Major Objectives of Students' Clubs in the Dept of AI :

1. To nurture the innovative young minds
2. To bring out the best leadership from the students' community
3. To improve professionalism among students
4. To have collaborations with outside world
5. Innovative clubs can lead to innovative incubation and research hub too
6. To develop the culture of learning with fun and learning with doing
7. The club members will grow up as the promising experts of the future in the respective domains.

Common Activities :

1. Regular meeting among club members
2. Planning and execution of the club activities by the students
3. Time to time meeting with faculty in-charges
4. Conducting different inter and intra college competitions.
5. Regular monitoring of the club activities by the faculty members

SCREENSHOTS OF THE SESSION

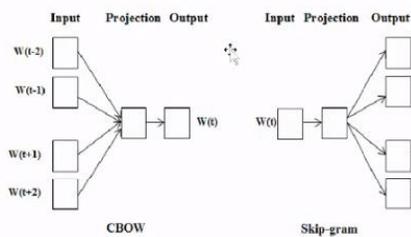

Word2Vec

Word2Vec is a shallow, two-layer neural networks which is trained to reconstruct linguistic contexts of words.

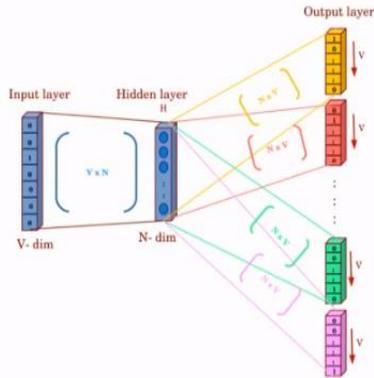

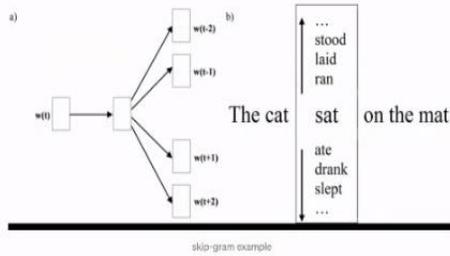

It takes as its input a large corpus of words and produces a vector space, typically of several hundred dimensions, with each unique word in the corpus being assigned a corresponding vector in the space.

Two Methods: **Continuous Bag-of-Words (CBOW) model** and **Skip-Gram model**

Word2Vec – Skip Gram Model

Skip-gram is one of the unsupervised learning techniques used to find the most related words for a given word

The word `sat` will be given and we'll try to predict words `cat`, `mat` at position `-1` and `3` respectively given `sat` is at position `0`. We do not predict common or stop words such as `the`.

SCREENSHOTS OF THE SESSION

Introduction

- The IoT is a network of Internet-linked devices, vehicles and appliances that can collect and share data without need of human interaction.
- Specific IoT-equipped devices include smartphones, laptops, coffee machines, Apple watches, Fitbits to name a few. Any device can be plugged into the IoT provided it is equipped with sensors and an Internet connection.

How IoT works?

HOW DOES IOT WORK ?

- An IoT system consists of sensors/devices which “talk” to the cloud through connectivity.
- Once the data gets to the cloud, software processes it and then might decide to perform an action, such as sending an alert or automatically adjusting the sensors/devices without the need for the user.

IoT Applications

There are numerous IoT applications which are discussed below:

Home Automation: Few home automation areas includes

- Smart lighting
- Smart appliances
- Intrusion detection
- Smoke detector
- Gas detector

Advantages of IoT

- **Efficient resource utilization:** If we know the functionality and the way that how each device work, we increase the efficient resource utilization as well as monitor natural resources.
- **Minimize human effort:** As the devices of IoT interact and communicate with each other and do lot of task for us, then they minimize the human effort.
- **Save time:** As it reduces the human effort then it saves out time. Time is the primary factor which can save through IoT platform.
- **Improve security:** Now, if we have a system that all these things are interconnected then we can make the system more secure and efficient.

Disadvantages of IoT

- **Security:** As the IoT systems are interconnected and communicate over networks. The system offers little control despite any security measures, and it can result in various kinds of network attacks.
- **Privacy:** Even without the active participation on the user, the IoT system provides substantial personal data in maximum detail.
- **Complexity:** The designing, developing, and maintaining and enabling the large technology to IoT system is quite complicated.

Future of IoT

- The future of IoT is billions of cheap, small, low-powered devices that provide real-time insights into every asset, process and system that's important to a given organization.
- It's invisible, ubiquitous and primarily driven by notifications.
- In the future, IoT will become invisible.

LEARNING OUTCOMES :

1. What is Internet of Things?
2. Workings of IoT.
3. Applications of IoT.
4. Advantages of IoT.
5. Disadvantages of IoT.

DATE : 17th January 2021

NAME OF THE GUEST : POLU SREEDHAR

ORGANIZATION : REDBAY TECHNOLOGIES

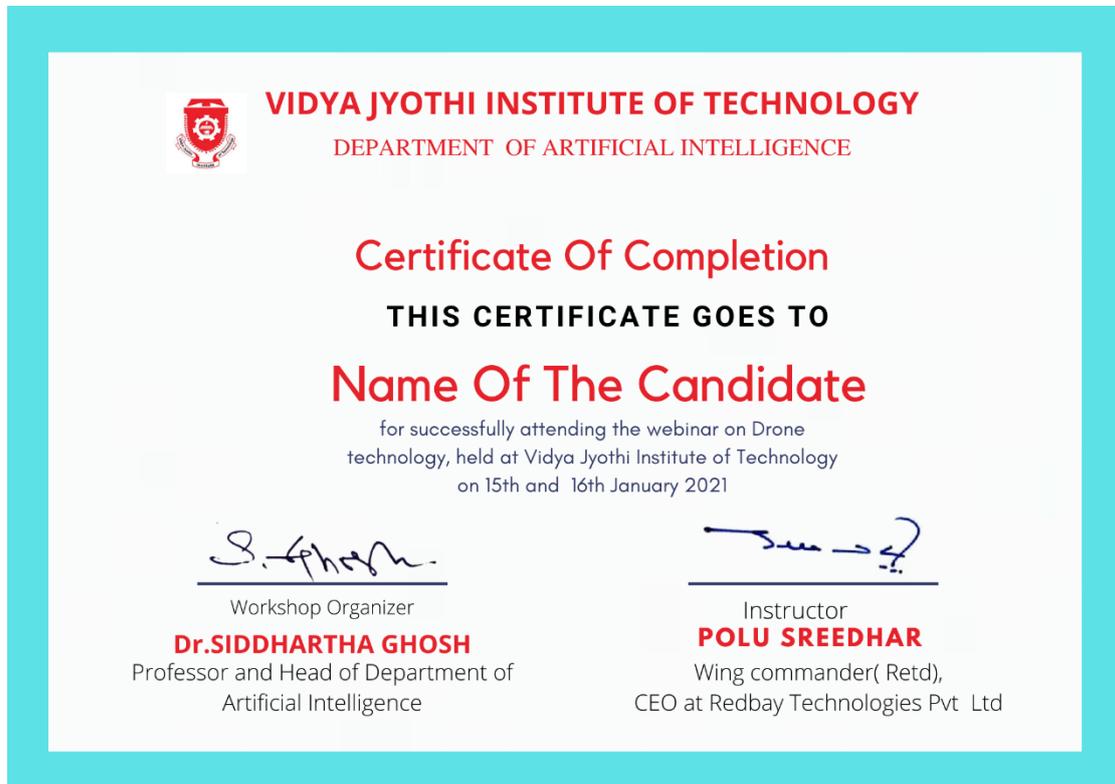

MODE : ONLINE – FROM HYDERABAD, MEDIUM : GOOGLE MEET

TOTAL NUMBER OF STUDENTS PARTICIPATED : 46

TITLE OF THE TALK : DRONE TECHNOLOGY

OBJECTIVE : To help the students to understand how the industry works in the domain of Drones and the present technology .

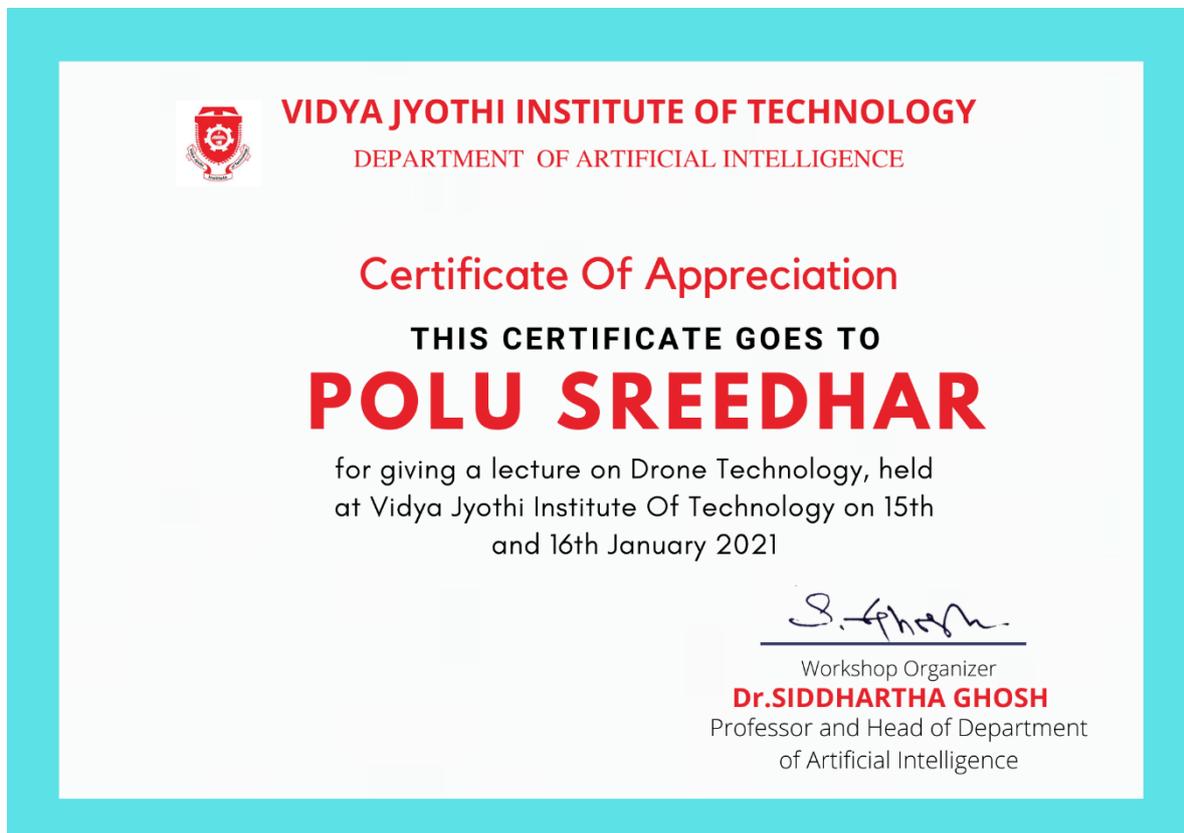

CERTIFICATE ISSUED TO THE STUDENTS

ABOUT THE SPEAKER

- 1) Commissioned into flying branch of the **INDIAN AIR FORCE** as a combat helicopter pilot.
- 2) Participated in all major operations being fought after 1991, including Kargil war, and Opmeghdoot (Siachen Glacier).
- 3) Retired from IAF during July 2012 after 20 years of service to pursue his zeal of entrepreneurship.
- 4) Currently working as **CEO** at Redbay Technologies Pvt Ltd.
- 5) In short span, he made Redbay Technologies a leader in the area of UAS ecosystems, including design, R&D, Manufacture, Testing & Evaluation, Maintenance, Repair, training and providing services with UAS.
- 6) Developing a Centre of Excellence(CoE) based around UAV, IOT, Artificial Intelligence & Machine Learning in VIGNAN University, Guntur

LEARNING OUTCOMES :

1. Learnt about various parts of Drones and the scale of infrastructure required for the commercial use.
2. About UAV methodology.
3. Learnt about various pre-processing methods after data collection.
4. Major problems that could be faced while data collection.
5. Deployment and use of Drones in mining and agriculture sector.
6. How to deliver the output, based on client requirements by using various technology procedures.

Where to go for enhancing your learning

- Khan Academy – Maths, Stats and Probability
- NPTEL
- Coursera
- Edx
- IEEE/ACM papers
- open courses from MIT, Stanford etc.
- datasciencemasters.org -> The Open Source Data Science Masters
- YouTube

LEARNING OUTCOMES :

1. What are the pre-requisites to plan (and start) a career in Data Science
2. How to make a Data Scientist portfolio?
3. T- Shaped Skill Set
4. How to enhance learning?

REPORT ON GUEST LECTURE

DATE : 18th April 2020

NAME OF THE GUEST : PRASAD ANJANEYA

ORGANIZATION : MICROSOFT

MODE : ONLINE – FROM HYDERABAD, MEDIUM : ZOOM

TOTAL NUMBER OF STUDENTS PARTICIPATED : 59

TITLE OF THE TALK : DATA SCIENCE - MAPPING YOUR CAREER PATH

OBJECTIVE : To help the students to make a career plan in data Science field.

CERTIFICATE ISSUED TO THE STUDENTS

ABOUT THE SPEAKER

PRASAD ANJANEYA

- 1) Has a prior experience of **11 years** as **Senior Data Scientist**
- 2) Currently working in Microsoft as Senior Program Manager - **EUSE at Microsoft**
- 3) Learning experiences are **Data Mining , Statistical Modelling , Software as Service(SAS)**
- 4) **Industry Knowledge:** Analytics , Business Analysis , Business Intelligence , Financial Modelling
- 5) Most of his contributions are in **Big Data , Data Science , Artificial Intelligence**
- 6) **LinkedIn Profile** :- <https://www.linkedin.com/in/prasadyerramsetti/>

SCREENSHOTS OF THE SESSION

Why should I learn DS/AI/ML

How Many Data Scientists Does it Require?

The global demand for machine learning & AI solutions **greatly** exceeds the production capacity of all the data scientists in the world, and this gap is growing exponentially.

- Demand for machine learning & AI
- Data scientists in the world

Job Titles in AI/ML

Best Job Roles in Artificial Intelligence

AI Developer

- Provides solutions to various issues using AI and programming.
- Responsible for designing, developing, and deploying AI-based systems.

01

AI Architect

- Responsible for putting AI systems in operation and managing them.
- Creates the required infrastructure and managing the compute needs of the systems.

02

Machine Learning Engineer

- Expected to be subject matter expert in their sub-field.
- Should be capable of devising AI solutions and applying the right solution to a problem.

03

Data Analyst

- Directly focuses on deriving insights from data using machine learning as a tool.
- Performs data analysis and presents the results in a way that is easy for stakeholders to perceive.

04

Data Scientist

- Uses machine learning to derive meaningful insights from data.
- Makes heavy use of statistics to identify patterns in collected datasets.

Data Analyst & Data Scientist

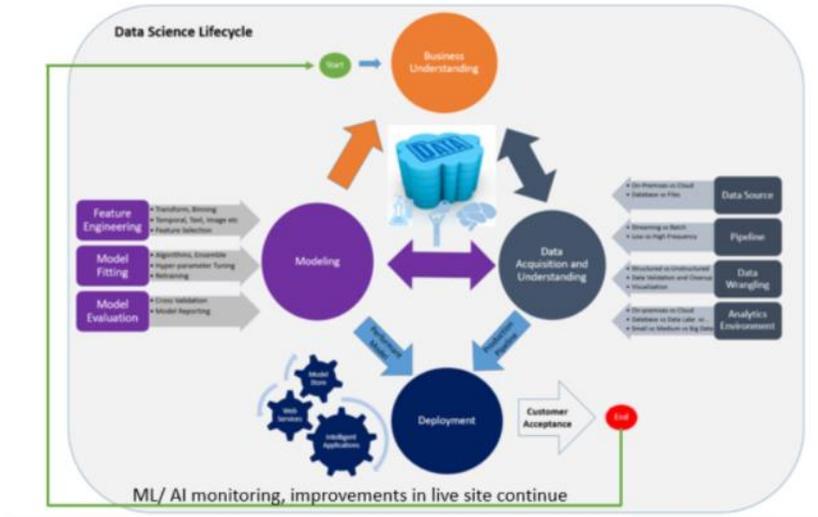

Why data is important

Content marketing is a strategic marketing approach focused on creating and distributing valuable, relevant, and consistent content to attract and retain a clearly-defined audience — and, ultimately, to drive profitable customer action.

Content marketing is being used by some of the greatest marketing organizations in the world, including **P&G**, **Microsoft**, **Cisco Systems**, and **John Deere**

Use Case1: Flipkart Grocery

The screenshot shows a shopping cart on Flipkart. On the left, there are two packs of Dettol Original Soap. Below them is an orange button that says "ADD TO BASKET". The main cart area shows a "Frequently bought together" section with three items: Dettol Original Soap (4.4 stars, 262 reviews, ₹240, ₹900 20% off), Toor Dal (4.2 stars, 6,777 reviews, ₹55), and Maggi Masala Instant Noodles Vegetarian (4.2 stars, 1,313 reviews, ₹91). Below these items is a summary: "1 item ₹240 + 2 Add-ons ₹146 = Total ₹386". On the right, there is an orange button that says "ADD 3 ITEMS TO CART".

What Skills are needed?

- ✓ Analytical Skills
- ✓ Define the Problem
- ✓ Data Identification & Understanding
- ✓ Mathematics, Statistics, Computer Science & their applications
- ✓ Programming – R, Python, SQL etc.,
- ✓ Selection of Model
- ✓ Interpretation of Results
- ✓ Visualization

IGNITE is a student club formed by Dr.S.Sivaprasad on 27th March 2018 for the benefit of students with students as the organizers . Student clubs help in learning to work with a team as it is an essential skill for any career; it provides networking opportunities through student-meetings across various programs of the college, making connections, and building relationships for life. It includes a project-based learning approach,refining techinal skills etc.,Their main aim is to provide wholesome experience to the students in and outside the classroom to hone their technical and personal skills

This club is formed with B.Vijay Kumar and L.Gayatri as president and Secretary.

Few events were conducted under this club on 27th and 28th March 2018.

The poster for the IGNITE 2K18 technical fest features a dark background with a glowing orange and yellow circular light effect in the center. At the top, it displays the Vidya Jyothi Institute of Technology logo and name, along with accreditation details. The main title 'IGNITE 2K18' is prominently displayed in a stylized font. Below the title, it states 'Organized by DEPT of EEE' and the dates '27th - 28th MARCH'. The poster lists various events: PAPER PRESENTATION, POSTER PRESENTATION, TECHNICAL QUIZ, CRICUTRICKS, REPIGA (MODEL PRESENTATION), and LIVE SKETCHING. It also mentions 'MANY MORE EXCITING EVENTS...'. Contact information for the event is provided, including email addresses: ignite2k18.vjiteee@gmail.com and vjiteeeevents@gmail.com. Logos for IEEE Hyderabad Student Branch and ANURAG Engineering Engineers are also present. At the bottom, a dark red banner lists the organizers: Convener Dr. S SIVA PRASAD, Co-Convenors Mr. D. SRINIVAS and Mr. T. PARAMESHWAR, Faculty Co-ordinator Mrs. V. VIJAYALAKSHMI, and Student Coordinators B. VIJAY KUMAR and L. GAYATRI with their respective contact numbers.

**IGNITE STUDENT
CLUB ACTIVITIES
IN 2019-20**

A technical fest is a festival organized by engineering colleges to host events related to various technical aspects of what they learn. It is a means for students to showcase their practical talent in the field they're learning, and not just limit themselves to bookish knowledge. Each branch – mechanical, computers, electronics, etc can have its own version of technical events/fests testing the participants on the knowledge and applications of that field.

In this connection A Technical fest was conducted under IGNITE club on 1st and 2nd of April 2019. The students from all Years participated actively and won prizes .
