## WELCOME TO DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

### ◆ *Prominent Features* ◆

We have a strong Under Graduate and Post Graduate Programmes in Computer Science & Engineering.

- Accredited by National Board of Accreditation under Tier-1 from academic year 2022-23 for a period of 3 years.
- Center of Excellence in Data Analytics with Qlik India, USA.
- Center of Excellence in Software Engineering with Virtusa.
- Centre of excellence in EPAM.
- The department has a JNTUH recognized R&D Center.
- R&D Zonal Center in Artificial Intelligence & Deep Learning with Bennet University, Noida.
- Well qualified, rich experienced and eminent faculty trained on Outcome Based Education.
- Eight Computer labs with State -of-the-art infrastructure.
- Strong industry interface with leading companies like Microsoft, Persistence, Quadrium & Virtusa.
- Faculty trained and certified by International Society for Engineering Education in collaboration with IUCEE and Microsoft.
- Memorandum of Understanding with IIT Enhance Education Hyderabad, Byndr Learning management system, IIT Bombay Spoken Tutorials, Robofest and Ioncudos.
- We have IIT Bombay Remote center for organizing FDP/Workshops/Webinars.
- Nodal center for accessing Virtual labs at IIT Hyderabad.
- Students and Faculty are doing certifications in NPTEL, QLIK, CISCO, Coursera, Oracle, Microsoft, IBM etc.
- Department has Active Research groups such as AI&ML, IoT, Network Security, Image Processing & BDA.
- Majority of the faculty are pursuing their PhD in emerging areas.
- The work culture, professional satisfaction and learning curve offered by department resulted in high faculty retention.
- Research laboratories in the domains of Image Processing and Networking Security/IoT and Cloud Computing / Machine Learning & Data Analytics.

# VISION & MISSION

*A spirit with a vision is a dream with mission*

## VISION

To produce the globally competent professionals in the field of Computer Science & Engineering

## MISSION

- To provide state-of-the-art facilities in Computer Science and Engineering, through innovative teaching learning practices.
- To promote research and development in the frontier areas of Computer Science and Engineering and to work in interdisciplinary fields.
- To enrich students with discipline and high integrity to serve the society and to inculcate the spirit of ethical values and leadership abilities.
- To establish a collaborative environment between Industry and Academia.

# PROGRAM OUTCOMES (POs) & PROGRAM SPECIFIC OUTCOMES (PSOs)

## PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

**PEO1:** Enhance the employability of the graduates in Software industries/Public sector/Research organizations.

**PEO2:** Acquire analytical and computational abilities to pursue higher studies for professional growth

**PEO3:** Work in multidisciplinary project teams with effective communication skills and leadership qualities

**PEO4:** Develop professional ethics among the students and promote entrepreneurial abilities

## PROGRAM SPECIFIC OUTCOMES (PSOs)

**PSO1:** The ability to design and develop algorithms to provide optimized solutions for societal needs.

**PSO2:** Apply standard approaches and practices in Software Project Development through trending technologies.

# PROGRAM OUTCOMES (POS)

## Engineering Graduates will be able to:

- 1. Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- 2. Problem Analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- 3. Design/development of Solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- 4. Conduct Investigations of Complex Problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- 5. Modern Tool Usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
- 6. The Engineer and Society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- 7. Environment and Sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- 8. Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- 9. Individual and Team Work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- 10. Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- 11. Project Management and Finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- 12. Life-long Learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

# DEPARTMENT ACHEIVEMENTS

- The Department of Computer Science & Engineering has started its UG Program B.Tech(CSE) from the year 1999 with an intake of 40.
- At present the department has expanded to 240. M.Tech(CSE) was started in the year 2011 with an intake of 18.
- B.Tech(CSE) program first accredited by NBA in 2011. Later B.Tech(CSE) reaccredited in 2018. Presently the program is accredited by NBA under Tier-1 from 2022 for a period of three years.
- The Department of CSE is a hub of activities with students having the opportunity to truly engage themselves in active learning through effective participation in Workshops, Seminars, Certification Programs, Hackathons, Tech-Fests, and R&D initiatives.
- To enhance the knowledge levels of students through self-learning the department has various Technical Clubs. The department focuses on students to advance, evolve and enhance Computer Science and Engineering fundamentals to build the intellectual capital of the society.
- We have consistently placed 90% of our students year by year. It leaves no stone unturned for creating seasoned engineers.
- Focus on research, hands-on learning approach and a team of expert faculty has created a reputation for the Department as one of the best for Computer Science and Engineering.

# ACTIVITIES ORGANIZED BY DEPARTMENT

- Guest Lecture on **“Impact of digital transformation and AI in health care sector”**
- Seminar on **“Full Stack Development Trainer Smart Bridge”**
- Smart India Hackathon
- HP OMEN KIOSK
- Technical clubs Induction Program
- Accenture Innovation Challenge
- Data Dive Datathon
- Guest Lecture on From Data to Decision: Practical Applications of Data Science
- Project Expo
- Study Abroad Education Fair 2024

# GUEST LECTURE ON “IMPACT OF DIGITAL TRANSFORMATION AND AI IN HEALTH CARE SECTOR”

Department of CSE organized a Guest Lecture on “Impact of Digital Transformation and AI in health care sector” on 24th July 2024. The resource person of the Guest Lecture is Dr. Francesco Paolucci, Professor, Newcastle Business School, Australia. Resource Person emphasized on Digital transformation and the integration of Artificial Intelligence (AI) have had a profound impact on the healthcare sector.

Below are some of the key impacts:

- These technological advancements are revolutionizing how healthcare is delivered,
- Improving patient outcomes,
- Data-Driven Healthcare & Optimizing processes
- Creating more efficient and effective healthcare systems.

# Full-Stack vs MEAN Stack vs MERN Stack: Which one is better?

## SEMINAR ON “FULL STACK DEVELOPMENT TRAINER SMART BRIDGE”

Department of CSE organized a Seminar on “**Full Stack Development Trainer Smart Bridge**” on **12th August 2024**. The resource person of the Guest Lecture is Mr. Syed Arshad, Full Stack Development Trainer, Smart Bridge. The Seminar equips students with the skills to develop both front-end and back-end components of web applications. This training covers a wide range of technologies and tools required to build modern, scalable, and secure web applications. Full-stack developers are expected to handle everything from designing the user interface (UI) to managing the server, database, and application logic.

### Topics Covered:

- Understanding the complete lifecycle of web application development from front-end to back-end.
- Explanation of web architecture, client-server model, and how different layers work together to deliver web applications.
- Front-End Development (Client-Side), APIs and Web Services
- DevOps and Deployment

## SMART INDIA HACKATHON

Department of CSE organized Internal Hackathon for the Smart India Hackathon (SIH) 2024 at Vidya Jyothi Institute of Technology commenced on 16th August 2024 with the sharing of a Google Form and a brochure to invite registrations. A total of 185 teams showed interest in the event.

Finally, 160 students participated in the hackathon, held on 5th and 6th September 2024. Students presented more than 140 problem statements, reflecting a wide array of real-world challenges across different domains.

The hackathon was inaugurated on 5th September 2024 with addresses by the following dignitaries: Dr. Swarna (SIH SPOC), who provided a detailed briefing on the structure and expectations of the SIH hackathon. Dr. Aruna Kumari, Convenor and Head of the CSE department, emphasized the significance of hackathons in encouraging innovative thinking and fostering creativity in students. Dr. Saibaba Reddy, Principal, and Dr. Padmaja, Dean, discussed the importance of participation in such events, urging students to take advantage of this platform for personal and professional growth.

## GUEST LECTURE ON “FROM DATA TO DECISION: PRACTICAL APPLICATIONS OF DATA SCIENCE”

Department of CSE organized a **Guest Lecture** on “**From Data to Decision: Practical Applications of Data Science**” on **16th October 2024**. The resource person of the Guest Lecture is Challapalli Sudhakar (Chairman, CSI Hyderabad Chapter). Resource Person emphasized on some of the practical applications of data science across various domains.

### Topics Covered:

Below are some of the key impacts:

- Data Science has become a fundamental discipline for extracting insights from vast amounts of data, enabling organizations to make data-driven decisions.
- The journey "from data to decision" involves several stages, including data collection, cleaning, analysis, and interpretation, before finally making informed decisions that influence business strategies, scientific research, healthcare, and more.
- Below are some of the practical applications of data science across various domains

# PROJECT EXPO

Department of CSE organized a Project Expo on 19th November 2024. The judges for the ProjectExpo are Dr.Rama Devi HOD-ET, MGIT and Dr.Shoba Rani (Associate Professor, CSE, CBIT. B.Tech IV Year CSE students showcased the projects they have developed as part of their academic curriculum or personal interest. These expos provide a platform for students to display their technical skills, creativity, and practical knowledge. The purpose of such an event is not only to demonstrate students' abilities but also to foster innovation, collaboration, and learning.

## MOU WITH SWECHA

Department of CSE signed an **MoU with Swecha - Part of Free Software Movement of India** on **16th August 2024**. The President of Swecha Dr. L.Pratap Reddy and the Head of the Institution & Principal Dr. Sai Baba Reddy along with Dr. Aruna Kumari, HoD – CSE took part in the signing the MoU.

### About Swecha:

Swecha was founded in 2005 as an organization to support the Swecha project, it is now a vibrant community of software users, students, academicians and software professionals/developers determined to provide quality software built on the guidelines of free software development model.

**Swecha** aims at providing global software solutions to the local people with the Free Software development model by working together with the community of developers and users all over. The prime objective of Swecha OS is to provide a complete computing solution to a population that speaks and understands only Telugu.

The project aims at bridging the gap between the computer technology that exists predominantly in English and the Telugu-speaking community of India. The project also aims at providing a framework for development and maintenance of Free Software projects taken up by the community.

Swecha is a project aimed at coming out with a localised version of GNU/Linux in Telugu. The target users of the distro being the entire community that is a prey of the digital divide. This project helps in coming out with a solution for the digital divide and allows the possibility of digital unite becoming a reality.
