Progress Report 2022-23

VIDYA JYOTHI INSTITUTE OF TECHNOLOGY

Vidya Jyothi Institute of Technology (VJIT) was established in 1998 by the Vidya Jyothi Educational Society, founded by a group of dedicated academicians and enterprising educationists. The Institute operates under the guidance of a resourceful management team, supported by committed faculty and staff, all focused on addressing the future needs of its quality-driven student community.

VJIT stands as a premier institute, ranked within the NIRF top 200 in 2022, and recognized as the 7th Best Engineering College and 8th Best College for Placements in Telangana by the 2022 Times Annual Engineering College Ranking Survey. The Institute is committed to embracing change and innovation in engineering education, continually enhancing technical learning and promoting strong placement outcomes.

As a technical educational institution, VJIT fosters innovation, research, and entrepreneurship in the fields of Science and Technology. Its mission is to unlock the potential of students, empowering them to gain meaningful life experiences and successfully establish their careers. VJIT is a preferred choice among students due to its diverse development activities and inspiring environment.

At VJIT, the future of students remains the central focus—dedicated to shaping a unique and dynamic technical tomorrow, today....

Marking a unique place in creating a technical tomorrow today...

VISION

- To develop into a reputed Institution at National and International level in Engineering, Technology and Management by generation and dissemination of knowledge through intellectual, cultural and ethical efforts with human values.
- To foster scientific temper in promoting the world class professional and technical expertise.

MISSION

- To create state-of-the-art infrastructure facilities for optimization of knowledge acquisition.
- To nurture the students holistically and make them competent to excel in the global scenario.
- To promote R&D and consultancy through strong industry-institute interaction to address the societal problems.

Progress Report 2022-23

Short Term Goals

- To start industry driven P.G. Programmes in various disciplines.
- To have MoUs with reputed universities, R & D institutions and industries to nucleate research centre.
- To provide consultancy & testing facilities.

Long Term Goals

- To become a top-ranking Institution in the country.
- To have MoUs with reputed universities and R & D institution at international levels.
- To develop the institution into a deemed university.

Quality Policy

- To ensure high standards to educate, enrich and excel in imparting professional education, by top-quality-faculty who endeavors to mould the students into socially responsible professionals through creative team-work, innovation and research.

1.5**Best Practices**

Best Practice 1

1. Title of the Practice: Strengthening of Industry- Institute Collaboration

2. Objectives of the Practice

- To enhance the relationship between the Institute and industry.
- To promote participation of industry personnel in the development of curricula & high-quality student projects.
- Memoranda of Understanding between the Institute and industries to bring the two sides strategically closer.
- Visits of industry executives and practicing engineers to the Institute discussions and to deliver lectures on industrial practices, trends and experiences.
- Visits of faculty members to industry for study and discussions or delivering lectures on subjects of mutual interest.
- To facilitate industrial training for students, internship programs and students' study tour programs
- To encourage entrepreneurial activities among the students
- To support consultancy/ training services using the institutional expertise

3. The Context

Interaction between institutions and industry is the need of the hour, for a healthy exposure among technical students and subsequent placement of young graduating engineers in industries across the country. The Industry-Institute Interaction Cell (IIIC) of the institute is dedicated to promote close interaction between industry and various departments of the institute. Industries are aware of the recent developments and inventions in their fields; develop/implement projects for technologically driven economy. The cell is the bridge between the industry, the real world and the institute. Industrial exposure of the faculty members is productive and supportive to guide students in the latest industrial practices. IIIC of VJIT prepares engineering students for jobs in multinational companies by updating them with newer technologies and engineering methodologies, thereby bridging the gap between industry and the academia. Indian industry, at present, has reached a crucial turning point where it has to face the dynamic demands of the competitive domestic and global markets wherein providing high quality products and services is inevitable. A need-based, effective, dynamic, responsive and human education system would be capable of addressing the challenge. The interaction between institute and industry is necessary to train and develop the right kind of manpower to sustain industrial growth. VJIT has set up an Industry -Institute Interaction Cell under the leadership of an expert team which has rich experience and exposure in both academics and industry. The ultimate aim of imparting professional education and providing exposure to current industry practices is to enable the students to be industry-ready and to secure sustainable jobs in their respective platforms. The IIIC established in VJIT is determined to acquire aforementioned objectives.

Best Practice 2

1. Title of the practice: PRAYUKTHI- Employability, Entrepreneurship & Higher Education

PRAYUKTHI is an innovative endeavor at VJIT focused on empowering students from reserved categories (SC/ST), fostering their ability to excel among their peers. This initiative intends to instill confidence in these students by addressing their present needs and enhancing their future prospects at VJIT.

PRAYUKTHI is recognized as a distinguished and commendable practice, designated as Best Practice-2. It focuses on driving and fostering significant progress in the academic journey and personal development of students from reserved categories."

2. Objectives of the Practice

To motivate SC/ST students for higher education, acquire government jobs and other professional jobs.

- To train the SC/ST students for exercising expertise in the arena of soft skills, communication skills, interpersonal skills and preparing them to face interviews and get better placements.
- To utilize the intellectual resources by minimizing the wastage of time in scouting for opportunities and motivate immersive self-learning experiences.
- To provide study material, prepared by experts, for all competitive examinations.
- To allow access to all the desired resources required for students and interact with faculty members beyond the class work.
- To transform the passive learners to active learners and reproduce knowledge.
- To give financial assistance to needy students with the help of the College management. To conduct seminars and guest lectures by experienced faculty and HRs from industry.
- To involve the students from first year to final year in order to understand the importance of career building, industrial jobs and entrepreneurship.
- To make them confident in taking assessments and certifications related to skills required.

3. The Context

Most of the students come from diverse socio-economic backgrounds. Many of the students may not be aware of the basic concepts of the subjects as their importance was not taught at intermediate level. Also they are not aware of the skills required for employability (Eg. Communication Skills). Hence in VJIT, we have initiated this scheme to motivate and improve skills.

Progress Report 2022-23

4. The Practice

- Conducted training classes GATE/ GRE /TOFEL
- NPTEL Certifications
- CISCO Certifications
- Google Cloud Readiness Program
- CRT- Campus Recruitment Training programs: The Institute provides industry oriented training by Talentio, placement assessment by Instack and soft skills training by Rubicon.
- IIT Bombay Spoken Tutorials
- Oracle Certifications
- To improve coding skills through HackerRank platform

5. Evidence of Success

Cisco Career Certifications

Cisco certifications are a series of professional certifications offered by Cisco Systems, a leading provider of networking and telecommunications equipment. These certifications validate an individual's knowledge and skills in Cisco technologies and can help them advance in their careers in the IT industry. Cisco also offers training courses and resources to help individuals prepare for these exams. Once certified, individuals can use their certification to demonstrate their expertise to potential employers and clients.

Progress Report 2022-23

Oracle Certification

Oracle certification is a program offered by Oracle Corporation that validates an individual's knowledge and skills in Oracle technologies and products. The program includes a wide range of certifications, covering different levels and specializations.

ISTQB Certification

ISTQB (International Software Testing Qualifications Board) certification is a globally recognized certification for software testing professionals. It is a standard qualification for software testers and is recognized by many organizations globally. It can help software testers demonstrate their knowledge and expertise in software testing which may lead to better job opportunities and higher salaries.

Qlik Sense Business Analyst Certification

It demonstrates proficiency in data gathering, interpretation, and presentation in a visually compelling manner. This certification is used by industries such as finance, healthcare, retail, and technology to leverage data-driven insights for business strategy enhancement.

IIT Bombay Spoken Tutorials

IIT Bombay's Spoken Tutorial initiative is a comprehensive online learning platform that offers free tutorials in various programming languages and software applications. With a focus on skill development, these tutorials cater to a wide audience, from beginners to advanced learners, providing practical insights and hands-on experience. The tutorials cover a diverse range of topics, contributing to the growth of a knowledgeable and skilled community.

HackerRank

HackerRank is a popular online platform offering coding challenges and assessments to enhance programming skills. Providing a diverse array of coding challenges in multiple languages, it serves as a valuable resource for technical skill development and coding interviews. HackerRank's adaptive and gamified approach makes learning engaging, catering to both beginners and experienced developers.

Campus Recruitment training (CRT)

Most of the student's aim is to get a software job in MNCs. Hence campus recruitment training programmes are conducted to improve their skills in clearing aptitude tests, group discussion (GD) and interviews. VJIT has organized "Employability Skills" under "Life Skills" programme by Rubicon.

Seminars / Webinars

VJIT has arranged following seminars:

- Seminar on Higher studies and opportunities Abroad
- Session on "Abroad Admission Process"
- Session on "Roadmap for cracking 12+ LPA in 3 months"

Progress Report 2022-23

- Session on "Building an email client using python"
- Session on "HR round: Interview Questions and Answers"
- Session on "Technical Interview: How to succeed "
- Webinar on "Data Science Internship: All you Need to Know"
- Webinar on "Weather App using python"

6. Identify the problems encountered and resources required to implement the practice Challenges Encountered:

- Insufficient awareness regarding the significance of skill development.
- Reluctance to engage in activities due to low confidence.
- Limited family support, with a disinterest in sending their children for higher studies
- Lack of guidance resulting in difficulties for students in making academic or career decisions.

In order to address these challenges, VJIT has developed a framework aimed at inspiring students through career awareness initiatives, developing avenues for refining technical skills, and attainment of certifications in cutting-edge technologies. Furthermore, personalized training sessions are conducted to equip students for placements in reputed organizations. Additionally, GATE coaching classes are offered to strengthen their journey towards higher education.

7. Resources Required for Practice Implementation:

To effectively implement the practice sessions, the following resources are essential:

- A dedicated team of experienced and qualified faculty members who are committed to supporting the students throughout their learning journey.
- Additional resources, including a comprehensive collection of educational materials, access to specialized coaching sessions, and participation in targeted training programs. These resources are crucial for enhancing students' understanding and skills in their chosen field.
- Provision of assigned computers for students, enabling them to practice model tests, access online learning resources, and complete regular assessments. Access to these technological resources facilitates a more interactive and dynamic learning experience, enhancing students' engagement and performance.

In conclusion, addressing these challenges and providing the necessary resources is crucial for the successful implementation of the best practices aimed at empowering students from reserved categories. By leveraging dedicated faculty, additional educational resources, and technological support, VJIT can effectively bridge the gap and enable these students to thrive in higher education and the workforce.

1.6 Curriculum

1.6.1 Curriculum Development Process

Curriculum Design and Pedagogical Approach at VJIT

At VJIT, we embrace **design learning** as a core pedagogical approach, combining the effectiveness of participatory classroom engagement with technology-driven active learning strategies. Our pursuit of excellence in technical education is rooted in continual improvement, aiming to nurture responsible technocrats who contribute meaningfully to nation-building. We are dedicated to fostering a positive and professional learning environment that inspires students to strive for excellence. Our goal is to shape competent engineers, innovative technologists, and visionary leaders for a global society. This is made possible through a cohesive network involving parents, alumni, students, faculty, and industry partners.

Curriculum Philosophy and Structure

The curriculum at VJIT is meticulously designed to ensure that by the time of graduation, students develop proficiency in multiple domains—technical knowledge, practical application, problem-solving for societal challenges, use of modern tools and software, and the translation of knowledge to address industry and societal needs. We follow the **Outcome-Based Education (OBE)** model for curriculum design and implementation, grounded in clearly defined objectives and measurable course outcomes. The OBE framework encompasses planning, execution, continuous quality improvement, assessment, and evaluation across all programs.

Progress Report 2022-23

To design and implement a dynamic, future-ready curriculum, the institution adopts a structured and systematic process. Global challenges are met with forward-thinking initiatives that are thoroughly discussed in the **Board of Studies (BoS)**, approved by the **College Academic Council (CAC)**, and finalized by the **Board of Governors (BoG)**.

Key Features of the Autonomous Curriculum

- **Choice Based Credit System (CBCS)** implemented
- **Fast-track curriculum implementation** for timely course delivery
- **Mandatory courses** introduced in the 2nd year
- **Open electives** introduced from the 3rd year
- **Quantitative Methods and Logical Reasoning (QMLR)** introduced in the 3rd year
- **Professional Communication** training in the 2nd year
- **Personality Development and Behavioral Skills** included in the 3rd year
- **Question papers** designed according to Bloom's Taxonomy
- **Semester End Examinations** set and evaluated by experienced external examiners

Focus on Employability and Innovation

The curriculum is designed to ensure graduates are not only employable but also capable of innovation and research. To enhance employability, new industry-aligned courses have been introduced, focusing on analytical and problem-solving skills, social awareness, and core subject expertise. A broad spectrum of **core, interdisciplinary, open, and generic electives** prepares students for real-world challenges.

To promote innovative thinking, the curriculum integrates **interdisciplinary electives** that encourage a multi-disciplinary approach to problem-solving. To support execution of these ideas, the institute has established **exclusive labs** and various **Centers of Excellence**.

Research and Societal Relevance

Research orientation is a key objective. Through a wide array of elective courses and professional subjects, students are encouraged to develop and implement research ideas. Specialized courses provide the foundation for building strong research competencies.

VJIT's curriculum is designed with a strong societal focus. Inputs are gathered regularly from a diverse group of stakeholders, including students, alumni, employers, academic experts, industry professionals, and parents—via both formal and informal feedback mechanisms. This feedback is carefully analyzed and serves as the basis for curriculum refinement and redesign during BoS meetings.

Progress Report 2022-23

Commitment to Continuous Improvement

The curriculum is continuously upgraded based on stakeholder input to ensure it aligns with societal needs and industry expectations. Our mission is to develop competent engineers and managers who emerge as global leaders, grounded in values and equipped to drive innovation and change.

The Curriculum framing process

The Curriculum framing process for the identification of curriculum gaps involves a phase wise process which is done in each Academic Year.

Phase 1. Faculty knowledge domain

The faculty handling the existing course individually provides general information on the quality of the course; strategic directions for the course; satisfaction of the course meeting with the curriculum. He/she analyses the present curriculum and updates the current industry/societal requirements. A draft curriculum gap report is prepared.

Phase 2. Assessment of delivery of the program and quality of the program through in program students and exiting students

An in-program student survey is conducted to measure the degree to which current students believe they are achieving program-level learning outcomes; overall satisfaction with program; overall satisfaction with program delivery. An exit student survey is conducted for the exiting students to measure quality of the program and satisfaction with curriculum and overall program delivery. These surveys are conducted to assess the delivery of the program and quality of the program. The gaps in the teaching-learning process are identified in this phase.

Phase 3. Curriculum mapping with POs and PSOs

The course mapping with POs and PSOs is made by Course Coordinators which clearly identifies the curriculum gaps. These mappings will identify the deficiencies in attainment of PO's and PSO's

Phase 4. Program Assessment Committee (PAC) meeting to consolidate the identified curriculum gaps in all the above phases

A PAC meeting is to be conducted to consolidate the identified curriculum gaps in all the above phases. The suggestions will be recorded for the entire program and the deliberations are submitted to DAB for further approval

Phase 5. Draft proposal finalization by Department Advisory Board (DAB)

DAB meeting is to be organized to review and analyze the suggestions consolidated by Program Assessment Committee. DAB insists the department to organize curriculum development workshops in series of sessions with the academic experts. They finalize the draft proposal given by PAC for the development plan in due consideration with the suggestions from various stakeholders.

Progress Report 2022-23

Phase 6. Approval from Board of Studies

Department wise Board of Studies will then finalize the draft proposal of Department Advisory Board and recommends the action plan for bridging the curriculum gaps and revises the syllabus. Finally, the syllabus is accorded and approved by Internal Quality Assurance Cell, Academic Council and ratified by Board of Governors.

1.6.2 Teaching Learning Process

The Teaching-Learning process at VJIT has gained significance with the inception of student-centric learning. VJIT has embraced the student-centric teaching methodology in the autonomous curriculum with emphasis on hands-on-learning, the ICT enabled learning along with the regular teaching processes has been adopted to engage students.

Power point presentations are used in the classrooms to provide audio visual experience to the students. The NPTEL video lectures are also adopted for enhanced learning while the “Think-Pair-Share” methodology is implemented for cooperative learning in the classrooms. Quizzes are conducted regularly, and assignments are given to the students to nurture their problem-solving abilities. Demonstration based learning and Case based learning emphasizes on the comparative result-oriented approach which helps students to think critically on the solution procedure to obtain the alternate solution and helps class room teaching more interesting. Collaborative learning is encouraged by the support of platforms like Google classroom. The Project Based Learning is adopted for the self-study components from 3rd semester onwards. The project allocation, monitoring and evaluation system is in place and is running effectively under senior faculty guidance. A rubric for project evaluation which covers all the quality criteria is also well maintained. Effectively designed open-ended experiments are adopted to challenge the student’s critical thinking, analysis and design capabilities. The students are also trained on modern simulation tools. The industry visits, site visits, guest lectures etc. are conducted regularly on the latest topics and trends in the industry. Hands-on workshops by the industry experts are organized regularly. Elective courses are offered based on the student’s individual interest.

The final year Projects are evaluated by external experts using a well-defined detailed rubric framework to ensure quality of the projects and the best projects are awarded prizes. Value added courses are undertaken on various relevant topics. The students are also trained in abstract writing, technical paper writing and literature survey. OBE is practiced in true spirit resulting in more focused all-round development of our students.

Modern Tool Usage: All classrooms are equipped with LCD projectors facilitating faculty to take classes and students to present their project/research work in classroom.

Progress Report 2022-23

YouTube based E-tutorials developed by faculty assist students in comprehending the concepts and enable students to replay in clearing doubts at specific bottleneck points.

Technology is used for enhancing the learning ability of the graduates. Tools like Google meet, Zoom are used for online classes.

VJIT encourages faculty members to utilize ICT tools available at their disposal so that teaching-learning experience becomes more interesting. To optimize the delivery of education, teachers at VJIT use the following ICT Tools:

1. 82 LCD Projectors are available in classrooms/labs.
2. Desktop and Laptops are there in all Computer Labs and Faculty cabins.
3. Printers are installed at Labs, HOD Cabins and all prominent places.
4. Photocopier machines are available in all buildings in VJIT campus.
5. Scanners are available at all prominent places.
6. Seminar hall equipped with all digital facilities is available for all departments.
7. One Auditorium with a seating capacity of 500 is digitally equipped with mike, projector and computer system.
8. Online Classes through Zoom, Google Meet, Microsoft Team
9. MOOC Platform (NPTEL, Coursera, SAP, Udemy, Edx etc)
10. Digital Library resources (DEL NET, etc)

Industry-Institute-Interaction: College has Industry-Institute Interaction Cell with coordinators at department level who work with representatives of various industries and train the students in their respective areas. The partnering industries provide internships, projects, and subsequently provide job offers to some of our students.

Student Support System: Participation of students in inter-college Hackathons and the prizes won by them is authentication of the support given from the Institute. The departments have also adopted many best practices with student centric methods. Remedial classes for the slow learners are conducted regularly. The Institution has several StudentClubs with an aim to inculcate the culture of innovation and encourage them to generate new ideas. The Institution ensures overall development of students through participatory learning experience.

Progress Report 2022-23

VJIT takes responsibility in supporting student talent management, facilitating trainings in applied learning tasks focusing on short-term and long-term goals in areas of student development. The committed guidance never deteriorated even during tough Pandemic times by ensuring continuity in learning through:

- Faculty monitoring students to register for specific domain courses in Coursera. Preparing students to learn various courses including updated technologies under consideration.
- Students registered in courses of interest and eventually awarded with e-certificates.
- Cloud Technology is expended in using Google forms by faculty to conduct online assignments and examinations before and during pandemic period which helped in evaluation of the teaching learning process.
- Students presented progress of their project work by using ICT enabled tools and exhibiting their models to faculty.
- The flipped classroom teaching advanced ability to prepare lectures and presentation. The query answering trait got improved among students by employing ICT tools.
- The teaching methods facilitated in suppressing passive mode among slow learners and improved their proactiveness.

Academic Calendar is prepared before the commencement of academic year and is approved in the academic council. Two semesters each with 90 working days are formulated for UG and PG programmes. The calendar clearly illustrates the duration of Classwork, Mid and End Examinations. The calendar is disseminated to students and faculty through circulars, display in notice boards, posting in website etc.

Once the calendar is released the other connecting academic activities take initiation in each of the departments. The Head of the Department allocates the courses to faculty members who in turn prepare the course outcomes (CO) for assigned courses. The faculty further map the COs with POs and PSOs employing the numeric weightages/ratings.

The teaching plan also envisages the value-added courses to cater to the needs of students preparing them to match their skills to industry requirements without any further training.

The continuous evaluation is also planned in the semester at appropriate time periods such that the faculty can conduct assignments & mid examinations in the stipulated slots.

Progress Report 2022-23

The teaching plan comprises Blooms Level Taxonomy associated questions with an objective to test the cognitive skill levels of our students. The teaching plan envisages the evaluation procedure for answer scripts, seminar reports, project reports and is carried by appropriate rubrics prepared initially at the commencement of the semester.

1.6.3 Human Values & Professional Ethics

At VJIT, we believe that higher education must go hand-in-hand with character building and ethical development. Human Values and Professional Ethics are integrated into the academic framework and reinforced through a variety of student activities that nurture integrity, empathy, discipline, teamwork, and a sense of social responsibility.

This vision is reflected in the diverse range of activities our students actively participate in. These include paper presentations, project expos, hackathons, poster presentations, technical quizzes, and software application internships. Each of these events promotes critical thinking, innovation, and ethical collaboration. Activities such as sports fests and state-level athletic championships foster discipline, fairness, and teamwork—key professional values. Participation in national-level symposiums and certifications related to technical and professional skills further enhance students' commitment to continuous learning and responsible innovation.

By engaging in these co-curricular and extracurricular activities, students internalize core human values and develop the professional ethics essential for real-world challenges. At VJIT, these efforts are aimed at producing not just skilled graduates but ethical professionals ready to contribute positively to society and the industries they serve.

1.6.4 Research & Innovation Ecosystem

The institution is located in an eco-friendly campus and it encourages staff and students to carry out research projects for coming out with solutions to problems which cause various kinds of hazards to the environment.

Research and Development (R&D) Cell: Research laboratories were established under the supervision of R&D cell to conduct the research by faculty and students in different disciplines. Two departments CSE and Mechanical received JNTUH recognized research centers. The institution supports the faculty members to do research by awarding special incentives in the form

Progress Report 2022-23

of cash and special leave. The faculty members and students of the institute published research papers in various national and international peer reviewed, Scopus, SCI Indexed and UGC recognized journals. Research Advisory Board is constituted with eight expert members from different reputed university and industry to advice policy guide lines and provide directions for the growth and development of research activities in the institute. The institution signed MoUs with reputed industries to partner in research projects by different departments for development of products in the field of various domains of Engineering. The Institution is rendering consultancy services to industry.

EDC Cell Swashakthi was formed in the year 2015 Institute EDC Cell continuously conducts events and awareness workshops to students. VJIT Ecosystem started in 2015 to adopt the spirit of entrepreneurial thinking, promote and sustain student innovations from ideation to startup developing entrepreneurial eco system in the young minds and shaping next generation entrepreneurs for the past 10 years our students are participating in the JNTU EXCITE Design Workshop conducted by HYSEA & TASK and won number of awards and seed money grant for students.

Incubators in the campus and collaborators

- Confederation of Indian Industry (CII).
- MSME Recognized Incubation Center.
- DATA READY Technology Corp, Toronto, Ontario, Canada.
- Association of Lady Entrepreneurs of India (ALEAP WE-HUB), Hyderabad.
- National Entrepreneurship network (NEN) , Wadhvani Foundation
- Centre for Entrepreneurship development (CED)

The institute established an Institute Innovation Council (IIC) in collaboration with MHRD's Innovation Cell (MIC) to foster a culture of innovation among students and faculty. MIC aims to inspire and support students to explore new ideas from an early stage through activities spanning idea generation to start-up incubation. As part of this initiative, the institute hosted the MHRD IIC Industrial Talk Series, with active participation from students and faculty. Additionally, IIC organized a workshop on Intellectual Property Rights to raise awareness about patent regulations and procedures.

Progress Report 2022-23

National Innovation Startup policy is also introduced in the Institute with a vision to ensure Vidya Jyothi Institute of Technology as HUB for startups, entrepreneurship, Intellectual Property Rights (IPR) ownership, technology licensing and equity sharing in Startups and promote Rural Enterprise.

The entrepreneurial ecosystem at VJIT will play key role in identifying, mentoring, nurturing innovative and entrepreneurial potential of students, faculty and staff and transforming them into start-up entrepreneurs by provided avenues of funding, investment opportunities and networking support to make the innovation and venture successful.

IPR Cell: A platform for encouraging filing of IPRs and patenting the products/technologies for the benefit of the Institute and thereby to society at large". The IPR Cell provides a platform to share and discuss the latest development and applications with practical exposure & is helpful for innovators including faculty members, students and research scholars. Innovators including faculty members, students and research scholars.

1.7 Faculty Development Programmes and Achievements

1.7.1 Faculty Development Programmes

Faculty members are widely regarded as the most valuable resource in any institution of higher education, serving as the primary facilitators of knowledge and skill development for students. At the Engineering Institute, faculty are increasingly expected to be innovative educators and effective mediators between students and knowledge. These expectations stem from evolving curricula and the demands of a competitive industry. As a result, faculty must now acquire new knowledge and a diverse skill set—including managing multiple roles, mentoring, and integrating technology into teaching, learning, and research. Mastery of emerging ICT tools has also become essential.

At VJIT, Faculty Development Programs (FDPs) have evolved from focusing on qualification enhancement to emphasizing overall quality enrichment. These programs are designed to equip faculty with the tools needed to navigate the rapid changes and emerging trends in engineering education. The FDPs organized in the academic year 2022–23 have been instrumental in further honing teaching effectiveness.

1.7.3 Faculty Certifications

At VJIT, Hyderabad, faculty members across various departments have actively pursued professional development through reputed certification platforms. In the Civil Engineering department, faculty completed 2 certifications offered by The National Small Industries Corporation Ltd. Technical Services Centre. The Mechanical Engineering department recorded 1 certification through Udemy. Faculty from the Electronics and Communication Engineering (ECE) department demonstrated significant engagement with 24 certifications completed via NPTEL. In the Computer Science and Engineering (CSE) department, 7 certifications were undertaken through CISCO.

The Information Technology (IT) department showed notable participation, with faculty completing 11 certifications from IIT Bombay, 8 from CISCO, and 2 from NPTEL, making a total of 21 certifications. In the Data Science (DS) department, 1 certification was secured through CISCO. Additionally, the Humanities and Sciences (HS) department reported 1 certification through NPTEL, while the MBA department faculty completed 2 certifications from the same platform.

These achievements highlight the dedication of VJIT faculty to continuous learning and upskilling through recognized national and international certification programs.

1.8.5 Mentoring System

VJIT believes that mentoring system has a positive impact on students' continuous progress and achievement. Hence, Institute has adopted effective mentoring system for the development of its students. Our experienced faculty establish a positive and constructive relationship with the students to foster their personal and professional growth.

Our mentoring system has shown a tremendous change in the students' ability to reach their goals and realize their dreams. This was possible by maintaining a positive classroom atmosphere, in which the faculty are quite approachable to the students and they successfully reinforce learning skills by alleviating students' mental blocks. The students have always looked up to our faculty who have been serving as role models sharing their personal experiences and history of their careers.

- The results achieved by our students are a perfect example of our sound mentoring system; the results being both output and outcome-based.
- Increasing student attendance percentage is yet another milestone in our mentoring system.
- Students' keen interest in curricular, co-curricular and extra-curricular activities, their active participation in various student clubs to enhance their personality is another achievement of our robust mentoring system.

VJIT also promotes psychosocial mentoring system to boost the confidence levels of its future professionals. Our able faculty serve as a consistent source of advice and support to the students to build self-confidence and self-esteem by motivating an open talk about their fears and anxiety that hinder their concentration on academics. A deep insight into the multiple backgrounds of the students that inflict their academic development has helped us to counsel them to overcome their insecurities. This has been a focal point of our strong and efficacious mentoring system. Another major area of focus in mentoring system is the academic/career factor. We have been active listeners to the students who project a plethora of ideas and have been extending our support to them in exploring a range of opportunities and possibilities, thereby strongly supporting them in critical decision-making. It is our primary responsibility to explore suitable, sustainable academic and career options hand-in-hand with the students and helping them overcome their stigma about their abilities. The motto of our mentoring system is the viable student-faculty interaction for a persistent development of our students.

Mentoring system to help at individual level:

Types of mentoring: All round mentoring

Frequency of Meetings: Fortnight (and need based)

Mentoring process

Mentoring is for overall development of the student. Counseling books are maintained by faculty where all details of the students are recorded. The following details are maintained in the counseling book of each student:

- Personal Information
- Past Academic Performance
- List of academic achievements
- Monthly attendance

The mentors will meet the students periodically and monitor their performance and their progress. Guidance is given to students for the improvement. The followings are take care by each mentor.

- Monitoring Regularity of the students.
- Monitoring Performance of the students.
- Personal Counseling for Career Guidance
- The parents of poorly performing students are informed through SMS and call.
- Students are encouraged to participate in technical events.

1.10 Training and Placements

1.10.1 Training & Placements

Training & Placement Cell – VJIT

The Training & Placement (T&P) Cell at VJIT plays a pivotal role in shaping the careers of students by equipping them with the necessary skills and facilitating placement opportunities. Each year, students participate in 80 to 100 on-campus and off-campus placement drives, with approximately 80% of eligible students getting placed in reputed companies.

To meet the evolving demands of the industry and transform students into industry-ready professionals, the T&P Cell conducts a wide array of activities, including:

- Technical and Soft Skills Training
- Workshops and Guest Lectures
- Alumni Interaction Sessions
- Mock Interviews
- Online and Offline Assessments

Training Structure

- Engineering Students: Training begins from the 2nd year and continues upto to the 4th year.
- MBA Students: Training is primarily conducted during the 1st year.
- Placement Drives: For B.Tech students, recruitment begins at the end of the 3rd semester and continues up to the 8th semester.

Progress Report 2022-23

Internships & Industry Collaboration

In collaboration with the Institution-Industry Interface (III) Cell, the T&P Cell actively facilitates internship opportunities during the 8th semester. The Cell also drives industry partnerships and MoUs with leading companies to enhance student exposure and learning. Centers of Excellence at VJIT resulting from these collaborations include:

- Virtusa CoE in Software Testing
- Qlik CoE in Data Analytics
- Lean Techno CoE in Manufacturing
- TalentSprint CoE in Career Readiness

Training Partners & Platforms

To deliver the highest quality training, the Cell has partnered with renowned organizations such as:

- Cantilever Labs
- Talentio
- Suntech

To ensure students stay current with technological advancements, recent MoUs have been signed with:

- Facehiring
- Crampete
- One Compiler
- GoHexa

These platforms support online learning, coding, and technical certification, enabling students to develop job-relevant skills and certifications.

Leadership & Support

The T&P Cell is led by Dr. Siddhartha Ghosh, who brings over 15 years of experience in training and placements. He is ably supported by:

- Assistant TPOs
- 1 Soft Skills Trainer
- 1 Aptitude Trainer
- 6 Department Staff Coordinators
- 40+ Student Coordinators from various branches

2 Research and Development Activities

2.1 Research and Promotion Policy

VJIT constructively focuses on Innovations by faculty and students and groom them for research and development as a stepping stones to reach the institute vision in the key area on Engineering and Management. The Main aim of Research & Development Centre at the Institution level is to promote Research & Innovation among the faculty & students that helps for a social cause. Dr. D. Arunakumari Professor, Department of Computer science Engineering is the Institutional Research Co-ordinator of the Centre. The R&D Centre of the college works in three distinct aspects viz., pursuing Academic and sponsored research, bringing innovation from engineering and imparting standards among all the research pursued. To promote research and innovation, many new centres of excellence and innovative labs have been established. The best research practices and ideas are shared amongst departments. R&D Center involves in identifying thrust areas on research, developing projects leading to publications in National/International Journals and conferences. The centre helps in developing co-operative and complimentary research among various Departments under VJIT to explore advanced technologies. The Centre holds periodical Review meetings on the progress of research being carried out by staffs and students. The Center also renders help to pursue funded projects once it is sanctioned. The Centre also guides in writing projects, to culminate in filing patents.

Progress Report 2022-23

Treading this path, the Institution evinced interest in research amongst the students from first year of their study. Necessary environment and facilities were created. Centralized labs/design centers titled propel labs were established. These labs are broad based and not confined to a single area/discipline. Student groups (multidisciplinary) work on various engineering projects in these labs - concept to designing the prototype. The labs are open for students of all disciplines. Each Lab is headed by a faculty and supported by competent technical staff who volunteers to act as mentors for the students and ensure that students conduct the research. Currently about 300 students are working in these labs. Creative thinking skills of the students and mentoring by faculty guides result in development creating systematic processes and products. These research labs help the students to build prototypes which enable them to participate in competitions both in India & Abroad.

The aims and objectives of VJIT Research & Development Centre is enumerated hereunder:

- Encourage Faculty and students to take up research
- Monitor activities of centers of excellence/innovative labs/incubation centers
- Collaboration with foreign universities for Research activities
- Facilitate management grants/incentives for promoting research
- Assist in patenting
- Conducting research conclaves

Some of the unique research facilities created are shown here under:

- ICI Knowledge Center
- Nano Materials Synthesis laboratory.
- NI LAbview Academy school
- Cypress semiconductors Center of excellence on Embedded & IoT
- VLSI Laboratory
- Signal Image and Video Processing Laboratory
- 3D Printing Lab
- Internet of Things (IoT)
- Centre of Excellence in Data Analytics in association with Qlik,

Progress Report 2022-23

The institution has introduced number of Initiatives towards Promoting Research activities in the institution.

- Cash incentives for research publications in refereed journals
- Management funded Research Promotion Scheme
- Deputation of faculty to participate in Workshop, seminar and conferences
- Financial assistance to faculty for presenting technical papers in national, international conferences/seminars
- Centers of excellence/Innovative labs/Incubation centers
- Incentives for faculty for fetching external research grants

- MSME incubation center to facilitate consultancy activities
- Supporting measures for patent filing
- Continuous augmentation of labs with state of art equipment and software
- Incentive Scheme for Research Activities:
 - a) Annual Book Allowance of Rs.2000/-
 - b) Full Annual membership fee for Indian Professional Body in their respective domain c) 75% of the Annual Membership Fee for a Foreign Professional Body in their Respective Domain.
 - d) The Annual expenditure in lieu of extending all the above benefits shall put together not exceed Rs.15, 000/- Per faculty.
- Collaboration with Core industries for Research activities
- Cash incentive for writing technical & literature Books
- Incentives for faculty for fetching external research grants

Research Hierarchy

Progress Report 2022-23

Organizational Chart of R & D

Roles and Responsibilities of R & D Cell

The Role of R & D Cell:

Objectives:

- To enhance the Research Ecosystem of the college
- To promote Academic Research in the college with Faculty and students
- To preserve the Code of ethics of the college while publishing
- To help the faculty in applying for funds in the form of Sponsored research / Grants from government and non government agencies
- To pave path for the teachers, students and researchers to collaborate for research

Responsibilities of R & D Cell

To help faculty, researchers and students to

- Know research methodology
- Methodology to develop projects
- Process of converting projects into prototype and in turn into products

Progress Report 2022-23

- Enhancing their knowledge on Intellectual property rights and Patents
- Preserve code of ethics while publishing papers / thesis
- Conduct skill development courses that enhancing the capability of students and Faculty.

Intellectual Property Rights Cell (IPR)

Objectives of IPR Cell:

- To provide IPR Information in Protection with Orientation to Faculty & Students.
- To guide & advise Researchers on how to obtain & sustain Patents with IPR Cell.
- To facilitate routing of Patent searchers through IPR.
- To get necessary clearances from competent authorities while filling Patents and other IPRs like Copyrights Registration and Design Registration, etc. through IPR Cell.
- To evolve the procedures for commercialization of Patented Technologies with Students and Faculty.
- To organize various IPR awareness Programmes in Collaboration with Research Organization in VJIT Campus.

4 EXTENSION ACTIVITIES UNDERTAKEN

4.1 Entrepreneur Development Cell (EDC) / Institution Innovation Council (IIC)

Progress Report 2022-23

EDC of the institute is committed to the cause of encouraging entrepreneurship among students. The cell invites various renowned entrepreneurs to share their experiences. Lectures and awareness programs are regularly conducted to enlighten the students about the joys and problems of entrepreneurship. Guest lectures are conducted throughout the year to involve the students in the various activities.

Objectives of EDC

- To organize Entrepreneurship Awareness Camps, Entrepreneurship Development Programs, Faculty Development Programs and Skill Development Programs in the college/institution for the benefit of students
- To motivate and develop entrepreneurship among the students
- To initiate innovative student projects each year for new innovative product development
- To arrange interaction with entrepreneurs and create a mentorship scheme for student entrepreneurs
- To facilitate creation of entrepreneur's club in each college to foster the culture of entrepreneurship amongst students

4.4 Sports Activities

The institution has adequate facilities for cultural activities, yoga, sports and games

- **Cultural & Event Spaces:**

- Auditorium for major events and performances.
- Two open-air stages, each with a capacity of over 2,000 people, used for various cultural activities.
- A dedicated Cultural Centre housing:
 - *YUKTHI* – a student-led cultural club supported by faculty.
 - Photography club and other creative cells promoting self-expression and creativity.

- **Indoor Sports Facilities:**

- A separate indoor sports complex supporting:
 - Table tennis
 - Carroms
 - Chess
- Fully equipped **gymnasium** for students and faculty with:
 - Treadmills
 - Cross trainers
 - Vibrators
 - Rods and dumbbells

- **Outdoor Sports Facilities:**

- Two volleyball courts
- One throwball court
- One tennikoit court
- Shuttle court
- Aesthetically designed basketball courts
- A large playground on the west side of the campus supporting:
 - Cricket

Progress Report 2022-23

- Football
- Handball
- Kho-kho

• Yoga & Wellness:

- A dedicated **yoga center** on campus with a trained instructor offering sessions for both students and faculty.
- Emphasis on the philosophy that a healthy body promotes an active mind.

• Cultural Ethos:

- The cultural essence of VJIT enriches the campus environment and contributes to the holistic development of students.
- Creative initiatives are nurtured under the guidance and motivation of the faculty.

Minutes of the BOS meeting in Department of Civil Engineering

Board of studies meeting of the Department of Civil Engineering was held on 28th March 2023 at 10:30 am in the Boards Room to discuss the following. The meeting has started with the welcome of all Board of Studies members by the chairman

Following items are discussed and approved

Sr. No	Agenda points	Resolutions
1	BOS Agenda Point 1 : Approval of B. Tech R22 course structure & syllabi for II, III & IV years	Detailed discussion regarding course structure, course outcomes and syllabi of UG II, III & IV year was held. Proposed course structure and syllabus were approved for R22 by all BOS members for the department of Civil Engineering for the batches admitting from AY 2022-23 onwards.
2.	BOS Agenda Point 2: Open Elective courses for III-I, III-II & IV-I years for R22 Regulation	Detailed discussion regarding open elective courses, course outcomes and syllabi were held. The BOS members after thorough discussion approved the proposed open elective course offered by Civil Engineering department to other departments (Other than Civil Engg.) for R22 regulations in semesters III-I, III-II & IV-I respectively.
3.	BOS Agenda Point 3: The panel of examiners, paper setters and moderators	It is approved that chairman is delegated all authority to appoint or change the panel of examiners, paper setters and moderators.
4.	BOS Agenda Point 4: Minor and Honors Program	The Chairman informed about minor and Honors program which was approved in the previous BOS which was held on 29 th June 2022. The department asked permission to go ahead with same minor and honor programs which was approved

BOARD OF STUDIES MEETING NOTICE

The Board of Studies meeting of Electrical and Electronics Engineering department is scheduled to be held on 28.03.2023 at 11 A.M. You are requested to make it convenient to attend the same.

Items on Agenda:

1. To discuss and decide the course structure and syllabi of II, III Year and IV Year B.Tech Electrical and Electronics Engineering for the students admitted from the AY 2022-23 (R22 Regulation). **Annexure - I**
2. To ratify the course structure and syllabi of Minor and Honor Degree Courses for students admitted from the AY 22-23 (R22 Regulation). **Annexure – II**
3. To discuss and decide the syllabi of the subjects offered by EEE Department for other departments admitted under R22 Regulation: **Annexure - III**
 1. Electrical Technology (for II B. Tech ECE II semester)
 2. Control Systems Engineering (for III B. Tech ECE I Semester)
 3. Basic Electrical Engineering (for II B. Tech Mechanical II Sem & II B.Tech Civil II Sem)
 4. Basic Electrical Engineering Laboratory (for II B.Tech Mechanical II Sem & II B.Tech Civil II Sem)
 5. Open Elective Courses
4. To discuss and decide substitute subjects for rejoined students of B.Tech R21, R20, R19 regulations (VJIT Autonomous). **Annexure - IV**
5. To Approve Panel of Examiners.
6. Any other matter with the permission of the Chair.

Resolutions

Item No.1: To discuss and decide the course structure and syllabi of II, III Year and IV Year B.Tech Electrical and Electronics Engineering for the students admitted from the AY 2022-23 (R22 Regulation). Annexure - I

The Chairperson presented the course structure and syllabi of II Year, III Year and IV Year B. Tech. EEE courses. Dr. M. Sushama, JNTUH Nominee opined to include few applications of FPGA in Digital Electronics Course. She further suggested to include a microcontroller in Microprocessors and Microcontrollers Course.

Mr. P. Chow Reddy BOS member advised to include a book titled "Microprocessor Architecture, Programming and Applications" by "Ramesh Gaonkar" in the list of Reference Books as it would cover the entire syllabus.

Mr. G. Suresh Babu opined that courses like Analog Electronics, Digital Electronics, Microprocessors and Microcontrollers may be approved by EEE BOS Board as those subjects are dealt by many of the members of BOS. All the members of BOS agreed for the same.

After deliberations and discussions, the committee passed the following resolution.

Resolution(1): The members after thorough discussion approved the course structure and syllabi of II Year III Year and IV Year B. Tech. in Electrical and Electronics Engineering for R22 Regulation as per Annexure-I

Noted and Approved.

Item No.2: To ratify the course structure and syllabi of Minor and Honor Degree Courses for students admitted from the AY 22-23 (R22 Regulation). Annexure –II

The Chairperson presented the course structure and syllabi of Minor and Honor Degree Courses approved in the earlier BOS meeting held on 28.06.2022. The members of the BOS opined that the same course structure and syllabi may be implemented for students admitted during the AY 22-23 (R22 Regulation) as per Annexure – II.

Resolution (2): The members approved the course structure and syllabi of Minor and Honor Degree Courses for students admitted during the AY 22-23 (R22 Regulations) as per Annexure – II. The BoS Chairperson is authorized to choose and approve equivalent MOOCS course in the place of any course in Minor and Honor Degree Courses for attainment of credits by the students.

Item No. 3: To discuss and decide the syllabi of the subjects offered by EEE Department to other departments admitted under R22 Regulation: Annexure - III

(i) The Chairperson presented the syllabi of subjects offered to B. Tech. ECE, Mechanical and Civil Engineering Branches viz:

1. Electrical Technology (for II B. Tech ECE II semester)
2. Control Systems Engineering (for III B. Tech ECE I Semester)
3. Basic Electrical Engineering (for II B. Tech Mechanical II Sem & II B.Tech Civil II Sem)
4. Basic Electrical Engineering Laboratory (for II B.Tech Mechanical II Sem & II B.Tech Civil II Sem)

(ii) Further, the Chairperson presented subjects along with syllabi offered as Open Electives for other Branches of Engineering under R22 regulation in the college viz:

1. Sustainable Energy (OE-1)
2. Power Applications of Electricity (OE-1)
3. Energy Conservation and Management (OE-2)
4. Industrial Electrical Systems (OE-2)
5. Electric Vehicles and Hybrid Vehicles (OE-3)
6. Energy Storage Systems (OE-3)

After discussion and deliberation the committee approved the subjects along with the syllabi and passed the following resolution.

Resolution (3): The members after thorough discussion approved the syllabi of subjects offered to B. Tech. ECE, Mechanical and Civil Engineering Branches and Open Elective subjects offered to other Branches mentioned in Item 3 as per Annexure -II.

Noted and Approved.

Item No. 4: To discuss and decide substitute subjects for rejoined students of R21, R20 and R19 regulations (VJIT Autonomous). Annexure - IV

The Chairperson presented the substitute subjects for rejoining students of R21, R20 and R19 (VJIT Autonomous) as per Annexure - IV

After discussing various aspects of the subjects the committee passed the following resolution

Resolution (4): The members after thorough discussion approved the substitute subjects for rejoined students of R21, R20 and R19 (VJIT Autonomous) as per Annexure -III. The BoS Chairperson is authorized to choose and approve the substitute subjects for rejoined students.

Item No. 5: To approve the Panel of Examiners

The Chairperson explained on the requirement and emphasized on the panel of examiners, whose services will be utilized, as and when required for preparation of the question paper for End Semester examination and also for evaluation of the Answer scripts of the End Semester Examinations. The panel of the examiners will be prepared in consultation with the senior faculty of the department. They will be paid remuneration as per the recommendations of College Finance Committee.

Resolution (5): The committee of BoS, after discussion, authorized the Chairperson of BoS to prepare the Panel of examiners, as and when required in consultation with the senior faculty members for both B. Tech. (EEE) courses under R22 regulations. The same may be submitted to the Examination branch (Autonomous) for further processing.

Item No. 1: Approval of R22 B.Tech 2nd Year I & II Semesters Syllabi

- a) The Chairperson presented the syllabi of the following subjects of B.Tech II Year I Semester viz.
1. Metallurgy & Material Science
 2. Mechanics of Solids
 3. Thermodynamics
 4. Production Technology
 5. Computer Aided Machine Drawing
 6. Material Science & Mechanics of Solids Laboratory
 7. Production Technology Lab
- b) The Chairperson presented the syllabi of the following subjects of B.Tech II Year II Semester viz.
1. Kinematics of Machinery
 2. IC Engines & Gas Turbines
 3. Fluid Mechanics & Hydraulic Machines
 4. Instrumentation and Control Systems
 5. Fluid Mechanics & Hydraulic Machines Laboratory
 6. Instrumentation Laboratory
 7. Real-time Research Project/ Field-Based Project.

Item No. 2: Approval of Substitute subjects for the students with Regulation change

The Chairperson emphasized the necessity of change of subjects for the students with Regulation change. He may take appropriate measures to offer required subjects to fulfill the number of credits. Students detained and readmitted shall study the subjects in the corresponding semester. The student shall also study the substitute and additional subjects as per the list furnished below.

- a) The Chairperson presented the subjects of B.Tech I Year I Semester to IV Year II semester for the students admitted with R18 regulation and readmitted after detention.

Resolutions

1. All the previous minutes were incorporated as per previous BOS meeting
Noted and Approved

Item No. 1: Approval of B.Tech. (ECE) II, III and IV Year Course Structure of R-22 regulations

The chairman of BoS presented a detailed course structure of B.Tech.(ECE) II, III and IV Years of R-22 regulations.

Resolution (1): The members after a detailed discussion approved the course structure of B.Tech. (ECE) II, III and IV Years of R-22 regulations.

Noted and Approved.

Item No. 2: Approval of B.Tech. (ECE) II Year Syllabi of R-22 regulations

The Chairman presented a detailed syllabus of B.Tech.(ECE) II Year R-22 regulations.

Resolution (2): The members after thorough discussion approved the syllabi of B.Tech. (ECE) II Year R22 regulations.

Noted and Approved

Item No. 3: Approval of the courses along with their syllabi offered to other department students under R-22 regulations

The Chairman presented a detailed syllabi of courses which are offered to other Engg. Departments under R-22 regulations.

Resolution (3): The members after thorough discussion approved the courses offered to other engg. depts.

Resolutions

Item No. 1	:	Approval of B.Tech. (CSE) II, III and IV Year Course Structure of R-22 regulations The chairman of BoS presented a detailed course structure of B.Tech.(CSE) II, III and IV Years under R-22 regulations.
Resolution 1	:	The members after thorough discussion approved the course structure of B.Tech. (CSE) II, III and IV Years. The details of the course structure are given in Annexure -1 Noted and Approved.
Item No. 2	:	Approval of B.Tech. (CSE) II Year Syllabi of R-22 regulations The Chairman presented a detailed syllabi of B.Tech.(CSE) II Year
Resolution 2	:	The members after thorough discussion approved the syllabi of B.Tech. (CSE) II Year. The details of the syllabi approved are given in Annexure -2 Noted and Approved.
Item No. 3	:	Approval of Substitute subjects for Rejoining students The chairman presented the details of substitute subjects to study by the rejoining students.
Resolution 3	:	The members after thorough discussion approved the substitute subjects to the rejoined students (Regulation change) The details of the substitute subjects are given in Annexure -3 Noted and Approved.
Item No.4	:	Approval of courses of B.Tech. (CSE) III and IV Year Open Elective Courses of R-22 regulations The chairman of BoS presented the details of open elective courses offered to other than CSE students.
Resolution 4	:	The members after thorough discussion approved the courses of Open Elective courses of B.Tech. (CSE) III and IV Years. Noted and Approved.
Item No.5	:	The BoS Chairman is also authorized to add or remove professional/substitute/Open elective courses with the approval of internal BoS members and through mail confirmation from the external BoS members.
Resolution 5	:	The BoS Members have agreed to authorize the BoS Chairman to add or remove professional/ substitute/Open elective courses with the approval of internal BoS members and through mail confirmation from the external BoS members. Noted and Approved
Item No.6	:	To approve the Panel of examiners The BoS Chairman emphasized the necessity of Panel of Examiners. Their services will be utilized in the preparation of End-Semester Question paper(s), Evaluation of End-Semester Examination

Resolutions

Item No. 1: Approval of B.Tech. (IT) II, III and IV Years Course Structure under R-22 Regulation

The Chairman presented course structure of B.Tech.(IT) II, III and IV Years under R-22 Regulation.

Resolution (1): The members after thorough discussion approved the Course Structure of

B.Tech. (IT) II, III and IV Years. The details of the Course Structure are given in Annexure – 1.

Noted and Approved.

Item No. 2: Approval of B.Tech. (IT) II Year Syllabi of R-22 Regulation

The Chairman presented a detailed syllabi of B. Tech(IT) II Year

Resolution (2): The members after thorough discussion approved the Syllabi of B.Tech. (IT) II Year.

The details of the Syllabi approved are given in Annexure-2

Noted and Approved.

Item No. 3: Approval of B.Tech. (IT) II Year Substitute Subjects for R-22 Regulation

The Chairman presented Substitute subject for B. Tech(IT) II Year

Resolution (3): The members after thorough discussion approved the Substitute subject and Syllabi of

B.Tech. (IT) II Year (Annexure-3).

Noted and Approved.

Item No. 4: Approval of B.Tech. (IT) II Year Syllabi of R-22 Regulation

The Chairman presented a detailed syllabi of B. Tech(IT) II Year

Resolution (4): The members after thorough discussion approved the Syllabi of B.Tech. (IT) II Year.

The details of the Syllabi approved are given in Annexure -2

Noted and Approved.

Item No. 5: The BoS Chairman is also authorized to add or remove professional/substitute/Open Elective courses with the approval of internal BoS members and through mail confirmation from the external BoS members.

Resolution (5): The BoS Members have agreed to authorize the BoS Chairman to add or remove professional/substitute/Open elective courses with the approval of internal BoS members and through mail confirmation from the external BoS members.

Noted and Approved.

Item No. 6: To approve the Panel of Examiners

The Chairperson emphasized the necessity of Panel of Examiners. Their services will be utilized in the preparation of End-Semester Question paper(s), Evaluation of End-Semester Examination Answer Scripts. They will be paid remuneration as per the recommendations of College Finance Committee.

Resolution (6): The BoS Chairman is authorized to prepare the Panel of examiners for all the B.Tech (IT) courses in consultation with the senior members of the faculty. The same may be presented to the Examination branch (Autonomous) for further processing.

Noted and Approved.

Item No 3: To fix the dates of BOS meeting for all programs.

It is resolved to convene BOS meetings of various departments during the months of June-July 2022. The members noted the need for additional learning leading to Minor / Honours in engineering degree conferment. The curriculum for the batches admitted in 2021 will have provision for Minor and Honours degrees.

Item No 4: To discuss the Curricular Aspects of the Academic programs in introducing Specialization courses for a major or minor degree.

Dr Sarah presented the details regarding Minor and honours degrees.

	Minors	Honours
Number of credits	18	20
Eligibility	Minimum CGPA = 7.5 No Backlogs	
Period of completion	During III and IV year degree program	

The IQAC Coordinator appraised the committee regarding proposals of Head of departments for Minor/Honours degree of the various programs.

Program	Minors	Honours
Civil Engineering	• Planning & Construction	Structural Engineering
Electrical & Electronics Engineering	• Electrical vehicles • Sustainable Energy	Power Systems
Mechanical Engineering	• Robotics	CAD-CAM
Electronics & Communication Engineering	• IOT	ECE
Computer Science & Engineering	• Data Science	Big Data Analytics
Information Technology	• Computer Science Engineering	
Artificial Intelligence	• AI Machine Learning	
MBA	• Innovation & Business Management	—

Mr Srinivas, HoD, IT, requested for change in the course structure, suggesting a uniform structure e.g. 5 theory and 2 Labs, across the programs.

Regarding change in curriculum, number of theory/ Laboratory courses, Chairman (IQAC) said changes can be made keeping in view the existing classrooms and laboratories. He asked HoDs to revert on the issue after discussions at department level. He also enquired about students' preparedness to enrol into Minor and Honours courses.

Item No 5: Initiatives taken to promote Research, consultancy and entrepreneurship climate

The IQAC, Coordinator appraised the committee regarding the various initiatives to improve Research in VJIT.

VJIT- SEED money grant

VJIT has been promoting and supporting research in the areas of Science and Technology for the overall development of the Institute.

To support research in thrust areas which require immediate scientific intervention & attention, VJIT has announced a call under its Seed Money Grant with a provision of a financial grant of Rs 2,00,000 per project. VJIT has called for applications for the year 2022-23.

Center of Excellence & Research Centers

A Centre of Excellence is instituted in collaboration with EPAM

In addition to ME & CSE, JNTUH has recognized research centers for the departments of

- Electronics and Communication Engineering and
- Electrical and Electronic Engineering

She informed about the papers published in Scopus indexed journals by VJIT faculty.

Item No 6: To plan action for all criterion based on the comments of the NAAC, peer team committee

The IQAC Coordinator presented a gist of the report of the NAAC, Peer team committee.

Dates of visit of the Peer Team	From : 10-01-2022 To : 11-01-2022
Three major features in the institutional Context	1. Autonomous institute and 2(f) and 12(B) status of UGC 2. Good infrastructure for teaching learning 3. Good governance, Leadership and Management
Strengths, Weaknesses, Opportunities & Challenges (SWOC)	Autonomous institute and 2(f) and 12(B) status of UGC Good number of faculty members. Good infrastructure for teaching learning. Syllabus with COs, POs and PSOs in place. Good governance, Leadership and Management. Student extension activities/clubs are active.
Recommendations for Quality Enhancement of the Institution	1. Effective implementation of CBCS in all the courses for further academic flexibility. 2. Aligning and delivering the POs, COs and PSOs in each course as per the need of the society 3. Record keeping of activities by the Examination section to be strengthened along with ICT facilities 4. More capacity enhancement programs for the students to be introduced with proper syllabus. 5. Alumni association records to be properly organized and their involvement to be improved. 6. Students' progression records and reports to be more detailed and to be more presentable. 7. More transparency to be brought in the policies related to employment rules, welfare measures and appraisal systems. 8. More number of conferences, FDPs, workshops and seminars to be organized for the faculty members and for the administrative staff. 9. IQAC cell must initiate interventions in strengthening waste management system. 10. The campus to be made more disabled friendly by creating ramps and ductile paths.

The Co-Chairperson and Principal, Dr Padmaja, reiterated the necessity to work on the 19 criteria, mentioned by NAAC team, which need to be improved with a special mention of Research, Consultancy, MoUs and Collaborations.

The Chairman and Co-Chairperson opined that another meeting should be convened to discuss the Expert team comments in detail.

Dr. Sreeram Reddy, HoD, Mechanical Engineering, raised a query regarding modifying targets of PO attainments.

Dr V.V.S. Satyanarayana suggested to have Uniform PO attainment Target Levels across programs.

Dr. E.Saibaba Reddy, Chairman (IQAC) & Director opined that PO attainment targets need to be fixed after deliberations at the department level and then shall be approved by IQAC.

Item No 7: Suggestions of the NBA expert team members

The committee was informed about the strengths and weaknesses at the institute level as per the NBA team.

Strengths

- Vision and Mission
- Program Educative Objectives
- Student - Faculty Ratio
- Qualification of faculty
- Leadership and Governance
- Infrastructure
- Facilities and technical support
- Feedback on facilities
- Institute strategic plan
- Effective implementation and monitoring of strategic plan
- Administrative setup
- Service rules procedure
- Recruitment and promotional policies

Item No 8: To discuss the action taken by the departments

IQAC Coordinator informed the committee about action taken by departments.

Strengths and Weaknesses	Action Taken
Academic performance	Slow learners are identified and given extra attention
Attainment of Course outcomes	With the improvement in academic performance, course and program attainments also are improved
Attainments of program outcomes	
Mentoring system to help at individual level	Mentoring hour is included in the timetable
Feedback analysis and rewards/corrective measures taken	Feedback is collected from all the stakeholders at regular intervals
Self-learning facilities	The library is strengthened with e-journals/ resources for self-learning

Dr Sreeram Reddy, HoD of Department of Mechanical Engineering suggested that Self Learning should not be confined to Library facilities but should include MOOCS also.

Dr. Arunakumari, HoD, CSE pointed out that students can do free courses from IIT Bombay.

Dr P. Venugopal Reddy, Dean, Examinations, suggested to keep the Computer Center open for extended hours to facilitate self-learning and employability of students.

Mr. Ashish Ranjan, student member, mentioned that Coursera Courses are very useful but are no more free to students. He requested that the college mediate so that students of VJIT may register in courses of their interest and industry requirement, throughout their 4 years study.

Mr. Srinivas, HoD, IT, suggested that VJIT enter an MoU with Coursera.

Mr. Aditya, student member, suggested that to enhance placement opportunities, 1 hour slot with lab facility be available for individual students to learn on multiple platforms in their domains of interest as per the industry needs.

IQAC Coordinator presented the Academic performance of IV year I semester students as received from the examination branch.

Dr. Vasanth, HoD, ECE, requested clarity on the maintenance of Quality initiatives, to be Quantified or Qualified

Item No 10 Issues open for discussion:

- a. Internal Academic Audit
- b. Green and Energy Audit
- c. Conduct of FDPs
- d. Organizing seminars/Workshops
- e. Standardization of formats such as BoS minutes

a. External and Internal Academic Audit

Dr Sarah welcomed the members to give their suggestions on the issues open for discussion.

She said that the Academic audits are conducted to monitor quality enhancing process.

She said the criteria considered are Planning and Delivery of Class / laboratory, project, industry visit etc

She informed that VJIT conducts Internal and External academic audits on a regular basis atleast once in a year

The Internal Academic Audit team includes Director/ Principal, IQAC Coordinator and Senior teachers and External Academic Audit is done by peers form other organizations.

- b. Green and Energy Audit:** Director informed the committee that Annual Green and Energy audits are done regularly. Dr Srujana, HoD, EEE, informed that the energy audit is done annually. Green audit is monitored by the HoD of Civil Engineering.

The HoDs opined that VJIT should try for Green Audit Awards.

c & d Conduct of FDPs/Organizing seminars/Workshops

The IQAC, Coordinator, pointed out the necessity to organize more number of Seminars/Workshops per semester. Director said a meeting will be convened to fix a number for each department to organize FDPs/Workshops.

- e.** Dr Padmaja, Co-Chairperson (IQAC) mentioned about standardization of the BoS Meeting format across the departments. Director suggested a format.

Item No 11: Any other matter with the permission of the Chair : Nil

Univ. Order No. JNTUH/386/2022

Date: 09-11-2022

Sub: JNTUH-Exam Branch-Enhancement of grace marks from 0.15% to 0.25% and applying upto 3 (three) theory subjects instated of 2 (two) theory subjects for B.Tech R18 A.Y 2021-22 outgoing students to get degree - Approval Orders.

Read:1 Procds No. JNTUH/EB/Grace Marks 2022 dated 06-08-2022.

2 Lr. No. 1242/T3/S//2022, dated 21.10.2022 of the Secretary to Governor, Governor's Secretariat, Raj Bhavan, Telangana, Hyderabad.

3 Resolution under item No.2.03 of Minutes of the 62nd Executive Council Meeting held on 02.11.2022.

4 Note orders of the Vice-Chancellor dated 09-11-2022.

ORDER:

In the Proceeding (1) read above, the University has approved adding grace marks of 0.15% of total marks which will be added up to maximum two theory subjects as given below:

Degree	Total of maximum marks in all eight semesters	Grace marks to be added (0.15% of maximum marks)	Rounded marks
B.Tech (R18) Regular admitted	5900	8.85	9
B.Tech (R18) Lateral entry admitted	4600	6.9	7

There are several representations received from the B.Tech R18 Regular, 2019 Lateral Entry students and their parents for subject exemption and enhancement of grace marks to be added in view of disturbance in regular class work (offline mode) for two years due to COVID pandemic and students have been mandated for attending online class. It was observed that few students who stays in villages could not attended all the classes due to internet and other technical issues. Because of this students could not have performed well in the examinations. In the present B.Tech R18 regulations there is no chance for subject exemption as it was available to B.Tech R15 and R16 Regulations.

In view of the above, it is proposed to enhance the percentage of grace marks to be added from 0.15% to 0.25% of total marks as mentioned below, further applying these enhanced grace marks upto three theory subjects instead of two theory subjects

Degree	Total of maximum marks in all eight semesters	Grace marks to be added (0.25% of maximum marks)	Rounded marks (maximum)
B.Tech (R18) Regular admitted (For the A.Y 2021-22 outgoing students only)	5900	14.75	15
B.Tech (R18) Lateral entry admitted (For the A.Y 2021-22 outgoing students only)	4600	11.5	12

This enhancement of grace marks shall be applicable to only for B.Tech. (R18 Regulations) 2018 regular, 2019 lateral entry admitted batch students and for the students admitted in previous regulations and completed fourth year in R18 regulations, without subject exemption, who are eligible to get degree in the academic year 2021-22 only. For all other batch students as well as other regulation students, the above enhancement of percentage grace marks will not be applicable and they have to satisfy their applicable rules and norms as per their academic regulations for getting the degree.

The above matter was placed in the Executive Council Meeting under item No.2.03 and the Executive Council has approved the same.

In view of the above circumstances and based on the recommendations of the Executive Council, the Vice-Chancellor is pleased to accord permission to the Director of Evaluation for enhancing the grace marks from 0.15% to 0.25% and applying grace marks upto 3 (three) theory subjects (i.e maximum of 15 grace marks for regular and 12 grace marks for lateral entry students) for R18 B.Tech 2018 regular, 2019 lateral entry admitted batch students, and those who were admitted in previous regulations and completed final year in R18 regulations without subject exemption, who are eligible to get degree in the academic year 2021-22 only.

These orders shall come into force with immediate effect for the students of JNTUH University Colleges, JNTUH Affiliated and Affiliated Autonomous Colleges.

3 Representations of the B.Tech R18 Regular, 2019 Lateral Entry students and their parents.

4 Note orders of the Vice-Chancellor dated 19-11-2022.

ORDER:

In the University Order (2) read above, the University has approved for adding grace marks of 0.25% of total marks which will be added up to maximum three theory subjects as given below:

Degree	Total of maximum marks in all eight semesters	Grace marks to be added (0.25% of maximum marks)	Rounded marks (maximum)
B.Tech (R18) Regular admitted (For the A.Y 2021-22 outgoing students only)	5900	14.75	15
B.Tech (R18) Lateral entry admitted (For the A.Y 2021-22 outgoing students only)	4600	11.5	12

There are several representations received from the B.Tech R18 Regular, 2019 Lateral Entry students and their parents for subject exemption and further enhancement of grace marks similar to other Universities to be added in view of disturbance in regular class work (offline mode) for two years due to COVID pandemic and students have been mandated for attending online class. It was observed that few students who stays in villages could not attended all the classes due to internet and other technical issues. Because of this students could not have performed well in the examinations. B.Tech (R18) Lateral entry admitted (For the A.Y 2021-22 outgoing students only)	4600	23	23

This enhancement of grace marks shall be applicable to only for B.Tech. (R18 Regulations) 2018 regular, 2019 lateral entry admitted batch students and for the students admitted in previous regulations and completed fourth year in R18 regulations, without subject exemption, who are eligible to get degree in the academic year 2021-22 only. For all other batch students as well as other regulation students, the above enhancement of percentage grace marks will not be applicable and they have to satisfy their applicable rules and norms as per their academic regulations for getting the degree.

In view of the above circumstances, the Vice-Chancellor is pleased to accord permission to the Director of Evaluation for enhancing the grace marks from 0.25% to 0.50% and applying grace marks for any number of theory subjects (i.e maximum of 30 grace marks for regular and 23 grace marks for lateral entry students) for R18 B.Tech 2018 regular, 2019 lateral entry admitted batch students, and those who were admitted in previous regulations and completed final year in R18 regulations without subject exemption, who are eligible to get degree in the academic year 2021-22 only, subject to ratification by the Academic Senate/ Executive Council.

These orders shall come into force with immediate effect for the students of JNTUH University Colleges, JNTUH Affiliated and Affiliated Autonomous Colleges.

EXAMINATIONS COMMITTEE

Sub: Procedure for Revaluation: Resolution Approving Modifications.

A significant difference (more than 15% of max. marks) has been observed in recent times between initial and re-evaluations marks while considering the revaluation of answer scripts of students who applied for Revaluation. After analyzing the situation in this regard, the committee approved the following procedure as suggested by the Nominee of JNTUH to implement with immediate effect:

Step 1: Answer scripts of students applied for revaluation are sent to two external examiners for valuation. If the evaluation marks:RV1 and RV2 differ by more than 15%, then the answer script is sent for third valuation (RV3) to another external examiner. Otherwise, the average of two revaluation marks ($AVG = \frac{RV1 + RV2}{2}$) is taken as the final revaluation marks for further computation.

Step 2: In the case third revaluation(RV3), among the three revaluation marks, two close revaluations(two revaluation marks nearer to each other among RV1, RV2, RV3) are considered and their difference is calculated. If the difference is less than or equal to 15% of max. marks, the corresponding revaluation marks are taken, and their average is considered as the final revaluation marks for further computation. Otherwise, one more revaluation is done (RV4) and the procedure is repeated.

Final Marks: If the difference between the initial marks and revaluation marks (computed in Step1 or Step 2) is less than 15%, No change is affected, and the initial marks remain as final marks. Otherwise, if the difference is equal to or more than 15% then the revaluation marks are taken as final marks effecting the change in the initially awarded marks.

Agenda Notes:

Item no: 1. To ratify the equivalency/substitute courses for the readmitted and transfer students which are being endorsed by the respective chairpersons of the BOS

As per the academic and attendance requirements a few students will get detained from time to time. In the process a few students will join in one regulation and will be readmitted in to other regulations. It is to inform that there is no change in the titles of the subjects, however keeping in view of the new programs and change in intake, the course structures have been marginally changed. Because of this a student admitted in the regulation and readmitted into another regulation there is a need to find equivalent substitute subjects. This matter has been discussed in the respective BOS meetings and equivalence/substitute subjects are prepared. Similar process has been done case by case in the situation of students transferred from other college/university to VJIT, has been examined by the chairpersons of the respective BOS.

Following the above procedure the list of students with course structure who are readmitted approved by the chairperson BOS is enclosed in Annexure-1

Similarly list of students who are transferred from other colleges/universities approved by chairperson BOS is enclosed in Annexure-2

Below is the summary of Readmitted students (29) and Transferred students (05).

Minutes of the 23rd Academic Council meeting held on 10th June, 2023

The Chairman of the Academic Council, Dr E. Saibaba Reddy, Principal, VJIT, welcomed all the members and introduced the external members to the Council members and thanked everyone for attending the meeting in person.

He thanked Dr. A. Padmaja for her eleven years of service at VJIT as a Principal and introduced her in the new role of Dean, Accreditations & Ranking.

He initiated the proceedings of the meeting as per the agenda items circulated.

Item 1: Action taken report of 18th to 22nd Academic Council meetings conducted during 27th October 2022 to 4th April 2023

Principal has presented the minutes of the 18th to 22nd academic council meetings held during 27th October 2022 to 4th April 2023 for Approval.

He informed the members that due to various unavoidable reasons a greater number of meetings were conducted for approvals in the short period in the last academic year.

Dr Asha Rani, one of the JNTUH Nominees, advised to take approvals well in advance for any changes or modifications that are made with respect to Exam Branch or any other revisions that are made by JNTUH to implement at its Autonomous colleges.

She also enquired about any malpractice cases arose while discussing the ATR of 21st AC meeting minutes.

Principal informed that there were a few cases and were processed according to the procedure then in place.

Resolution: *The Academic council has approved the minutes of the 18th to 22nd meetings of the academic council.*

PRINCIPAL

Item 2: To ratify the minutes of Board of studies and syllabi of 2nd year B.Tech. programs held during the period 28th March 2023 to 1st April 2023 for all the B.Tech. programs under R22 Regulations

Principal has placed the Course structures of II Year B. Tech program, which were approved by Board of Studies meetings under R22 Regulations, applicable to the B.Tech students admitted from the academic year 2022-2023.

Dr Asha Rani suggested allotting two practice hours for QMLR course attributing to One Credit instead of two Lecture hours.

Principal informed that, it will be implemented in principle to all other such courses.

Dr Ulla Balaji suggested considering DBMS Theory and Lab as one Course.

Dr Asha Rani said the concept of merging Theory with Lab is leading to failures and that is the reason behind bifurcating Theory and Lab for a few courses.

Dr M.V. Krishna Murthy asserted that lack of practice will lead to a smaller number of job opportunities and lower pay package.

Dr Asha Rani suggested teaching Theory for two classes and the remaining two classes for Practice. She also suggested assigning two faculty members during Practice sessions. She also informed to convert the remaining class work to teach new courses and allot few to Placement and Training. She brought to the notice of Chair, to suggest JNTUH the recommendations made by the industry personnel in the meeting, to change few courses which cater Industry needs.

During the discussion on the need for a Real Time Research Project in B. Tech. II year, Dr Asha Rani said that it is introduced by JNTUH as an initiative of NEP to support Multiple Exit. So, if

PRINCIPAL

a student wishes to leave the Program after two years, he/ she can leave the Institution and such students will be given a Diploma Certificate on successful completion of two years,

Dr Murthy emphasised on the introduction of two statistics courses and Linear Algebra in CSE (DS) & CSE (AI & ML) Programs.

Dr Lakshmi Narayan, HoD of Mathematics brought to the notice of Council members that Linear Algebra is offered in B. Tech. I year for all the Programs and Probability & Statistics is offered in II year of B. Tech. Program.

Dr M.V. Krishna Murthy suggested offering Communication engineering Courses to EEE students as well. Principal informed the Council members that they are offered as Open Electives and the students can opt for it.

Principal informed the members about adopting the peer tutoring option enabling senior students to teach junior students, it was appreciated by the external members.

Regarding MBA Course structure, Dr Uthla Balaji iterated Business Analytics Course needs more practice hours than Lecture hours. He also told to offer Corporate Governance as an Elective. Dr Murthy informed that as most of the jobs in the market are on Finance specialisation only; there is a need for students to have good skill in Excel.

Resolution: The council ratified the minutes of Board of studies and syllabi of II year for all the B.Tech. programs under R22 Regulations.

Item 3: Proposed additional intake of B.Tech. programs for the academic year 2023-24

Principal has presented the variation in intake in few B, Tech. , M. Tech. & MBA programs

Proposed Intake for the 2023-34				
S. No	Name of the Course	Existing Intake 2022-23	Proposed Intake 2023-24	Remarks
1	B.Tech. Civil Engineering	120	60	Approved by AICTE & waiting for JNTUH Approval
2	B.Tech. CSE (AI&ML)	60	180	Approved by AICTE & waiting for JNTUH Approval
3	MBA	60	120	Approved by AICTE & waiting for JNTUH Approval
4	M. Tech (VLSI)	24	0	Approved by AICTE & waiting for JNTUH Approval

Dr Asha Rani opined the closure of M. Tech (VLSI Design) is a tough option that the Institution has taken, as there will be a good demand for it in future.

Principal informed that there were a smaller number of admissions in the Program since past few years, and hence we were forced to take such a decision.

Resolution: Noted and Approved

Item 4: Approval of Academic Calendars for the academic year 2023-24 of 2nd, 3rd & 4th B.Tech, 2nd year M.Tech and 2nd year MBA

Dr. Saibaba Reddy presented the Academic Calendars of B. Tech. 2nd, 3rd & 4th year M. Tech. & M.BA 2nd year for the academic year 2023-2024.

Resolution: The Academic Council members noted and approved the Academic calendars of B. Tech. 2nd, 3rd & 4th year, M. Tech. & M.BA 2nd year for the academic year 2023-2024.

Item 5: To approve the procedure to adopt the implementation of grace marks for the students admitted under R19 regulation onwards.

Principal brought to the notice of the Council members that the Grace marks procedure adopted by JNTUH will be followed by VJIT until there is any change in the procedure suggested by JNTUH.

Dr Asha Rani suggested to take prior approval through circulation mode as and when the University revises its procedures.

Resolution: The Academic Council members noted and approved.

Item 6: Result Analysis of B.Tech (2019-23), M.Tech (2020-22) and MBA (2020-22) Programs

The principal presented the academic performance of U.G. and P.G. Programs.

Dr Asha Rani expressed satisfaction over the academic performance of the students at VJIT,

Dr Murthy suggested tracking the performance of students of a particular batch over the four years.

Resolution: The Academic Council members noted and approved.

Item 7: To ratify and approve the B.Tech, M.Tech and MBA program results

Processing committee

The Principal informed the Council about the re-constitution of Results Processing Committee.

Resolution: The council ratified the formulation of new Results Committee.

Item No 8: To approve M.Tech. R22 Regulations

Dr Saibaba Reddy informed the members that the R22 M. Tech regulations of JNTUH will be adopted at VJIT from 2023-2024 (R23)

Resolution: The Council Members Noted and approved.

Item No. 9: Seed money proposals approved for the academic year 2022-23

The Chairman informed the members that seed money was sanctioned to 5 faculty members during the academic year 2022-2023.

The members appreciated and suggested the Departments to focus on specific areas and also to involve students as Co-investigators.

Resolution: *The Council Members noted and approved*

Item No. 10 Research projects granted & applied.

The Chairman presented the list of Research projects applied by the faculty members of VJIT for various funding agencies by the faculty of VJIT. He also brought to the notice of the Council that a DST Project is sanctioned to CSE & AI Departments.

Resolution: *The Council Members appreciated and noted the Points.*

Item No. 11: Placements statistics for the academic year 2019-23 batch

The Principal presented the data of students recruited by various companies. He also listed out the companies that visited the college during the last year.

Dr Krishna Murthy suggested highlighting the Median salary instead of Average pay package.

Dr Asha Rani suggested opting for Finishing school to grab the industry competency and to attract more number of Core jobs.

Resolution: *The Council members noted the data.*

4.11 Feedback taken from stakeholders on Curriculum

The feedback on curriculum from all the stakeholders for the academic year 2020-21 is in detail discussed with the members in the meeting and the action taken report is also discussed.

S.No	Comments given by students in the survey conducted	Action Taken
1.	Electric vehicles technology is to be taught in detail	Syllabus of Automobile Technology course is revised with emphasis on Electric Vehicle Technology in detail.
2.	Placement Training required from II Year level for students to improve their skills	Placement Training is incorporated in class work timetable from II Year onwards

3.	Curriculum has to be improved as per the latest technologies	Advanced courses like Python Programming, Artificial Intelligence, Mobile Application Development using Android, Internet of Things, Data Science, Block chain Technologies etc., have been introduced in the curriculum
S.No	Comments given by Alumni in the survey conducted	Action Taken
1.	Request to conduct more activities and programmes which helps the students to excel beyond academics.	Management Clubs are established for conducting more activities and programs to improve the skills of MBA students. Also established a student chapter in association with Hyderabad Management Association on 19/12/2020 to provide a platform for students to get more industrial exposure and allow them to participate in student development programs workshops etc.
S.No	Comments given by Faculty in the survey conducted	Action Taken
1.	DCN Course Syllabus can be refined	The syllabus of DCN Course has been revised keeping the content in view in R20 Syllabus of B.Tech ECE
2.	Few Electronics courses may be added for students which can help them to enter electronics domain	System Design using Verilog HDL, Embedded Systems and IOT courses are introduced for EEE students into R20 course structure
S.No	Comments given by Employer in the survey conducted	Action Taken
1.	Suggested to include courses or programs on AI and DS which could benefit the students. Mr. Amosh Deshpande, Mahindra & Mahindra Ltd.	The suggestions given by Mr. Amosh Deshpande were already implemented in the Academic Year 2019-2020 by introduction of B.Tech Program in Artificial Intelligence and B.Tech Program in Data Science in the Academic Year 2020-2021.

Report is enclosed in **Annexure-13**

Resolution: Noted

A Cognitive skill of student's interms of BL is given importance and rationalizes the syllabi for the topics to be included. Also the teaching learning mode is to be looked into for better understanding by the students.

1. Skill enhancement is to be imparted to students apart from the perception of the topic alone.
2. The faculty members are advised to synergize their skills and knowledge on fewer functional domains to carry out research instead of taking broader focus with lower depth of inquisitiveness.

*Item 4.2 - Resolution of 15th Academic Council meeting with regard to credit exemption is not approved. The amendment may be limited as enclosed.

~~The college has received various student representations regarding the credit exemption resolution of the 15th Academic Council meeting. The Board has decided to refer the matter to the Academic Council for its consideration.~~

~~Represented in the next BoG.~~

* Item 6 may be represented in the next BoG.
* Fast track curriculum not approved for R21, as it is not as per JNTUA/AICTE Regulation to give complete Semester for project work. Instead the courses can be taken through MOOCs mode. The Academic Council may select at the proposal and send recommendation in line with the stipulated Regulation and case study of how it is implemented.

I. Subject Exemption:

A student who is seeking B. Tech. degree (Regular/ Lateral Entry) shall register as per R15 regulations for all 192 / 144 credits and appear for all 192 / 144 credits. After appearing all these courses (192 / 144 credits), in case if a student fails in one or two subjects (up to maximum of 6 credits) the student may request for an exemption of these subjects so that he/she may be eligible for the award of B.Tech degree (Regular/Lateral Entry) with a minimum credits of 186 / 138. Accordingly, the performance of student in 186 / 138 Credits shall be taken into account for the calculation of 'the final CGPA and shall be indicated in the Grade Card. However, the student's performances in the earlier individual Semesters, with the corresponding SGPA for which already Grade Cards were given, will not be altered. The exemption of two subjects shall not be allowed for i) Laboratory courses, ii) Industrial Training/Mini-Project, iii) Seminar, iv) Comprehensive Viva Voce and, v) Major Project. The benefit of Subject exemption (up to maximum of 6 credits) shall be extended only to the students who have submitted their application cum undertaking form subject to the approval by the University.

It may be noted that exemption for Open Elective in according to JNTUH.

*Amendment not approved as above
S. J. Srinivas*

II. Grace Marks:

As per the present R15 academic regulations of the college, students who have failed in one or two subjects with maximum of 10 marks for Regular students and 7 marks for Lateral Entry students are eligible for adding grace marks. Such cases will be recommended for approval by the University. (Vide JNTUH proceedings, JNTUH order No. U.N. No. JNTUH/95/2012. Dated 15.05.2012 and its supplements and Letter No. EB/OLE/856 dated.09.11.2020)

Grace Marks together with the Subject Exemption:

After applying grace marks, some of the students may become eligible for exemption of one or two subjects. Such cases will be recommended to the University for approval for the exemption of two subjects.

Resolution: All the amendments to the R-15 Regulations mentioned above have been approved.

I. Subject Exemption:

After securing 192 credits as specified for the successful completion of the entire UGP, an exemption of 6 credits (two subjects with 3 credits each) may be permitted to drop resulting 186 credits for UGP performance evaluation. Accordingly, the performance of student in 186 credits shall be taken into account for the calculation of the final CGPA and shall be indicated in the Grade Card. However, the student's performances in the earlier individual Semesters, with the corresponding SGPA for which already Grade Cards are given, will not be altered. Further, the optional drop out for such 6 credits shall not be allowed for i) Laboratory Courses, ii) Industrial Training/Mini Project, iii) Seminar, iv) Major Project.

It may be noted that exemption for Open Elective in according to JNTUH.

<i>Sno</i>	<i>As per old R15 Regulation</i>	<i>Proposed new R15 Regulation</i>	<i>Reference</i>
<i>1</i>	The optional drop out for such 6 credits shall not be allowed for i) Laboratory Courses, ii) Industrial Training/Mini Project, iii) Seminar, iv) Major Project, v) Open Electives	The optional drop out for such 6 credits shall not be allowed for i) Laboratory Courses, ii) Industrial Training/Mini Project, iii) Seminar, iv) Major Project. <i>Approved as mentioned here</i> <i>The R15 Regulation may be modified accordingly</i>	Revised R15 regulations of JNTUH section: 1.3 which is read as, The candidate shall register for 226 credits (224+2 (Gender Sensitization Course)) and secure 218 (216+2) credits.
