS and HDFC ERGO Health Insurance Co.Ltd.

A team of 10 Doctors from Apollo Hospital conducted the camp which included General physical examination along with Blood Sugar, Blood Pressure, Dental Check-up, Eye Check-up and ECG test.

Approximately 250 Teaching and Non-Teaching faculty from all the branches of VJIT Institution have attended. Necessary medical advice and precautionary measures were given to the faculty.

Camp was coordinated by Mr.E.GiriPrasad Goud, NSS coordinator.

A Free medical Camp can be considered as a life-saving program that aims to provide free medical and surgical services to poor communities living in rural or urban areas by a mobile team with varieties of medical specialized services.

So, medical camps provide free medical advice, medicine to the unfortunate people and refer for specialized treatment or surgery whenever it is required. These camps make sure people are getting healthcare at the right time, and seeing the doctor early enough before a small health problem turns serious.

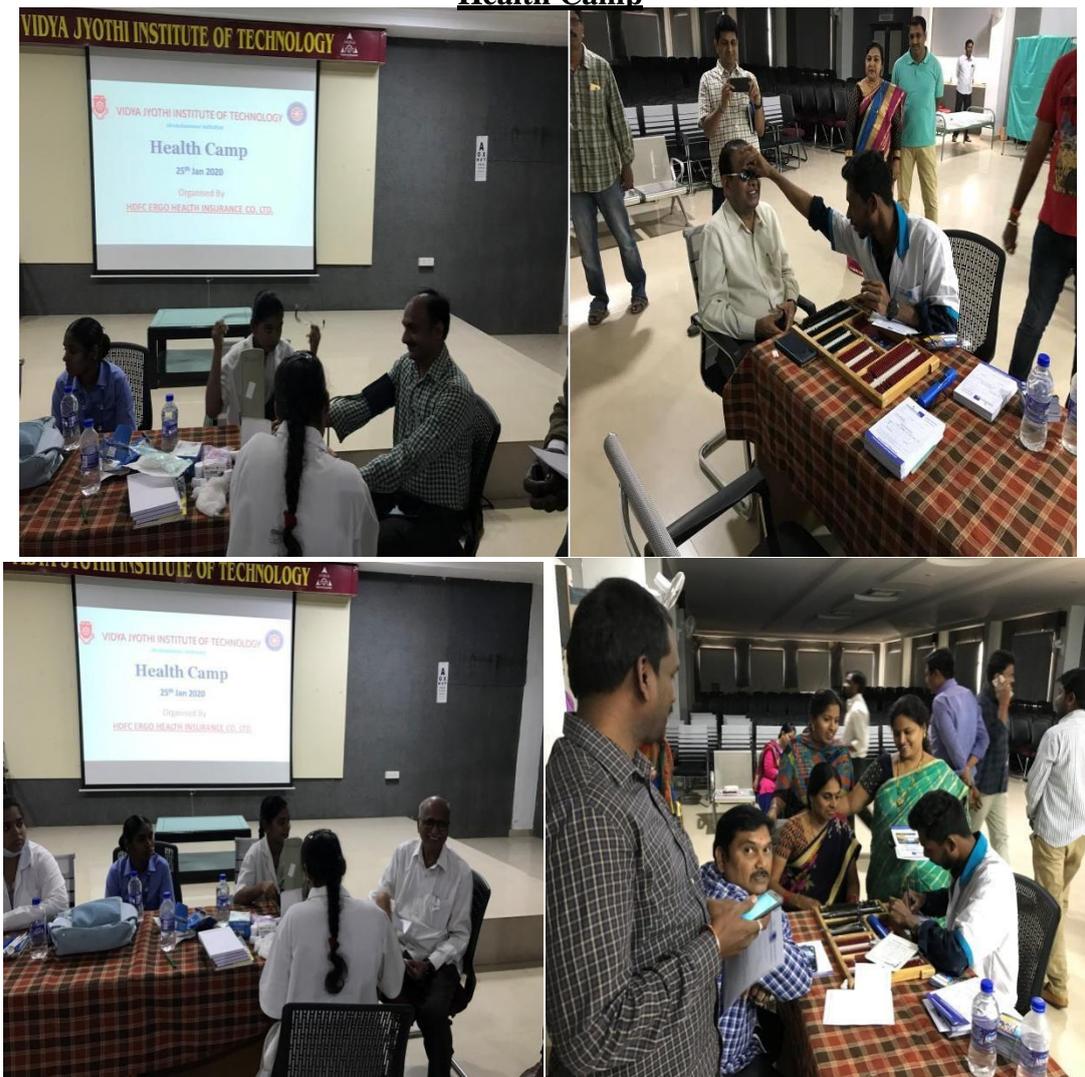

Some NGOs, Charitable Medical Trusts, and medical professionals are driven by strong ethics of medicine who believe that it is the moral responsibility and obligation to treat each patient regardless of their income, race or social status. The main objective of a medical camp is to provide initial care to people in life-threatening conditions which reflect the unique strengths and goals of medical ethics. Other objectives are as stated below:

- Provide free and high-quality medical services and full body complete medical checkup for the poor population.
- Working as an emergency team in disasters.
- Raise health awareness among the community and teach them to deal with communicable and non-communicable.
- Register and severe cases and refer them to specialized centers.
- Evaluate the living conditions and determine the obstacles and challenges to work on solving their problems.

Refer medical cases towards surgeries if required.

As a socially cognizant organisation, Venkateswara Group of Institute has undertaken a major initiative of organizing free health check camps dedicated to ensuring the health of expecting mothers. Following the pledge of 9000 doctors from renowned Hospitals to dedicate to provide healthcare services and completely free medical health checkup to poor people urban, semi-urban and rural areas of India, free medical camps are conducted in Venkateswara Group of Institute campus. These camps are being conducted specifically for pregnant women with active participation by Clinicians, Nurses and Support Staff from specialized hospitals.
