About VJIT

Vidya Jyothi Institute of Technology (VJIT) was established in 1998 by Vidya Jyothi Educational Society (VJES), created by a group of committed academicians and enterprising educationalists. VJIT quickly won the confidence of the parent community and the students to become one of the select destinations for future engineers. The college is situated in the backdrop of Osmansagar (Gandipet) lake in the serene surroundings of Chilkur Balaji Temple. The college has as a sprawling and lush green campus with architecturally splendid buildings in an area of 12 acres.

The college is approved by AICTE and gained an autonomous status under the University Grants Commission (UGC). VJIT offers instruction in undergraduate programs in 8 disciplines: AI, CSE (DS), CSE, IT, ECE, EEE, Mechanical and Civil Engineering, also with 5 post-graduate programs in EEE, ECE, CSE, Mechanical Engineering, Civil Engineering and MBA. The Institute has received accreditation for all UG programs from NBA and is also accredited by NAAC. The college owns excellent state-of-art infrastructural facilities for knowledge acquisition by the students and nurtures them holistically to make them competent to excel in the global scenario. The college prides on the fact that it has a very senior and highly accomplished faculty one of the best in the region. The highest quality of VJIT's academics is mirrored in the consistent 95% academic results. The institution registers an average of 82% placements for eligible students

About IUCEE

Indo Universal Collaboration for Engineering Education (IUCEE) was formed by a group of academic and industrial experts from India and the US and gradually included experts from other countries as well. The vision of IUCEE is to improve the quality and global relevance of engineering education in India. For the first two years in 2008 and 2009, US experts travelled to India to discuss global best practices in teaching and research in their field with Indian faculty at Faculty Leadership Institutes.

IUCEE realized that sustainability of the mission of IUCEE requires an ecosystem for transformation with focus on faculty development, student development, curriculum development, as well as improved teaching technologies & engineering education research. The IUCEE Consortium is a network of institutions forming the core of the ecosystem for the required transformation. These institutions value such an ecosystem by sharing, collaborating and contributing to it and making it financially sustainable

Vision

- To improve the quality and global relevance of engineering education
- To learn tools & strategies for faculty to make their classes more effective
- To promote innovation and research in Engineering Education

Objectives

- Prepare engineering graduates thoughtful, well-rounded, multidisciplinary, holistic and creative with ethical values, intellectual curiosity and scientific temper
- Empower faculty members with the best practices in curriculum design, teaching learning and assessment through training, workshop and other related activities.
- Encouraging innovation in curriculum design, teaching – learning and assessment
- Facilitate research and systematic study of the impact of pedagogical practices
- Conduct outreach activities like publication, workshops, trainings and conferences
- Empower Students through IUCEE SPEED

Domains Selected for Strengthening

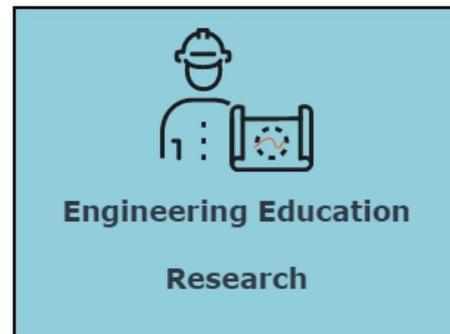

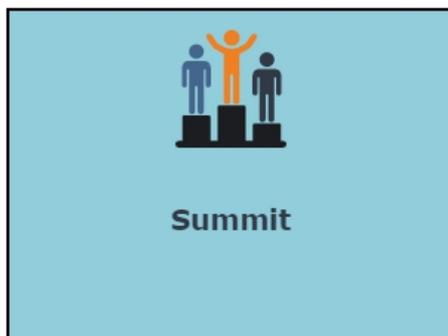

- Outcomes based Education
- Curriculum & Instructional Innovations
- Technology Enhanced Learning
- Industry Engagement
- Pedagogical Training & Certification
- Engineering Education Research
- Students development

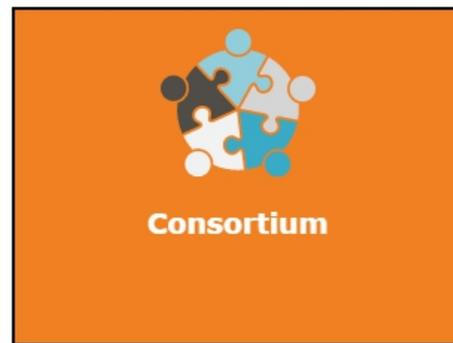

Curricular Aspects

- Faculty are involved in curriculum design of various Autonomous Institutes and as guest faculty for various Institutions like JNTUH, OU, NIT & reputed Institutions
- 3 Faculty members trained under International Engineering Educator Certification Program
- Faculty gave lectures in GENTLE: Global Education network for teaching & learning : Which enables faculty creation of MOOC like course content
- Course Content Development for Monad University and IBM, USA

Collaboration

The collaborating areas are Annual Leadership Summit, Webinars with experts, Students platform for Engineering Education development, Engineering education without borders, Journal for Engineering Education Transformations (JEET) - A Scopus Indexed Journal, Engineering Education Research (EER), Annual Conference ICTIEE, Engineering Educator Certification (IIEECP), Virtual Academy and Institutional Consortium and Faculty Certifications in Teaching & Learning and Students Certifications

Annual Leadership Summit

The Annual Leadership Summit was an outcome of the realization among several leaders of IUCEE institutions that good governance and institutional leadership is fundamental to the survival and progress of Indian engineering institutions in the challenging times. The vision of the Leadership Summit is to bring together leadership teams of Consortium institutions in order to share and collaborate. VJIT actively participate in this Leadership Summit.

Student Leadership Certificate (SLC)

The objective is to develop student leaders who will create sustainable IUCEE Chapters and EWB India Student Chapters at their institutions. The course was conducted through a series of biweekly webinars with assignments. Five students from each institution participated and were guided by one faculty mentor at each institution. Topics covered in the programs are, Create awareness of leadership qualities, Understand and explain concepts behind key inventions from a variety of engineering fields, Discuss the Basic Concepts of Design Thinking develop solutions to engineering problems, Create an IUCEE Student Chapter, Identify local Challenges relevant to Grand Challenges, Engage with one local grand challenge, Obtaining contact info for selected EWB chapters and learn from Case Studies, Formation of EWB India Student Chapters. VJIT students are trained and received their SLC.

Journal for Engineering Education Transformations (JEET)

It is a scholarly journal committed to the advancement of theory, research and practice in the field of engineering education. Published in India, the world's largest hub of engineering education, JEET is international in its scope inviting scholars and experts from across the globe to share their theoretical insights and innovative practices for the enhancement and transformation of engineering education.

JEET is a peer-reviewed journal made available in both print and online versions. A double-blind peer-review process performed by experts in the field will ensure the highest standard in scholarship. It is ranked in the top 20 in Google Scholar's Metrics in Engineering Education, with an h5-index of 6 and h5-median of 7 as of May 2020. It is on the UGC-CARE list and SCOPUS indexed. VJIT faculty members regularly publish and few of VJIT faculty members are reviewer for the journal.

Engineering Education Research (EER)

Several innovative pedagogical practices are introduced to try out in the classrooms. Research shows new teaching from “chalk and talk” methods to pedagogical techniques are more effective. A natural consequence of this movement is to share best practices with colleagues within and across institutions. year-long in-depth course was to create an environment for those seriously interested in taking up engineering education research in India to get access to not only information and tools that would help them, but also to connect with others at other institutions to establish a community that would flourish over the years. One of the primary changes is that we will be offering two separate avenues for faculty to engage in engineering education research- a set of micro-credentials that will be offered throughout the year for those who are completely new to this area of research, and a year-long Engineering Education Researcher Certification for those who are already engaged in EER, but would like to enhance their knowledge. VJIT faculty members are undergoing the EER.

Annual Conference ICTIEE

An important part of this ecosystem is Our Annual Conference (called the International Conference for Transformations in Engineering Education, ICTIEE), held every year in order to facilitate the sharing and collaboration between the institutions, faculty and students associated with IUCEE. Another important objective of the Annual Conference is to provide a forum for hearing from and building partnerships with international experts as well as industry experts. The first Annual Conference, ICTIEE 2014 is conducted in 2014. Latest Eighth Annual Conference, ICTIEE 2021 was held virtually on January 8 to 10, 2021. VJIT faculties are regularly participate the conference, present papers, review papers and chair the paper presentation in the ICTIEE conferences.

Engineering Educator Certification (IIEECP)

Perhaps the very first certification program in engineering pedagogy in India, IIEECP is very different from conventional faculty development programs. The program was over two years in the making, and is based on four very clear philosophical convictions: The program must be fully customized for Indian engineering education system and should be well grounded in cultural, social and academic realities in India. The faculty training, the must be offered for a sustained period of time and include a well-designed practicum component. Participants must be able to experience the strategies taught by actually planning, implementing & evaluating them in their own classes. Each practical strategy taught must be placed in a proper theoretical framework to empower the faculty to make required modifications to meet the local challenges. The training must be equally focused on developing personal and professional confidence by developing a responsible, reflective mindset –a mindset that is focused on ‘what I do’ rather than on ‘why it cannot be done’. Each and every assignment in the program is designed to include this objective. VJIT faculty members participate and received the certification

Virtual Academy

The IUCEE Virtual Academy, started in 2010, uses technology to enable Engineering Education experts to conduct live Webinars and Mini Courses on-line to faculty and students all over India.

The objective of the Virtual Academy is for experts around the world to offer insights into how to improve engineering education, using technology. Technology has its limitations compared with face-to-face workshops, but has the advantage that delivery is at much lower cost and can reach multiple users at different locations simultaneously. VJIT faculty members and students attend the updates their knowledge.

Institutional Consortium

IUCEE realized that sustainability of the mission of IUCEE requires an ecosystem for transformation with focus on faculty development, student development, curriculum development, as well as improved teaching technologies & engineering education research. The IUCEE Consortium is a network of institutions forming the core of the ecosystem for the required transformation. These institutions value such an ecosystem by sharing, collaborating and contributing to it and making it financially sustainable. Annual fees from these institutions enable IUCEE to maintain a minimum staff for operations and to support essential travel and infrastructure. Members of the consortium receive special assistance in establishing collaborations with international experts and institutions. VJIT is the member in the consortium.

Outcomes through Collaboration

Achievements of the Institute

- * VJIT is a Consortium member of IUCEE
- * Institutional member of SPEED from 05th July 2017
- * VJIT established a student chapter under the name and style of "Engineers without Borders - India VJIT Student Chapter" on 5th December, 2020.
- * VJIT actively participate in IUCEE-EPICS (EPICS projects are intended to solve real problems, and are defined in consultation with project partners from not-for-profit community organizations)
- * Dr. P. Rajeshwar Reddy, Chairman, Anurag Group of Institutions attended WEEF-11 at Portugal, WEEF-12 at Buenos-Aires, Argentina and WEEF-13 at Chicago, USA
- * Improved teaching learning methodologies.

Five workshops conducted in collaboration with IUCEE Experts

- ABET-Accreditation Process
 - Effective Teaching Pedagogies in STEM Discipline
 - Active Learning Techniques and Project Based Learning
 - Engineering Projects in Community Service
 - Mixed Signal IC Design for Electronics Department faculty are conducted in collaboration with IUCEE
- * Presented two webinars on IUCEE Initiatives and Curriculum Design and Instructional Strategies for Experiential Learning
 - * About 30 faculty members of VJIT attend ICTIEE yearly conference regularly
 - * Organizer and Convener for Seventh International Conference on Transformations in Engineering Education (ICTIEE' 2020)
 - * Faculty members are Reviewer for the Journal of Engineering Education Transformations (JEET)
 - * 10 Senior Professors are chaired sessions in ICTIEE 2020
 - * 10 faculty members participated in ICTIEE 2017, Vardhman College of Engineering, Hyderabad
 - * 12 faculty members participated in ICTIEE 2016, College of Engineering, Pune
 - * 15 faculty members participated in ICTIEE 2015, BMS College of Engineering, Bangalore, 2015
 - * 10 faculty members participated in ICTIEE 2014, B V Bhoomaraddi College of Engg & Technology, Hubli

Achievements of the Faculty members

- * Reviewing the papers of ICTIEE and also in chairing the sessions at ICTIEE
- * 20+ papers have been presented in ICTIEE Conferences
- * Reviewers for the JEET, Scopus indexed journal
- * Dr. Sreeram Reddy, Mr Y Praveen Kumar and Mr T Parameshwar are certified by IIEECP
- * B. Sailaja, Devi Borra, Dr.K. Ramesh Babu, Mrs. M.N.L. Anuradha, Pavani Kancharla and Mrs. Haritha has completed the course on "Online Teaching", July to September 2020 **with Distinction**
- * Dr.S. Saravanan, Mr. KSRK Sarma, Mrs. Bhagavathula Monika Priya, has completed the course on "Online Teaching", July to September 2020
- * Mr. Y. Praveen Kumar is a Faculty Chair, IASF 2020

Achievements of the Students

- * Venkateshwars Rao completed IUCEE Student Leadership Course Phase 2 **with distinction** in August - November 2020
- * A. Rohit Reddy, Abhishek Raj, Adarsh, B.Lakshmi Durga, D S A Rami Reddy, G Sai Shubhankh, G.Srilekha, Jyothi Induja, Kowsalya, Margaret Wesley, Mohammed Abdul Kareem, P S Anand Krishnan, P.Juhitha Reddy, Richal Pandey, Sai Charan, Sannidhi Baljepally, Shravya and Veeravalli Bindu sree has completed IUCEE soft skill course conducted by Business Excellence, Inc. Chicago, USA in August 2020
- * Harshit Reddy, has secured winner title in IUCEE Annual Student Forum 2020 on the theme "Challenge for A Change" from 4-7 January, 2020
- * M. Ankitha has secured runner title in IUCEE Annual Student Forum 2020 on the theme "Challenge for A Change" from 4-7 January, 2020
- * Coco Kasaya project received 2nd Prize in IUCEE-EPICS Prototype Projects competition 2020
- * Ms. K. Sai Chaitanya Reddy, Mr. V. Sai Ganesh and Ms. Pravallika are Student Co-Chairs, IASF, 2020
- * Secured 1st position in the IUCEE SPEED Regional Student Forum on the theme "Engineering Education for Multifaceted Engineers" conducted at Vignan's Institute of Information Technology on 18th - 20th August 2016
- * B. Santosh Pawan Kumar and his team of Students participated in World Engineering Education Forum, WEEF 2015, Engineering Education for a Resilient Society, Florence, Italy on September 17th – 20th 2015
- * Mr Ajay and Mr Santhosh Pawan were selected as Registration Officer and Social Media Officer respectively for ISF 2015 at BMS College, Bengaluru
- * Mr Ajay has been selected as a student facilitator and conducted the workshop at SR Engineering College during Sep15-17, 2014

VJIT Journey with IUCEE

Year 2014

National Level Workshop on Teaching-Learning and Evaluation is organized at VJIT on 14th – 15th July 2014. The following topics are focused in the workshop, Project Based Learning, Effective Teaching Strategies. Photos of workshop are as follows.

Inauguration of the Webinar

Prof. Krishna Vedula, Executive Director, IUCEE addressing the participants

Prof. Siva Krishnan, Purdue University, IUCEE Faculty Expert explaining the Active Learning and Project-based Learning Methods in Engineering

Prof. Krishna Vedula, explain the concepts to the students

Dr. P. Rajeshwar Reddy, Chairman, Anurag Group of Institutions address the gathering

Participants Photos in the workshop Project-based Learning Methods in Engineering

Two days national level workshop on Effective teaching pedagogies in STEM discipline is organized at Anurag Group of Institution, Hyderabad on 6th – 7th August 2014. The photos of the event are given below.

Dr. Neeraj Buch
Michigan State University, East Lansing

**IUCEE WORKSHOP ON Engineering Projects in Community Service (EPICS)
August 2nd 2014**

Participants of workshop on overview of Community Service Projects

Dr. William Oaks, DIRECTOR, EPICS, Purdue University address the gathering

EPICS PROJECTS - PRESENTATION BY FIRST YEAR STUDENTS

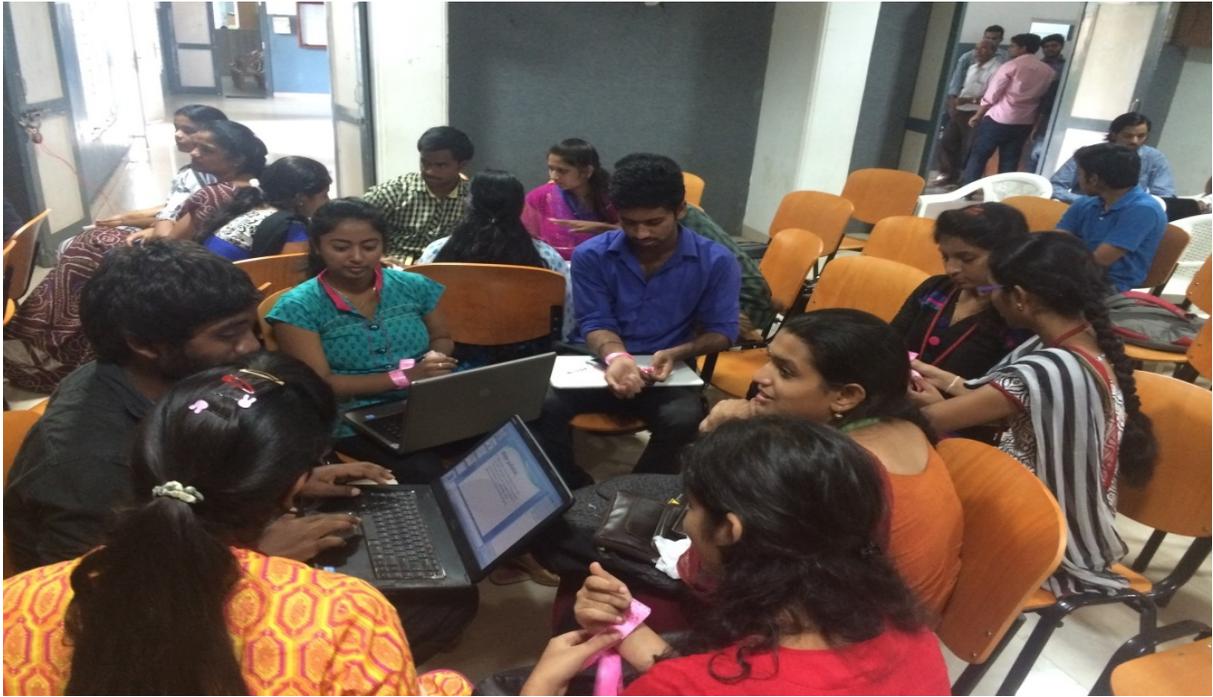

Student Support and Progression

REGIONAL SPEED WORKSHOP, September 15th to 17th 2014

21st Century Grand Challenges of Engineers

Students explain the working of the project

Students' discussion and creating their work in the workshop

Students group participate in the workshop

Students Participants in REGIONAL SPEED WORKSHOP

Certificate distribution in REGIONAL SPEED WORKSHOP

Student Support and Progression

IUCEE

- IUCEE SPEED : Students of VJIT participated in SPEED conference during Jan 13-16, 2014 and won appreciation certificates for suggesting BEST Action Plan of the Track in “National Indian Student Forum-2014”
- ICTEE 2014 DR Bhoomaraddy College of Engineering, HUBLI
- The Action Plan Track Winner Mr. Ajay, I yr B.Tech has been invited to RIT Engineering, College to share his experiences.
- VJIT took initiative to introduce SPEED chapter.

National Indian Student Forum-2014

International Conference on Transformations in Engineering Education **ICTIEE - Hubli 2014 INDIA**
16th to 18th January, 2014

Home Organization Call for Papers Program Event Info Registration Contact Downloads Student Forum

Host K.L.E. Society's B.V. Bhoomaraddi College of Engineering & Technology Hubli - Karnataka State - India

Co-organiser Indo-US Collaboration for Engineering Education **Sponsor** TEQIP Govt. of India

Collaboration AS E E I F E S G E D C

Confirmed Guests of Honour for the Conference

International conference on Transformations in Engineering Education (ICTIEE 2014) is conducted on 16th – 18th January 2014 in Hubli, India

A Two days National workshop on Active learning and project based learning methods in engineering is organized in VJIT in collaboration with IUCEE

Mechanical Engineering Dept. introduced PBL in the following courses

Course/Laboratory	Result/Outcome
Mechanics of Solids	A project on Analysis of beam with different materials/sections
Metallurgy and Material Science	Project on preparation of nano particles

Year 2015

Participation in International Conferences, ICTIEE 2015, ISF 2015, 21st Century grand challenges of Engineering. VJIT is the winners under Infrastructure Track: Project named, “AUTO TANK: “Won the best action plan award”

Student Support and Progression

Team Members: Shubanyu, Teja and Vinay from Mechanical Engg. 2nd Year.

Participation in ICTIEE 2015, BMS College of Engineering, Bangalore

- Sixty students have participated in ISF
- Nearly 19 students have conducted RSF'S at various places in India. Five students have participated in GSF.
- Six SPEED leaders are part of SPEED National Committee.
- Students participated in Roboversity challenge.
- Facilitator training programme in Mumbai in June 1st week 2016

Student Support and Progression

Student Participation and Activities

International Engineering Educators Certification Program's IIEECP

In 2015, IUCEE with assistance of IGIP (International Society for Engineering Education), Austria has started certifying engineering faculty, IIEECP. The objective of the Certification is to provide engineering educators with the skills and tools to be effective teachers.

Three faculty have completed the course.

1. Prof Sreeram Reddy
2. Mr Y Praveen Kumar
3. Mr T Parameshwar

Gurukul Summit

1. To understand importance of good governance and institutional leadership as fundamental to the survival and progress of Indian engineering institutions in the challenging times **and to identify specific areas for improvement.**
2. To share and learn from the case studies of 'successful Institutional transformations', through good governance and effective leadership
3. To understand the roles and responsibilities of the leaders in the institutional transformational process and the competencies they need to develop **and establish a plan for development of these competencies**
4. To understand the systemic tools and frameworks that can be used to lead the engineering colleges and Universities to achieve excellence and to identify which two or three tools to be selected for deployment in the next year
5. Paper Publications in the conference on theme of Teaching and Learning.

12.	P Chandrakumar	ECE	3 rd

College of Engineering Pune (COEP), Maharashtra - 3rd ISF

About VJIT:

Founded in 1998, by a group of committed academicians and enterprising educationists, VJIT quickly won the confidence of the parent community and the students to become one of the select destinations for future engineers. Soon the lamp of knowledge began to spread its radiance far and wide. The college has highly qualified and committed faculty. VJIT is rated as one of the best engineering colleges in the region. The high quality of VJIT's academics mirrors in the 95% academic results and the Institution registers an average of 75% placements for eligible students.

The R & D of the college introduces the research from first year onwards. The students have been registered in JUCEE-SPEED and actively participating in giving engineering solutions to the problems related to community.

SPEED

Student Platform for Engineering Education Development (SPEED) is a global, non-profit student organization that functions as an interdisciplinary network of engineering students, who aspire to provide opinion and create an impact on future development of engineering education and its effect on society and environment. We look to inspire the actions and development of broad minded and global engineering student leaders who intend on helping engineering education evolve.

Collaboration with JUCEE

Indo US Collaboration for Engineering Education (JUCEE) program was conceptualized by over 150 leaders of engineering education and businesses from US and India in 2007 to help create good quality engineering talent in order to find solutions to the global challenges facing humanity such as energy, environment, health and communications. SPEED-India collaborated with JUCEE in 2013 and is more enthusiastic to pursue the path for improving the quality of engineering education in India.

RSF

Engineering students who are willing to work for the betterment of engineering education in India are reached out through regional workshops. 5 workshops were conducted in 2013 across India, followed by 8 in 2014 and 19 in 2015, from which student leaders were identified. The students are taught about planning and implementing action plans systematically and then are asked to take up a problem pertaining to the theme of the workshop and work upon it. Activities in the workshops include brainstorming sessions, poster making, prototyping, personality development sessions, team building, mailing etiquette's and action plan creation. As and when a workshop nears its conclusion, 4 student leaders are identified from each college to be given the posts of Chapter Secretary, Joint Secretary, Internal Affairs Officer and Finance Officer of the SPEED Chapter which will be formed in their college. RSF-2015 was conducted in between 1st and 3rd August 2015. There were participants from over 2 states to participate in the forum. And on a whole it was a grand success.

Theme:

Engineering Education for Multifaceted Engineers:

Engineering plays a great role in the development of a modern country and sustaining an International competitive advantage. As technology progresses, the engineering education dimensions also become more and more diverse. However, engineering education continues to mainly focus on the phase of organizational level, rather than the individual level. Academic requirements, such as curriculum design, technique development, instructing approaches, and the corresponding industrial needs etc. This year, in the theme of "Engineering Education for Multifaceted Engineers", we focus on philosophical subjects, which are the innovative issues of multifaceted engineers' needs, rather than the object of Engineering Education. The corresponding questions will be, how can engineers start up their own careers, or companies? Why should we include art in Engineering Education, and how does art interface with engineering design? Should, and how can engineering curriculum be structured to include education in resiliency for engineering design? To propagate the same, the theme will be divided into 3 streams or tracks.

Tracks:

Track 1:

Entrepreneurship in Engineering Education

Track 2:

Art in Engineering Education

Track 3:

Resiliency in Engineering Education

Achievements of VJIT students in the 3rd Indian Student Forum:

- P Ajay of ECE-III was selected as National Facilitator.
- Three students -P Prathyusha, H Roopak and C KavyaSree, all of ECE-III moderated the forum.
- Three groups- B Santosh Pawan Kumar & A Swarnamani of ECE-III, H Roopak& K Chandrika of ECE-III and C KavyaSree of ECE-III presented poster in the forum and two posters (Santosh & Swarna, Roopak& Chandrika's) backed first and third prizes of Rs. 2500/- and Rs. 1000/- respectively.
- Kavya Sree & H. Rupak III B.Tech received Best Poster Award for presenting a poster on '21st Century Grand Challenges of Engineering" at ISF – ICTIEE – 2015, BMS College of Engineering, Bangalore from 5th – 8th January 2015.
- Santhosh Pavan Kumar, IV B.Tech is selected as Facilitator Coordinator and A. Swarna Mani as Educational Content Officer for SPEED – India for the year 2016.
- B Santosh & P. V. N. Ajay, III B.Tech participated in "World Engineering Education Forum (WEEF)" at University of Florence, Italy during 17th – 20th September, 2015.
- Santhosh Pavan Kumar & A. Swarnamani III B.Tech won Best Poster Award and cash prize for the paper titled "Computer Aided Integrated Circuit Design" in ICTIEE Conference held at Pune from 10th -12th January, 2016.
- One student was selected as National Facilitator
- Two students were selected into the National Committee and Three students moderated the forum
- A total of 15 students apart from the above mentioned participated in the forum
- Three groups presented poster in the forum and two posters backed first and third prizes of Rs. 2500/- and Rs. 1000/- respectively.
- After the 3rd ISF, the 3rd FTP was conducted and Nikhita kottam was selected as a facilitator from VJIT apart from the six old facilitators and she too got opportunities to serve SPEED by facilitating speed workshops in different colleges in India.
- It was followed by 3rd RSF workshop in VJIT held on 1st, 2nd and 3rd of September 2016 in which students participated with great enthusiasm and with innovative ideas.

In the month of November two students of VJIT- D.Tarun Chakravarthy and Eswar, both of final year, ECE department were sponsored by the college to attend the **12th GLOBAL STUDENT FORUM, held at Seoul, South Korea**

Report of GSF(Global Student Forum) and WEEF (World Engineering Education Forum)

Day 1 (NOV 4th, 2016)

Detailed explanation about 12th Global Student Forum (GSF) given by Avneeth Heera (President of SPEED) and followed by keynote addressed by Ewha Womans University professor, who was an inspiring lady. Then we had presentation on tracks I.e.

Track 1 (Eradicate Extreme Poverty and Hunger),

Track 2 (Achieve Universal Primary Education),

Track 3 (Promote Gender Equality),

Track 4 (Ensure Environmental Sustainability) which are given by the track facilitator.

Ice breaking session called "Name Tag" which was an interactive session through creating our own name tag and knowing each other.

GSF team gave us a document to fill which is of details and interests of the participant based on the response they divided the participants into teams of 4-5 members which are from different countries.

Allotted track rooms presented a poster on the track.

Selected to track 1 (Poverty and Hunger) and we are of five people who are from different zones like Columbia, Korea. Our team facilitator is MR. Samuel Filgueira, and we had a brainstorming session for the day.

Day 2 (NOV 5th, 2016)

We started recollecting the ideas and presentation that we had on 4th Nov, 2016 and started preparing a layout of our ideas while discussing with the team and noting down the points and concepts to prepare an action plan after taking into consideration of each and every individual in the team.

Then we had a community services which is actually planned on 6th Nov,2016 but due to some technical issues the GSF team preponed the activity to 5th nov,2016 which is an exciting part of the GSF every team in different tracks explained their ideas through a poster by forming a circle to grab the attention of public through cheering the representors on the ground.

Lunch Break

After lunch we started working on action plan meanwhile seeking some suggestions from track facilitators and elaborating our ideas and perspectives. Giving some feedback to the team and having their word on it.

Dinner: After all Hours of Hard work and now it's time to relax and represent our own tradition. People from different countries started represented their culture and made a wonderful and memorable cultural night.

Day 3 (NOV 6th, 2016)

This is the final day of GSF which started with an detailed speech addressed by Rohit Kandakatla (Former President of SPEED) about the elections of speed. After the speech we started working on our action plans which is of preparing a final presentation of our action plan. In between we had an Ice breaking session by team TOTAL (SPPED SPONSOR)

Lunch Break

The presentation of our action plans I.e of track 1 Eradicate Extreme Poverty and Hunger was started every team is allowed to present for about 10 min. including Q&A, we had a judge from Kenya. After that there was an presentation and announcement of action plan winners, election result by Former Speed President. Final presentation and introduction about WEEF by Dinesh Radhakrishnan.

Dinner: We had an welcome dinner at Coex Mall which was organized by WEEF, this is an Universal event where delegates form different professions will meet together. There is no matter of age to express yourself and to interact with most inspiring people it's an honor to be a part of this magnificent event at Seoul, South Korea.

WEEF:

This was organized on November 6-10, 2016. We had an detailed interaction with NI-LabVIEW team, MATLAB Team, Team TOTAL, AIRBUS etc. Me (Tarun Chakravarthy D) and My colleague (Eswar Rao) also participated in Global Entrepreneurship Challenge and proposed an business model named BREAKFAST GET FAST, Which was an wonderful experience.

Participation in 12th Global Student Forum “Empowering the Millennials”

Thank you for your participation!

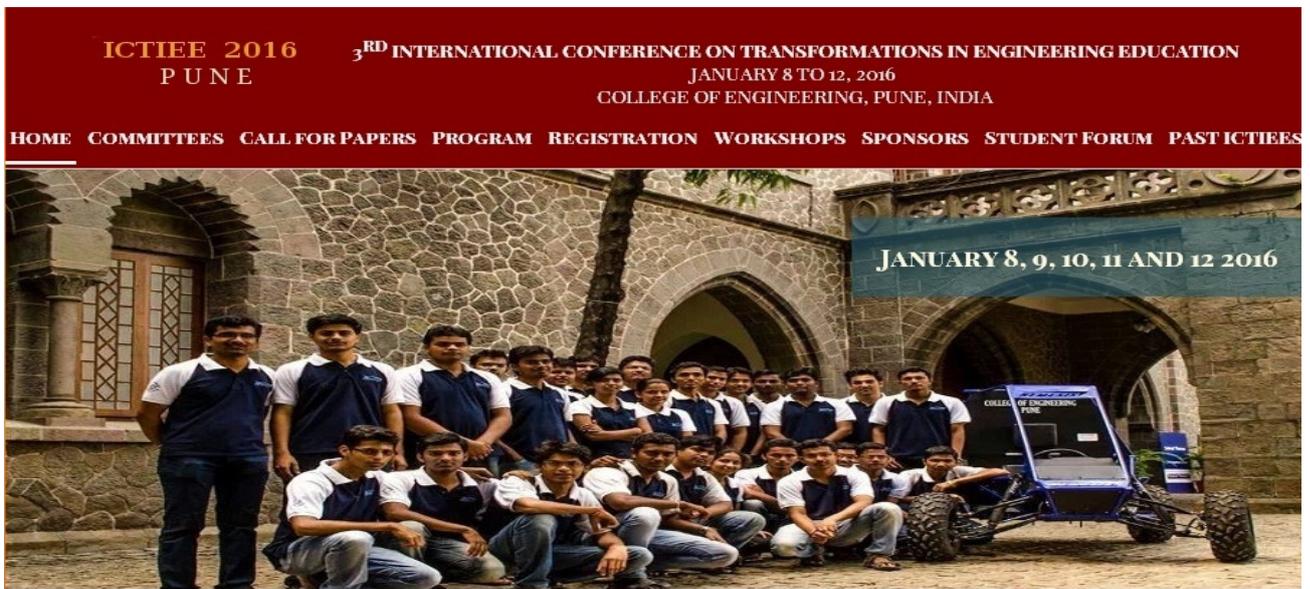

On behalf of the organizing committee of WEEF & GEDC 2016, Seoul, we sincerely express our gratitude for participating in WEEF & GEDC 2016, Seoul held on Nov. 6-10, 2016. Thanks to your interest and active support, the conference was successfully concluded with 760 participants from 60 countries.

An outstanding success and the outcome of WEEF & GEDC 2016, Seoul could not have been achieved without your invaluable contribution. We believe that the conference offered an excellent opportunity to strengthen network between each participants and to share up-to-date progress in the field of engineering education toward the smart society. We hope that you found WEEF & GEDC 2016, Seoul to be a valuable and rewarding experience and keep your memory by reviewing pictures in the Gallery on the website.

We look forward to having the opportunity to collaborate with you in the near future and to see all of you in WEEF 2017-Malaysia, GEDC 2017-Canada, WEEF & GEDC 2018-USA.

Student D.Tarun Chakravarthy winning the first position in the IUCEE SPEED RSF on the theme Engineering Education for Multifaceted Engineers, Vignan's Institute of Technology on 18th – 19th August 2016

Participation at International Conferences, on Transformations in Engineering Education, 8th – 12th January 2016, in PUNE, India

Year 2017

4th RSF Workshop in VJIT held on 7th, 8th and 9th of September, 2017 in which participants from around the city participated with enthusiasm and innovative ideas to work on. The Theme for the Workshop was “Empowering the Millennials”

MANIPAL UNIVERSITY JAPUR | **FOURTH INTERNATIONAL CONFERENCE ON TRANSFORMATIONS IN ENGINEERING EDUCATION** | **www.ictee.org**

ICTEE 2017 Japur | **DATE: 11-12 January, 2017**

ORGANIZER: IUCEE
The Indo Universal Collaboration for Engineering Education (IUCEE) was established in 2007 with the vision of facilitating Transformations in Engineering Education through global collaborations. IUCEE offers a wide range of programs aimed at improving the quality and global relevance of engineering education in India, with the involvement of a large network of international faculty, students, institutions, and industry. It is sustained largely by a consortium of engineering educational institutions across India (www.iucee.com).

HOST INSTITUTION AND CO-ORGANIZER: MUJ
The Manipal Education Group, with 300K students, 200K alumni & 80K manpower, merits excellence in higher education for over 50 years. Manipal University Japur (MUJ) in 2011, MUJ provides excellent ambience to enhance the teaching-learning experience and to promote creativity and innovation.

The University boasts of the best-in-class infrastructure, including the state-of-the-art research facilities and a modern digital library. MUJ, as multi-disciplinary University, offers career-oriented courses at UG, PG and Doctoral levels across diverse streams, including Engineering, Design, Arts & Law, Sciences and Management. Currently more than 5000 students from diverse backgrounds have already been enrolled across all programs. A well-qualified team of 300 faculty members is the asset of the University with a large number of them having Ph.D.

ICTEE-2017
The vision of the Fourth International Conference on Transformations in Engineering Education (ICTEE-17) is to bring engineering educators from across the world to share best practices for preparing engineering graduates who will be leaders in addressing global challenges. The major theme will be the sharing best practices, from around the world, that can be used by colleges that have recently received autonomy or plan to apply for autonomy in the near future. These best practices are expected to be useful to well-established institutions as well in their efforts for continuous quality improvement. The conference program, from Jan 11 to 12, includes Paper Presentations, Keynote Addresses, Plenary Sessions, workshop and Panel Discussions, which will be planned to ensure that presenters and participants maximum interactions. The historic city of Japur, known as Pink City, has many tourist attractions for participants and guests.

CALL FOR PAPERS
ICTEE-Japur 2017 is aimed at providing a platform for the stakeholders of Engineering Education to share best practices of transformations in Engineering Education. Papers and posters are invited on the following themes which are based on the recommendations of 'Engineering Education in India 2025':

1. Governance and Leadership
2. Teaching and Learning Innovations
3. Industry Academy Partnerships
4. Outcomes Based Education
5. Entrepreneurship and Innovation
6. Research Cluster

PAPER SUBMISSION
The Papers submitted will go through a review process and shall be accepted for Oral / Poster presentations. All papers accepted will be published in the Online Journal of Engineering Education Transformations (JEEET), the official Journal of IUCEE.
JEEET website: <http://journal.ictee.org/index.php/jeeet/index>
Selected papers will be published in the Print version of JEEET.

WORKSHOP
Workshop on Writing Effective Research Article and Project Proposals also will be a part of the conference and will be held on 11th Jan, 2017.

PATRONS
- Prof. Sandeep Sonabtel, President, MUJ
- Prof. Vandana Garg, Vice-President, MUJ

Conference Chair
- Prof. Nini Nijjan Sharma, Director, SAMBA, MUJ

Co-Chair
- Prof. Ajay Kumar, HOD- Mechanicals, MUJ

ADVISORY COMMITTEE
- Prof. Neeraj Kumar Garg, Dean, IIT, MUJ
- Prof. Raj Sharma, Dean, FAC, MUJ
- Prof. Dipanwita Debbarma, Director, SCIE, MUJ
- Prof. Dr. Vikram Chandra, Director, SCIE, MUJ
- Prof. Deepak Mathur, Director, SCIE, MUJ
- Prof. Gopalakrishna Prabhu, Director, MEI
- Dr. Rajeshwar, Director, Education, IIT Bombay
- Prof. S. Gokulakrishnan, Director, IIT Bombay
- Prof. K. Rama, Director, MEI, Japur
- Dr. Ashwini Kumar, Director, IIT, Japur
- Prof. C.K. Mohan, Professor, IIT, Japur
- Dr. Chandra Shekhar K. Chakraborty, Director, IIT, Japur
- Prof. Dr. Venkateshwar, Professor, IIT, Japur
- Prof. Anil Kumar, Professor, IIT, Japur
- Dr. H. H. Harshad, Former Chairman, AICTE
- Dr. H. H. Harshad, Chairman, IIT, Japur
- Dr. Michael Aziz, Professor, IIT, Japur
- Dr. S. K. Saha, Director, IIT, Japur
- Dr. Sushma Kulkarni, Director, IIT, Japur
- Dr. Chandra Singh, Director, IIT, Japur
- Dr. Anil Kumar, Director, IIT, Japur

IMPORTANT DATES
Last date for Paper/Poster Submission: **September 15, 2016**
Notification of Acceptance: **November 15, 2016**
Submission of Camera Ready copy: **December 1, 2016**
Student e-con Registration deadline: **December 1, 2016**
Author Registration deadline: **December 1, 2016**
Workshop Registration deadline: **December 1, 2016**

EARLY BIRD REGISTRATION
Regular Participation: **Rs. 5000 (US \$100)**
Faculty Participation: **Rs. 2000 (US \$40)**
Faculty Participation (Non-Convention Member): **Rs. 1000 (US \$20)**
Student Participation: **Rs. 1000 (US \$20)**

REGULAR REGISTRATION
Regular Participation: **Rs. 6000 (US \$120)**
Faculty Participation: **Rs. 3000 (US \$60)**
Faculty Participation (Non-Convention Member): **Rs. 1500 (US \$30)**
Student Participation: **Rs. 1500 (US \$30)**

IUCEE Course for Entrepreneurship Education

Background: The guidelines of AICTE’s recently published “National INNOVATION and STARTUP Policy 2019 for Students and Faculty,” is expected to assist the colleges and educational institutions to actively engage students, faculties and staff in innovation and entrepreneurship related activities. According to the Ministry of Human Resource Development (MHRD) statement, “India aspires to become a 5 trillion-dollar economy in the near future. To reach this mark, it needs to evolve system and mechanisms to convert the present demographic dividend into high quality technical human resource, capable of doing cutting edge research and innovation, and deep-tech entrepreneurship.

Objectives: Our goal here is to assist IUCEE member institutions to meet the goals of the MHRD Startup policy. IUCEE experts will collaborate to help IUCEE members develop methods to promote entrepreneurship and entrepreneurship mindset (through classes) and to mentor faculty and students using a “Lean Launchpad” method and customer discovery process.

Method: Teams of faculty and students will go through the IUCEE Course and learn the process of entrepreneurship. This course will:

- Help students and faculty to discover if they have entrepreneurial ideas and to mature them to the point of launching their ideas using the “Lean Launchpad,” business model canvas and customer discovery process
- Help students and faculty mature their entrepreneurial mindset
- Train students and faculty about entrepreneurship through 3-month on-line course followed by a 1-week intensive workshop.
- Link students and faculty to mentors in India so that they can be trained to pitch their ideas to angel and VC investors
- Link up available seed funding from colleges and the DST for student/faculty teams to take their ideas to the prototype stage

Implementation: The Course will be offered in 2 Phases as described below:

Phase 1: 3 month online Course: (August to December, 2020)

Learn the process of creating a Start-Up

1. Entrepreneurial Mindset
2. Pitch an idea – Identify the problem to be solved
3. Circular Design thinking
4. Understanding how to get effective customer feedback (using Lean Launchpad method)
5. Iterate using lean startup
6. Create the minimum value product (MVP) and prototype
7. Create the Business Model Canvas
8. Start selling the idea and negotiation exercises

Method of instruction for this phase will be by live online webinars as well as power points, worksheets and practice assignments on the LMS Canvas

Phase 2: Intensive 1 week Workshop: December 2020

Mentors will guide the teams to finalize their plans through practice sessions and presentations. Case studies of such programs already existing at other institutions will be reviewed. Participating institutions will develop formal partnership with the Global Entrepreneurship Program T University of Massachusetts Lowell (<https://www.uml.edu/msb/global-entrepreneurship/>).

Proposed fees

- Phase 1 will be offered FREE to IUCEE Consortium members. Non-members will pay Rs.10,000 per team of TWO faculty member and 10 students.
- Phase 2 will be a formal program from University of Massachusetts Lowell with an official Certificate from UMass Lowell. Details and Fees will be available later.

Faculty:

1. Professor Shalini Gopalkrishnan

Dr. Shalini Gopalkrishnan (Doctor of Business Administration, University of Florida) is an international academician and entrepreneur with 10+ years of experience in Academics, management consulting, entrepreneurial endeavors and training in the private corporate sector. She is an award-winning professor of entrepreneurship with years of corporate and academic experience. Her research interests include international business, social entrepreneurship, business analytics and technology applications for business. She is a winner of “Excellence in teaching” at the xvii experiential classroom in Entrepreneurship at University of Florida, September 2016, and the winner of Global Brainstorm Challenge “Global Women’s Leadership Alliance: 5 million women change agents improving our world in 5 years”. Dr. Gopalkrishnan is a judge at UC Berkley LAUNCH and BIG IDEAS competition. She is a member of Data Kind and, Youth Business USA. She has founded startups such as freelancemoms.com, Introspect and Lexion Global and worked as a consultant with A F Ferguson (then part of KPMG) and worked on projects with USAID, Fortune 500 firms and the Government. She has volunteered with Junior achievement, Big Brother Big Sister, Page 15, World Affairs Council, Girl Scouts, Hands on Atlanta and Orlando. Dr. Gopalkrishnan earned her Bachelor of Mathematics/statistics degree from Bombay University, Masters in Business (PGDM) from Indian Institute of Management, Calcutta, India and her Doctoral credentials from University of Florida.

2. Professor Ranji Vaidyanathan

Dr. Ranji Vaidyanathan is Varnadow chaired professor of materials science and engineering in the school of materials science and engineering at Oklahoma State University, with several years of entrepreneurial and product development in the composites and additive manufacturing areas. He is focused on assisting student entrepreneurship and venture creation. Previously, he was at Advanced Ceramics Research (ACR) in Tucson, AZ, where he managed over 50 small business innovative research (SBIR/STTR) projects. At ACR, he won an R&D 100 Award for the development of a water-soluble tooling material for fabricating polymer composite materials marketed as Aquacore™ and Aquapour™ that has sold for more than \$17 million dollars in the last 7 years. While working at ACR, he developed 4 different products from the concept stage to the commercial stage, including water-soluble tooling materials that are commercially sold to Airbus, Eurocopter, Boeing and Lockheed. At Oklahoma State University, he works with several Oklahoma small businesses and student start-ups. Currently, he is working with his 8th student start-up company, assisting them with technical as well as strategic issues in taking their products to the market. A previous student

start-up MITO Material Solutions won 2nd place at the prestigious Rice Business Plan competition and has successfully scaled up their product to take it to the market, winning more than \$1.1 million from a National Science Foundation commercialization grant and additional investment worth \$0.5 million.

3. Professor Ashwin Mehta

Professor Ashwin Mehta is Associate Teaching Professor and Co-Director, Jack M. Wilson Center for Entrepreneurship. He is also the Program Director, for the Global Entrepreneurship Exchange (GE2) at the University of Massachusetts Lowell and conducts a yearly exchange program with students and faculty from different countries including India, China and Lebanon. His interests are: Strategic management; Entrepreneurship and Global Enterprises, Entrepreneurship and Entrepreneurship Education. Prof. Mehta has over 50 years of experience in business, industry and academic. He joined the Manning School of Business in 2005 and has been teaching strategy and entrepreneurship at undergraduate and graduate levels. He founded 2 software companies and worked for a high-tech company. He has an MBA from Babson College and Northeastern Universities as well as an MS in Industrial Engineering from Kansas State University.

IUCEE Soft Skills Certificate Course

These special sessions will empower you to do well at a University and in Professional Careers

Topic 1: Leadership Excellence (Thursday, 13 August, 2020, 9:00 am – 10:30 am IST)

In this interactive session Dr. Vora will discuss **Leadership Excellence**. You will learn various leadership characteristics. Difference between a manager and leader will be explored. You will examine your own leadership characteristics. Excellent leadership models will be discussed. He will sketch out a roadmap for leadership excellence and development. You will learn key concepts, best practices, and practical tools to enhance your leadership excellence

Topic 2: Effective Decision Making (Sunday, 16 August, 2020, 9:00 am – 10:30 am IST)

In this interactive session Dr. Vora will discuss **Effective Decision Making**. People make decisions all the time. The quality of those decisions is often in question - even by those who make them. Participants will be provided with both background knowledge and practical models to prioritize and make decisions that will allow individual or an organization to fulfill their vision, mission, objectives, and goals.

Topic 3: Effective Time Management (Saturday, 22 August, 2020, 9:00 am – 10:30 am IST)

In this interactive session Dr. Vora will discuss **Effective Time Management**. You will learn various aspects of effective time management such as goal setting, planning, prioritizing, scheduling, and organizing. You will learn key concepts, best practices, and practical tips to enhance your time management skills to be effective and efficient.

Topic 4: Effective Teamwork (Sunday, 23 August, 2020, 9:00 am – 10:30 am IST)

In this interactive session Dr, Vora will discuss **Effective Teamwork**. You will learn importance of teamwork to accomplish various initiatives in any organization. Five dysfunctions of a team will be shared. Also, goal setting and prioritizing will be addressed to enhance your teamwork performance.

Topic 5: Effective Project Management (Saturday, 29 August, 2020, 9:00 am – 10:30 am IST)

In this interactive session Dr. Vora will discuss **Effective Project Management (PM)**, a necessary skill for all professionals. The PM skills are critical in deploying strategic initiatives, managing capital projects, managing change, and executing continuous improvement initiatives. Unfortunately, *only 25-30% of projects succeed globally*. After this presentation attendees will 1). be able to understand importance of PM, 2). know key PM

principles and practices, and 3). be able to manage projects with better outcomes for any organization.

Topic 6: Career Development Guidance (Sunday, 30 August, 2020, 9:00 am – 10:30 am IST)

In this interactive session Dr. Vora will provide tips on how to succeed at a University and in professional careers based on his personal experience of over 58 years. His success formula includes **Four Pillars. 1) Focus on Planning, 2) Focus on Strengths, 3) Focus on Soft Skills, and 4) Focus on Community Service** . He will address: 1) Critical skills needed to succeed in the 21st Century (problem solving, project management, etc.), 2) How to shore up soft skills (communication, decision making, leadership, teamwork, time management, etc.), and 3) Importance of flexibility to account for changing dreams (change management). This presentation has been delivered over 40 times in India and USA benefiting 20,000+ people

IUCEE AI for Everyone course

This is an introductory course on AI for entering freshmen from any academic discipline.

This course can be offered for 1 credit or 2 credits (semester or quarter). The one-credit course will be primarily a series of one-hour weekly webinars (say 10, in an academic Quarter) exploring the various facets of AI and its impact on modern life. The two-credit course will be the same series of webinars plus a team project.

AI is everywhere. All major companies are heavily invested in AI. But people are worried that robots will, one day, take over. AI is too important to be left alone in the hands of programmers and data scientists. Other vested interests from other disciplines should exert influence on AI and democratize it. The purpose of this course is to provide a broad background on what AI is all about, its implications, how to manage it to derive the best out of this emerging technology.

This course is aimed at freshers from any academic discipline. No programming is required. Familiarity with the Internet and basic computer skills are assumed. (Logging on a computer, web browsing, searching for information, checking e-mail, word processing, spreadsheet like Excel, basic math skills like graphing, statistical skills like finding averages, medians, etc. are assumed.)

The student's responsibility is to attend all webinars and spend at least one hour a week/one-credit doing homework or project. Grading will be Pass/No Pass. A Pass will be awarded if the student attends 90% of the webinars and satisfactorily completes 90% of homework/project. The homework/project shall be graded by a local instructor. There are no mid-term or final examinations.

Homework/Projects

Each student does his/her own homework assignment

Three students form a team to do projects.

The students pretend that they are writing a research proposal for funding (by the govt. or by a venture capitalist.) In order to get funded, they have to articulate an idea, do some preliminary work (gather data, develop a preliminary model, show some preliminary results and argue why they should get the funding.) It is a mock exercise. Their mock research proposal should not exceed 4 pages.

Example Projects: (a) Build a robot that recommends a book that suits your taste, (b) Build a robot that looks at newspapers and extracts and compiles information that suits your interests, (c) build a tool that advises a farmer whether to plant seeds or not during the next week, (d) build a tool that tells you how long you have to wait for the next city bus. This list can be expanded. The point is this. None of these things can be done in 10 weeks. What the students have to do is to come up with a paper design of what is needed and how to go about it. There is no correct answer and there is no unique answer.

The topics for the webinars are selected to cover the general trends of AI. The webinars will give a cultural introduction to AI and also talk about some problem-solving techniques. The student projects need not be linked to the webinar topics. The list of topics for 10 webinars is given below.

- Pictorial Intro to AI
- AI Eco System
- Intelligence from Data
- Search Engines
- Excel Tutorial
- Clustering with Excel
- Perceptron and Excel
- Use Cases in Machine Learning
- Building Intelligent Machines
- Deep Learning

12 faculty members are certified in the following modules of online teaching course

Session 1

Foundation: Motivating teachers and students to go online

- How to Learn Online – Understanding the student mindset, adaptability and motivation.
- How to Teach Online – Changing teacher’s mindset, flexibility and readiness
- Understanding and using Technology - Accessibility
- Net etiquette – Routine to be followed
- Understanding that the New Normal is “Blended Learning” not going complete online.
- Timing and Scheduling
- Infrastructure

Session 2

Choosing a Right Platform for learning online (LMS)

- Understanding LMS – What, Why, Where, When and How
- A session on Google Classroom or Google for Education – Set up a Google Classroom LMS for any one course you are teaching
- A session on Canvas Instructure - Set up an LMS for a Course you are teaching using Canvas
- A session on Moodle (if required)

Session 3

Pre Recording Lectures for online teaching

- Benefits of Pre recoding a lecture
- A session on recoding using Microsoft PowerPoint
- A session on using OneNote
- A Session on using MS Whiteboard, Open Board
- A session on using Screen recording Software – CamStudio, Active Presenter, OBS and Open Shot Video Recorder

Session 4

Going Live for Online teaching

- When and why to go live
- A session on Zoom
- A session on Hangout Meet
- A Session on Microsoft Teams, Cisco WebEx, Go to Webinar, Canvas Conference
- A Session on YouTube Live

Session 5

Content Storage and Sharing for Online teaching

- Quality of Materials
- Understanding Google Drive – Uploading and Sharing

- Setting up YouTube Account
- Uploading content to YouTube – Copyright issues

Session 6

Active Learning Strategies for Online teaching

- Various Interactive Tools – Kahoot, Edpuzzle, Mentimeter, google Forms, Polls Everywhere, Survey Monkey, Idea Spinner, Eclipse Crossword, Cubing Activity

Session 7

How to be connected in Online teaching

- WhatsApp, Telegram, Trello, Slack and Discussion forums
- Collaborative Activities
- Working in Teams and communication skills

Session 8

How to do effective assessment during Online teaching

- Plagiarism
- Rubrics for Assessment
- Open Book Exam
- Quizzes – Canvas, Google Classroom
- Assignment – Canvas, Google Classroom
- Paradigm shift in assessment – More Continuous Assessment than End Term exam

Session 9

Virtual Lab for Online teaching

- Strategies for teaching labs online; effectively using virtual and remote labs

Student Chapter Certificate

This is to certify that

“Vidya Jyothi Institiue of Technology”
Telangana

has established a

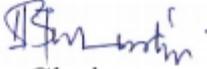

Student Chapter
Under the name and style of

**“Engineers Without Borders - India
VJIT Student Chapter”**

*The chapter will be managed by the elected body of
students headed by the President and guided by the
Faculty Advisor.*

*This certificate will be valid until the same is
withdrawn by EWB - India.*

Date of Issue
December 5, 2020

Chairman
EWB-India

VJIT Students membership cards

Best Practices

**A Two-Day
NATIONAL WORKSHOP
on
Active Learning and Project-Based
Learning Methods in Engineering**

In collaboration with

Indo-US Collaboration for
Engineering Education

14th & 15th JULY, 2014.

**Organized by
Department of Mechanical Engineering**

Vidya Jyothi Institute of Technology
(Accredited by NBA, Approved by AICTE & Affiliated to JNTUH)
Aziznagar, CB Post, Himayathnagar, Hyderabad,
www.vjit.ac.in

Mechanical Engineering Dept. introduced PBL in the following courses

Course/Laboratory	Result/Outcome
Mechanics of Solids	A project on Analysis of beam with different materials/sections
Metallurgy and Material Science	Project on preparation of nano particles

PBL Achievements

OUTCOME OF THE PROJECT BASED LEARNING

3rd Year ECE students got best poster for PBL work at ICTIEE-2016

M.Rajendra Prasad from ECE Dept presented keynote address on project based teaching methodology at ICTIEE-2016

Research Paper Related to PBL work

1. M.Rajendra Prasad, D.Krishna Reddy, “Project Based Teaching Methodology for Embedded Engineering Education”, Journal of Engineering Education Transformations (JEET), Special Issue, pp 52-57, Jan 2015, ISSN:2349-2473.(DOI: 10.16920/ijerit/2015/v0i0/59457).
2. M.Rajendra Prasad, D.Krishna Reddy, “Computer Based Teaching Methodology for Outcome-Based Engineering Education”, 6th IEEE International Advance Computing Conference (IACC-2016) (IEEE Xplore), February 27-28, 2016
3. B.Sailaja , K.Hemalatha, “Innovative Teaching and Learning Process with Multidisciplinary approach: An Illustration on Engineering Education” Journal of Engineering Education Transformations, Special Issue, eISSN 2394-1707.
4. M.Rajendra Prasad, D.Krishna Reddy, “Attainment of Course Outcomes and Program Outcomes for Application Development Courses” 3rd International Conference on

Transformations in Engineering Education (ICTIEE-2016), January 8th-12th,2016, College of Engineering, Pune, India.

5. M.Rajendra Prasad, D.Krishna Reddy, “The Computer-Aided Integrated Circuit Application Design (CAICAD): OBE Implementation” 3rd International Conference on Transformations in Engineering Education (ICTIEE-2016), January 8th-12th, 2016, College of Engineering, Pune, India.
6. Three Faculty members has completed IGIP Certificates (Annexure – I)
7. Nine Faculty members has completed Annexure - Faculty IUCEE Online Teaching Course Certificates (Annexure – II)

List of IUCEE Webinars

International Society of Engineering Pedagogy
Internationale Gesellschaft für Ingenieurpädagogik
Международное общество по инженерной педагогике

The International Society for Engineering Pedagogy
represented by its President is pleased to certify that

G. Sreeram Reddy

has participated in the further education programme

“IGIP INTERNATIONAL ENGINEERING EDUCATOR”

This document certifies that the marked courses have been
completed as defined on the back.

IGIP President
Prof. Dr. habil. Hanno Paul Hortsch

IGIP General Secretary
Prof. Dr. (mult.) Michael E. Auer

Certificate of Completion with Distinction

Dr. K. Ramesh Babu

Associate Professor, Computer Science & Engineering
Vidya Jyothi Institute of Technology , TS

Course on

“OnLine Teaching”

(July to September 2020)

conducted by

IUCEE Team of Faculty

Dr. Krishna Vedula
Executive Director
Indo-Universal Collaboration for Engineering Education

Certificate of Completion with Distinction

Mrs Haritha

Assistant Professor, Electrical & Electronics Engineering
Vidya Jyothi Institute of Technology, TS

Course on

“OnLine Teaching”

(July to September 2020)

conducted by

IUCEE Team of Faculty

Dr. Krishna Vedula
Executive Director
Indo-Universal Collaboration for Engineering Education

Certificate of Completion with Distinction

Mrs.M.N.L.Anuradha

Associate Professor, Information Technology
Vidya Jyothi Institute of Technology , TS

Course on

“OnLine Teaching”

(July to September 2020)

conducted by

IUCEE Team of Faculty

Dr.Krishna Vedula
Executive Director
Indo-Universal Collaboration for Engineering Education

Certificate of Completion with Distinction

Pavani Kancharla

Associate Professor, Electronics & Communication Engineering
Vidya Jyothi Institute of Technology , TS

Course on

“OnLine Teaching”

(July to September 2020)

conducted by

IUCEE Team of Faculty

Dr. Krishna Vedula
Executive Director
Indo-Universal Collaboration for Engineering Education

Certificate of Completion with Distinction

B.Sailaja

Associate Professor, Computer Science & Engineering
Vidya Jyothi Institute of Technology , TS

Course on

“OnLine Teaching”

(July to September 2020)

conducted by

IUCEE Team of Faculty

Dr.Krishna Vedula
Executive Director
Indo-Universal Collaboration for Engineering Education

Certificate of Completion with Distinction

Devi Borra

Associate Professor, Information Technology
Vidya Jyothi Institute of Technology , TS

Course on

“OnLine Teaching”

(July to September 2020)

conducted by

IUCEE Team of Faculty

Dr. Krishna Vedula
Executive Director
Indo-Universal Collaboration for Engineering Education

Certificate of Completion

Mr. KSRK Sarma

Assistant Professor, Computer Science & Engineering
Vidya Jyothi Institute of Technology, TS

Course on

“OnLine Teaching”

(July to September 2020)

conducted by

IUCEE Team of Faculty

Dr.Krishna Vedula
Executive Director
Indo-Universal Collaboration for Engineering Education

Certificate of Completion

Dr.S. Saravanan

Assistant Professor, Electronics & Communication Engineering

Vidya Jyothi Institute of Technology, TS

Course on

“OnLine Teaching”

(July to September 2020)

conducted by

IUCEE Team of Faculty

Dr.Krishna Vedula
Executive Director
Indo-Universal Collaboration for Engineering Education

Certificate of Completion

Mrs. Bhagavathula Monika priya

**Assistant Professor, Civil Engineering
Vidya Jyothi Institute of Technology, TS**

Course on

“OnLine Teaching”

(July to September 2020)

conducted by

Report on ICTIIE 2016 and IUCEE OBE Course attended at COEP, pune

The following topics were discussed on the dates given below

January 9, 2016

A 'Do-Engineering' Approach to teaching Power
Electronic Systems

OBE Solution for Tier 2 Institutions

January 10, 2016

Inaugural Session, Keynote Session

Best Practices: Outcomes Based Education

Best Practices: Teaching and Learning

Mini-oral Presentations

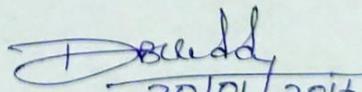

January 11, 2016

Plenary Panel Session 1 Teaching and Learning
Plenary Panel Session 2 Industry Academy Partnerships
Parallel Paper and Mini-Paper Sessions
Plenary Panel Session 3 Virtual Learning
Plenary Panel Session 4 Diversity Focus

January 12, 2016

Plenary Panel Session 5 Governance and Leadership
Plenary Panel Session 6 Outcomes Based Education
Parallel Paper and Mini-Paper Sessions
Plenary Panel Session 7 Innovation and Entrepreneurship
Plenary Panel Session 8 Student Focus

The above topics are further discussed in the EEE department for implementation .

IUCEE INTERNATIONAL ENGINEERING EDUCATOR CERTIFICATION PROGRAM (IIEECP)
Empowering Engineering Educators to Prepare World-class Engineers
Pilot II Program September 2015 to June 2016

Name: T. Parameshwar.
Institution: Vidya Jyothi Institute of Technology.
Title: Assistant Professor.

Teaching Experience:

- a) Total No. of Years : 07
- b) Details of last two positions:

Institution	Year	Courses Taught
Vidya Jyothi Institute of Technology	December 2008 to till date	Electrical Machines-II, Power Systems-I, Power Systems-II, EHVAC Transmission, Electrical Distribution Systems & Power System Operation & Control.

Brief statement describing your passion for being a good engineering educator

The art of engineering is applying scientific theories to design. The fundamental principles that are applied to products and structures are paramount and by studying engineering I am hoping to learn how engineers use these principles and then integrate them into design.

Recommendation and Sponsorship from Head of Institution

I highly recommend and agree to sponsor T. Parameshwar for participation in the IUCEE INTERNATIONAL ENGINEERING EDUCATOR CERTIFICATION PROGRAM. The participant and the Institute are committed to the successful completion of Pilot II of IIEECP.

Vidya Jyothi Institute of Technology
Himayatnagar (VIT), C. B. Road,
Hyderabad-75

You have been nominated by Prof. M. Padmaja from your institution for participation in the Second Pilot of the IUCEE International Engineering Educator Certification Program (IIEECP), which is offered by IUCEE (Indo US Collaboration for Engineering Education) in collaboration with IGIP (International Society for Engineering Pedagogy) and sponsored by Microsoft.

We need a formal application from you. I have attached the Application Form. Please complete this form which includes signed "Recommendation and Sponsorship from Head of Institution". The deadline for me to receive this as scanned copy via email is July 17, 2015.

The Course will start with Phase I Face-to-Face Orientation Workshop from Sept 14 to 17, 2015. The location for this Workshop has been selected as BMS College of Engineering, Bangalore. This location was chosen because it is the most convenient for the majority of applicants.

Phase II will be on-line and Phase III Face-to-Face Valedictory Session will be in June 2016 (dates to be announced) at BMS College of Engineering, Bangalore.

The Registration Fees for the entire Course is Rs. 12,000 for members of IUCEE Consortium. Your college is a member of this Consortium.

Fees do not include travel or accommodation at the Face-to Face sessions.

As part of the Course you will need to prepare to take and pass the Microsoft Certified Educators Test on line. Fees of Rs. 2,500 for this (which we need to pay Microsoft), are included in the above Registration Fees.

Once we complete selection and confirm your participation we will send you an invoice for the fees as well method of payment, which needs to be paid by August 10.

Krishna Vedula

Executive Director, Indo US Collaborative for Engineering Education (IUCEE)

Past President, International Federation of Engineering Education Societies (IFEES)

Professor and Dean Emeritus, University of Massachusetts Lowell

Earlier email:

IUCEE has launched a pilot Teacher Certification program for engineering faculty. From all reports I have seen, this is a very big need for improving quality of engineering education in India. This program is in collaboration with IGIP (International Society for Engineering Pedagogy), Austria (<http://www.igip.org/igip/>) and supported by Microsoft India. The program is delivered in a blended format, including face-to-face sessions, as well as asynchronous on-line modules coupled with regular synchronous on-line sessions. Our collaborator, Inpods (<http://www.inpods.com/>), provides support with their e-platform. The first Pilot started January 9, 2015 and is about to conclude with a Valedictory Session on June 17, 2015, with 36 participants from IUCEE Consortium colleges at BMS College of Engineering, Bangalore.

The program was coordinated by Dr. Veena Kumar from University of Maryland as well as faculty from Virginia Tech, Rowan University, Arizona State University and Chitkara University. The generosity of Microsoft India has enabled the first pilot to be offered free. A

Application

IUCEE INTERNATIONAL ENGINEERING EDUCATOR CERTIFICATION PROGRAM (IIEECP)

1	VJIT	Oct-2103 to Till date	C,STM,DBMS
2	PNCVIET	Aug-2010 to Sep-2103	C,STM,EP,DMDW

Brief statement describing your passion for being a good engineering educator

In my belief, integrating the latest innovations, computer engineers use their extensive knowledge to develop new computer hardware, design and implement software applications, and enhance the capabilities of networks and communications systems.

Recommendation and Sponsorship from Head of Institution

I highly recommend and agree to sponsor Y.Praveen Kumar for participation in the IUCEE INTERNATIONAL ENGINEERING EDUCATOR CERTIFICATION PROGRAM. The participant and the Institute are committed to the successful completion of Pilot II of IIEECP.

Design and Implementation of Student Centered Learning

1. Introduction

The primary aim for all teaching and learning activities is for the learners to learn. Students in our classrooms play an instrumental role in what and how we teach, and at the same time show results of how well they learn. Yet, in many classrooms we tend to over look the most important entity while designing our content, instruction and assessment. This workshop is based in the need to design and implement effective learning environments centered on students.

Footsteps and IIDEA (International Institute for Developing Engineering Academics) in collaboration with IUCEE (Indo-US Collaboration for Engineering Education) are offering this two-day workshop titled "Design and Implementation of Student Centered Learning".

The core tenants of the workshop are represented in the following figure.

Avneet Hira

Avneet Hira is a doctoral student in the School of Engineering Education at Purdue University. She is also the Co-Director of Footsteps. Her research includes K-12 education and first year engineering in light of the engineering design process, and inclusion of digital fabrication labs into classrooms. Her current work is on the use of classroom Makerspaces for an interest-based framework of engineering design. She is also interested in understanding the social and cultural underpinnings of engineering education, to study and develop indigenous engineering capabilities. After completing a B.E. in Aeronautical Engineering from PEC University of Technology, she received an M.S. in Aerospace Engineering

from Purdue University.

2. Schedule

Day 1 - 5th January, 2016

Session 1 (2 Hours 30 minutes)

Understanding the importance of student centered learning, and being able to situate the idea within learning environments pertinent to the participants.

Session 2 (2 Hours 30 minutes)

Developing and modifying content in a way that is relevant to the participants' students.

Day 2 - 6th January, 2016

Session 3 (2 Hours 30 minutes)

Designing and implementing individualized formative assessment strategies.

Session 4 (2 Hours 30 minutes)

Planning classroom instruction to achieve student engagement.

Final Deliverable:

A lesson plan for action that encompasses work from Sessions 1-4 will be compiled and presented

3. Facilitator Profile

Dr. Jennifer J. DeBoer

Dr. Jennifer DeBoer is currently an Assistant Professor in School of Engineering Education at Purdue University. She is also the Co-Director of IIDEA (International Institute for Developing Engineering Academics). Her research interests include investigating engineering education & technology tools to realize opportunities for diverse students around the world. Through IIDEA she helps to develop and coordinate capacity building workshops for national engineering training systems throughout Latin America, Africa and Asia.
