Introduction

The National Service Scheme (NSS) of VJIT College organized a 7-day day-camp in Chinnamangalaram Village with the aim of providing free health camp to the residents of the village, imparting career guidance and organizing farewell to 10th graders. The NSS is a youth program that promotes social service and community development. It was established in India in 1969 and has since then been implemented in many educational institutions across the country. The NSS aims to instill the values of community service, national integration and social harmony among young people.

Chinnamangalaram Village is a small rural village located in the outskirts of Hyderabad. The village lacks basic amenities such as clean drinking water, proper sanitation facilities, proper career guidance and healthcare services. The NSS of VJIT College identified this village as a potential beneficiary of their day-camp program. The objective of the day-camp was not only to provide essential services to the villagers but also to create awareness about their rights and responsibilities as citizens of India.

Objectives

The day-camp in Chinnamangalaram Village had several objectives that aimed to benefit the community. Firstly, we wanted to understand the needs of the village and its residents better. This helped us tailor our activities and workshops to address their specific requirements.

Secondly, we provided a free health camp for the villagers, which included health check-ups, consultations, and medication. This was especially beneficial for those who could not afford healthcare services.

Thirdly, we conducted career guidance sessions for 10th graders, helping them identify their interests and strengths and explore potential career paths. This was aimed at empowering them to make informed decisions about their future.

Lastly, we organized a farewell for the 10th graders, celebrating their achievements and wishing them success for their future endeavors. This was a great way to show our support and appreciation for their hard work.

DAY-1(27-03-2023)

The day-camp kicked off with an opening ceremony, where the NSS head Mr. Giri Prasad and village leaders addressed the NSS team. On the inaugural day of our 7-day day-camp organized by the National Service Scheme (NSS) of VJIT College in the picturesque village of Chinnamangalaram, we embarked on a journey of community engagement and empowerment. Our primary focus was on the 10th-grade students at the Zilla Parishad High School. We aimed to broaden their horizons by discussing various career options available to them after completing their 10th grade. To foster a sense of camaraderie, we organized interactive games and activities, encouraging teamwork and leadership skills among the students.

Furthermore, we addressed critical issues affecting adolescent girls, discussing topics like self-protection and awareness of good touch and bad touch. We also provided valuable guidance on menstruation, aiming to empower these young girls with knowledge and confidence. Our first day set the tone for a meaningful week ahead, as we strove to inspire these students to dream big and pursue their aspirations.

DAY-2(28-03-2023)

Our second day in Chinnamangalaram village was dedicated to understanding the community's needs and initiating preparations for the free health camp. We conducted a comprehensive village survey to assess the health conditions of the residents and to make them aware of the upcoming health camp. By engaging with the villagers directly, we gained insights into their concerns and aspirations, as well as their perspective on the village's overall condition. Through open and respectful conversations, we identified areas where improvements were needed, ranging from infrastructure to healthcare access. The information gathered would serve as a foundation for our efforts to bring positive change to this close-knit community. With each conversation, we reinforced our commitment to making a difference in Chinnamangalaram.

DAY-3(29-03-2023)

As our memorable week in Chinnamangalaram village progressed, we devoted the third day to creating lasting memories for the 10th graders at the Zilla Parishad High School. This special day marked their farewell, a significant milestone in their educational journey. We decided to make it extra special by taking charge of cooking the delicious fare for their farewell celebration. Our team worked tirelessly in the kitchen, preparing a sumptuous feast that would remain etched in the students' hearts forever. From delectable dishes to delightful desserts, we aimed to create a culinary experience that would complement the joyous atmosphere of the farewell. Beyond cooking, we also actively participated in organizing the event, ensuring that it would be a memorable and heartfelt farewell, filled with laughter, nostalgia, and a sense of appreciation for the graduating 10th graders. This day was a testament to our commitment to fostering positive relationships with the students and the community as a whole.

DAY-4(30-03-2023)

On the fourth of our endeavor in Chinnamanagalaram, we put our passion for community service into action. We initiated a Swachh Bharat campaign, contributing to the nationwide cleanliness drive. Volunteers from our camp enthusiastically participated in cleaning and beautifying the school premises. The sense of pride and ownership among the students was palpable as they worked together to create a cleaner and more hygienic environment. Following the Swachh Bharat campaign, we organized a nature rally that encompassed the entire village, emphasizing the importance of tree and water conservation. Students from both VJIT College and the Zilla Parishad High School joined forces, forming a united front to raise awareness about environmental preservation. The rally served as a symbol of solidarity, highlighting our collective responsibility to protect the natural resources that sustain our community. This day was a testament to the power of youth coming together to drive positive change in Chinnamanagalaram village. We also went for a field visit in the nearby fields of the chinnamangalaram

Day-5(31-03-2023)

The fifth day marked a continuation of our dedication to environmental conservation. We organized a village-wide rally to raise awareness about the importance of saving trees and preserving water resources. The NSS team, along with enthusiastic student participants, embarked on this rallying journey, reinforcing our collective commitment to protecting our natural surroundings. The day was a powerful demonstration of community engagement and our shared responsibility to safeguard the environment that sustains us.

As our memorable week in Chinnamangalaram village progressed, we devoted the fourth day to creating lasting memories for the 10th graders at the Zilla Parishad High School. This special day marked their farewell, a significant milestone in their educational journey. We decided to make it extra special by taking charge of cooking the delicious fare for their farewell celebration.

Day-7:Valedictory(02-04-2023)

Our journey in Chinnamanagalaram concluded with a valedictory ceremony held at VJIT College, where we honored and celebrated the efforts of our NSS team. Participation certificates were awarded to the dedicated individuals who had worked tirelessly to make a positive impact on the village. It was a moment of reflection and gratitude, a testament to the power of community service and the transformative potential of collective action. As we bid farewell to Chinnamanagalaram, we carried with us the memories of a week dedicated to fostering positive change and leaving an indelible mark on the lives of its residents.

Activities and Workshops

During the day-camp, a variety of activities and workshops were conducted to engage with the community. The first workshop focused on financial literacy and budgeting skills, which was well received by the villagers. Another workshop aimed to raise awareness about the importance of environmental conservation and sustainability. Participants learned about composting, rainwater harvesting, and waste segregation.

In addition to the workshops, several activities were organized to promote teamwork and leadership skills among the participants. One such activity was a scavenger hunt, where teams had to work together to find hidden clues around the village. Another activity involved building a community garden, which not only provided an opportunity for teamwork but also contributed to the beautification of the village.

Impact and Outcomes

The day-camp in Chinnamangalaram Village had a significant impact on the community and its residents. The free health camp provided much-needed medical attention to those who could not afford it, while the career guidance workshops helped 10th graders plan for their future. The farewell ceremony was an emotional event that brought the community together and left a lasting impression on the students.

Despite the positive outcomes, there were also challenges faced during the day-camp. Limited resources and time constraints made it difficult to provide comprehensive support to all members of the community. However, the success of this day-camp has provided valuable insights and recommendations for future events. By building stronger partnerships with local organizations and increasing community involvement, we can continue to make a positive impact in Chinnamangalaram Village and beyond.
