Progress Report 2022-23

VIDYA JYOTHI INSTITUTE OF TECHNOLOGY

Vidya Jyothi Institute of Technology (VJIT), Hyderabad, is a premier autonomous institution accredited with an NAAC A+ grade and all five major B.Tech programs - CSE, ECE, EEE, Mech, and IT - are accredited by NBA under TIER-1. The Civil Engineering program has also applied for NBA accreditation in April 2024. VJIT received an extension of autonomy for five years in 2021 and has established JNTUH-recognized research centers in the departments of Mechanical Engineering, CSE, ECE, and EEE.

The Civil Engineering department houses a Centre of Excellence in collaboration with Epam for sustainable construction practices and materials, as well as an ICI Knowledge Centre. VJIT's academic and research environment is strengthened by a dedicated faculty of 322 members, of which 73 hold Ph.D. degrees and 110 are currently pursuing doctoral research at reputed institutions.

In national and regional rankings, VJIT has consistently performed well. It secured the 8th rank in the South Zone and 21st rank across India in the Data Quest T-School Rankings 2024. In the NIRF Innovation rankings, VJIT was placed in the 151–300 band, and achieved a rank of 200 in Engineering (2023). According to the Times of India Survey 2023, the institute was ranked 7th in Telangana in multiple categories: Infrastructure, Placements, and Research. In addition, VJIT was recognized by the Mahatma Gandhi National Council of Rural Education for its sustainable campus and waste management practices with A+ grades.

The institute offers 10 B.Tech programs, 6 M.Tech specializations, and an MBA program, with a strong 97% first-year enrollment rate in 2023–24.

Faculty like Dr. Hephzi Punithavathi and Mr. Sreenu Naik have contributed to AI education and training, while Ms. K. Hemasree, a II B.Tech student, performed in the largest Kuchipudi dance recital, which entered the Guinness World Records.

In terms of placements, VJIT has maintained impressive outcomes for the 2023 and 2024 graduating batches. Over 130 software and core companies visited the campus, resulting in 1200 students being placed and 1700 offers made. Reputed companies like ADP, CDW, and Skillsoft conducted recruitment drives as part of campus placement.

VJIT continues to blend academic rigor with innovation, entrepreneurship, cultural growth, and sporting spirit - ensuring holistic development for all its students.

Progress Report 2022-23

VISION

- To develop into a reputed Institution at National and International level in Engineering, Technology and Management by generation and dissemination of knowledge through intellectual, cultural and ethical efforts with human values.
- To foster scientific temper in promoting the world class professional and technical expertise.

MISSION

- To create state-of-the-art infrastructure facilities for optimization of knowledge acquisition.
- To nurture the students holistically and make them competent to excel in the global scenario.
- To promote R&D and consultancy through strong industry-institute interaction to address the societal problems.

Progress Report 2023-24

Short Term Goals

- To start industry driven P.G. Programmes in various disciplines.
- To have MoUs with reputed universities, R & D institutions and industries to nucleate research centre.
- To provide consultancy & testing facilities.

Long Term Goals

- To become a top-ranking Institution in the country.
- To have MoUs with reputed universities and R & D institution at international levels.
- To develop the institution into a deemed university.

Quality Policy

- To ensure high standards to educate, enrich and excel in imparting professional education, by top-quality-faculty who endeavors to mould the students into socially responsible professionals through creative team-work, innovation and research.

Best Practices

Best Practice 1

1. Title of the Practice: Strengthening of Industry- Institute Collaboration

2. Objectives of the Practice

- To enhance the relationship between the Institute and industry.
- To promote participation of industry personnel in the development of curricula & high-quality student projects.
- Memoranda of Understanding between the Institute and industries to bring the two sides strategically closer.
- Visits of industry executives and practicing engineers to the Institute discussions and to deliver lectures on industrial practices, trends and experiences.
- Visits of faculty members to industry for study and discussions or delivering lectures on subjects of mutual interest.
- To facilitate industrial training for students, internship programs and students' study tour programs
- To encourage entrepreneurial activities among the students
- To support consultancy/ training services using the institutional expertise

Progress Report 2023-24

3. The Context

Interaction between institutions and industry is the need of the hour, for a healthy exposure among technical students and subsequent placement of young graduating engineers in industries across the country. The Industry-Institute Interaction Cell (IIIC) of the institute is dedicated to promote close interaction between industry and various departments of the institute. Industries are aware of the recent developments and inventions in their fields; develop/implement projects for technologically driven economy. The cell is the bridge between the industry, the real world and the institute. Industrial exposure of the faculty members is productive and supportive to guide students in the latest industrial practices. IIIC of VJIT prepares engineering students for jobs in multinational companies by updating them with newer technologies and engineering methodologies, thereby bridging the gap between industry and the academia. Indian industry, at present, has reached a crucial turning point where it has to face the dynamic demands of the competitive domestic and global markets wherein providing high quality products and services is inevitable. A need-based, effective, dynamic, responsive and human education system would be capable of addressing the challenge. The interaction between institute and industry is necessary to train and develop the right kind of manpower to sustain industrial growth. VJIT has set up an Industry -Institute Interaction Cell under the leadership of an expert team which has rich experience and exposure in both academics and industry. The ultimate aim of imparting professional education and providing exposure to current industry practices is to enable the students to be industry-ready and to secure sustainable jobs in their respective platforms. The IIIC established in VJIT is determined to acquire aforementioned objectives.

Best Practice 2

1. Title of the practice: PRAYUKTHI- Employability, Entrepreneurship & Higher Education

PRAYUKTHI is an innovative endeavor at VJIT focused on empowering students from reserved categories (SC/ST), fostering their ability to excel among their peers. This initiative intends to instill confidence in these students by addressing their present needs and enhancing their future prospects at VJIT.

PRAYUKTHI is recognized as a distinguished and commendable practice, designated as Best Practice-2. It focuses on driving and fostering significant progress in the academic journey and personal development of students from reserved categories."

2. Objectives of the Practice

To motivate SC/ST students for higher education, acquire government jobs and other professional jobs.

- To train the SC/ST students for exercising expertise in the arena of soft skills, communication skills, interpersonal skills and preparing them to face interviews and get better placements.
- To utilize the intellectual resources by minimizing the wastage of time in scouting for opportunities and motivate immersive self-learning experiences.
- To provide study material, prepared by experts, for all competitive examinations.
- To allow access to all the desired resources required for students and interact with faculty members beyond the class work.
- To transform the passive learners to active learners and reproduce knowledge.
- To give financial assistance to needy students with the help of the College management. To conduct seminars and guest lectures by experienced faculty and HRs from industry.
- To involve the students from first year to final year in order to understand the importance of

Progress Report 2023-24

career building, industrial jobs and entrepreneurship.

- To make them confident in taking assessments and certifications related to skills required.

3. The Context

Most of the students come from diverse socio-economic backgrounds. Many of the students may not be aware of the basic concepts of the subjects as their importance was not taught at intermediate level. Also they are not aware of the skills required for employability (Eg. Communication Skills). Hence in VJIT, we have initiated this scheme to motivate and improve skills.

4. The Practice

- Conducted training classes GATE/ GRE /TOFEL
- NPTEL Certifications
- CISCO Certifications
- Google Cloud Readiness Program
- CRT- Campus Recruitment Training programs: The Institute provides industry oriented training by Talentio, placement assessment by Instack and soft skills training by Rubicon.
- IIT Bombay Spoken Tutorials
- Oracle Certifications
- To improve coding skills through HackerRank platform

Cisco Career Certifications

Cisco certifications are a series of professional certifications offered by Cisco Systems, a leading provider of networking and telecommunications equipment. These certifications validate an individual's knowledge and skills in Cisco technologies and can help them advance in their careers in the IT industry. Cisco also offers training courses and resources to help individuals prepare for these exams. Once certified, individuals can use their certification to demonstrate their expertise to potential employers and clients.

Oracle Certification

Oracle certification is a program offered by Oracle Corporation that validates an individual's knowledge and skills in Oracle technologies and products. The program includes a wide range of certifications, covering different levels and specializations.

ISTQB Certification

ISTQB (International Software Testing Qualifications Board) certification is a globally recognized certification for software testing professionals. It is a standard qualification for software testers and is recognized by many organizations globally. It can help software testers demonstrate their knowledge and expertise in software testing which may lead to better job opportunities and higher salaries.

Progress Report 2023-24

Qlik Sense Business Analyst Certification

It demonstrates proficiency in data gathering, interpretation, and presentation in a visually compelling manner. This certification is used by industries such as finance, healthcare, retail, and technology to leverage data-driven insights for business strategy enhancement.

IIT Bombay Spoken Tutorials

IIT Bombay's Spoken Tutorial initiative is a comprehensive online learning platform that offers free tutorials in various programming languages and software applications. With a focus on skill development, these tutorials cater to a wide audience, from beginners to advanced learners, providing practical insights and hands-on experience. The tutorials cover a diverse range of topics, contributing to the growth of a knowledgeable and skilled community.

HackerRank

HackerRank is a popular online platform offering coding challenges and assessments to enhance programming skills. Providing a diverse array of coding challenges in multiple languages, it serves as a valuable resource for technical skill development and coding interviews. HackerRank's adaptive and gamified approach makes learning engaging, catering to both beginners and experienced developers.

Campus Recruitment training (CRT)

Most of the student's aim is to get a software job in MNCs. Hence campus recruitment training programmes are conducted to improve their skills in clearing aptitude tests, group discussion (GD) and interviews. VJIT has organized "Employability Skills" under "Life Skills" programme by Rubicon.

5. Identify the problems encountered and resources required to implement the practice Challenges Encountered:

- Insufficient awareness regarding the significance of skill development.
- Reluctance to engage in activities due to low confidence.
- Limited family support, with a disinterest in sending their children for higher studies
- Lack of guidance resulting in difficulties for students in making academic or career decisions.

To address these challenges, VJIT has designed a framework focused on career awareness, technical skill development, and certification in emerging technologies. Personalized training and GATE coaching are also provided to prepare students for placements and higher education.

6. Resources Required for Practice Implementation:

To successfully implement practice sessions, the following are essential:

- A dedicated team of qualified faculty to mentor and support students.
- Access to educational materials, specialized coaching, and targeted training programs to build core skills.

Progress Report 2023-24

- Provision of computers for model tests, online learning, and regular assessments, ensuring interactive and engaging learning.

These resources are vital to empower students from reserved categories, helping them bridge learning gaps and succeed in higher education and future careers.

1.6 Curriculum

1.6.1 Curriculum Development Process

Curriculum Design and Pedagogical Approach at VJIT

At VJIT, we embrace *design learning* as a core pedagogical approach, combining the effectiveness of participatory classroom engagement with technology-driven active learning strategies. Our pursuit of excellence in technical education is rooted in continual improvement, aiming to nurture responsible technocrats who contribute meaningfully to nation-building. We are dedicated to fostering a positive and professional learning environment that inspires students to strive for excellence. Our goal is to shape competent engineers, innovative technologists, and visionary leaders for a global society. This is made possible through a cohesive network involving parents, alumni, students, faculty, and industry partners.

Curriculum Philosophy and Structure

The curriculum at VJIT is meticulously designed to ensure that by the time of graduation, students develop proficiency in multiple domains—technical knowledge, practical application, problem-solving for societal challenges, use of modern tools and software, and the translation of knowledge to address industry and societal needs. We follow the **Outcome-Based Education (OBE)** model for curriculum design and implementation, grounded in clearly defined objectives and measurable course outcomes. The OBE framework encompasses planning, execution, continuous quality improvement, assessment, and evaluation across all programs.

To design and implement a dynamic, future-ready curriculum, the institution adopts a structured and systematic process. Global challenges are met with forward-thinking initiatives that are thoroughly discussed in the **Board of Studies (BoS)**, approved by the **College Academic Council (CAC)**, and finalized by the **Board of Governors (BoG)**.

Key Features of the Autonomous Curriculum

- **Choice Based Credit System (CBCS)** implemented
- **Fast-track curriculum implementation** for timely course delivery
- **Mandatory courses** introduced in the 2nd year
- **Open electives** introduced from the 3rd year
- **Quantitative Methods and Logical Reasoning (QMLR)** introduced in the 3rd year
- **Professional Communication** training in the 2nd year
- **Personality Development and Behavioral Skills** included in the 3rd year
- **Question papers** designed according to Bloom's Taxonomy
- **Semester End Examinations** set and evaluated by experienced external examiners

Progress Report 2023-24

Focus on Employability and Innovation

The curriculum is designed to ensure graduates are not only employable but also capable of innovation and research. To enhance employability, new industry-aligned courses have been introduced, focusing on analytical and problem-solving skills, social awareness, and core subject expertise. A broad spectrum of **core, interdisciplinary, open, and generic electives** prepares students for real-world challenges.

To promote innovative thinking, the curriculum integrates **interdisciplinary electives** that encourage a multi-disciplinary approach to problem-solving. To support execution of these ideas, the institute has established **exclusive labs** and various **Centers of Excellence**.

Research and Societal Relevance

Research orientation is a key objective. Through a wide array of elective courses and professional subjects, students are encouraged to develop and implement research ideas. Specialized courses provide the foundation for building strong research competencies.

VJIT's curriculum is designed with a strong societal focus. Inputs are gathered regularly from a diverse group of stakeholders, including students, alumni, employers, academic experts, industry professionals, and parents—via both formal and informal feedback mechanisms. This feedback is carefully analyzed and serves as the basis for curriculum refinement and redesign during BoS meetings.

Commitment to Continuous Improvement

The curriculum is continuously upgraded based on stakeholder input to ensure it aligns with societal needs and industry expectations. Our mission is to develop competent engineers and managers who emerge as global leaders, grounded in values and equipped to drive innovation and change.

The Curriculum framing process

The Curriculum framing process for the identification of curriculum gaps involves a phase wise process which is done in each Academic Year.

Phase 1. Faculty knowledge domain

The faculty handling the existing course individually provides general information on the quality of the course; strategic directions for the course; satisfaction of the course meeting with the curriculum. He/she analyses the present curriculum and updates the current industry/societal requirements. A draft curriculum gap report is prepared.

Phase 2. Assessment of delivery of the program and quality of the program through in program students and exiting students

An in-program student survey is conducted to measure the degree to which current students believe they are achieving program-level learning outcomes; overall satisfaction with program; overall

Progress Report 2023-24

satisfaction with program delivery. An exit student survey is conducted for the exiting students to measure quality of the program and satisfaction with curriculum and overall program delivery. These surveys are conducted to assess the delivery of the program and quality of the program. The gaps in the teaching-learning process are identified in this phase.

Phase 3. Curriculum mapping with POs and PSOs

The course mapping with POs and PSOs is made by Course Coordinators which clearly identifies the curriculum gaps. These mappings will identify the deficiencies in attainment of PO's and PSO's

Phase 4. Program Assessment Committee (PAC) meeting to consolidate the identified curriculum gaps in all the above phases

A PAC meeting is to be conducted to consolidate the identified curriculum gaps in all the above phases. The suggestions will be recorded for the entire program and the deliberations are submitted to DAB for further approval

Phase 5. Draft proposal finalization by Department Advisory Board (DAB)

DAB meeting is to be organized to review and analyze the suggestions consolidated by Program Assessment Committee. DAB insists the department to organize curriculum development workshops in series of sessions with the academic experts. They finalize the draft proposal given by PAC for the development plan in due consideration with the suggestions from various stakeholders.

Phase 6. Approval from Board of Studies

Department wise Board of Studies will then finalize the draft proposal of Department Advisory Board and recommends the action plan for bridging the curriculum gaps and revises the syllabus. Finally, the syllabus is accorded and approved by Internal Quality Assurance Cell, Academic Council and ratified by Board of Governors.

1.6.2 Teaching Learning Process

The Teaching-Learning process at VJIT has gained significance with the inception of student-centric learning. VJIT has embraced the student-centric teaching methodology in the autonomous curriculum with emphasis on hands-on-learning, the ICT enabled learning along with the regular teaching processes has been adopted to engage students.

Power point presentations are used in the classrooms to provide audio visual experience to the students. The NPTEL video lectures are also adopted for enhanced learning while the “Think-Pair-Share” methodology is implemented for cooperative learning in the classrooms. Quizzes are conducted regularly, and assignments are given to the students to nurture their problem-solving

Progress Report 2023-24

abilities. Demonstration based learning and Case based learning emphasizes on the comparative result-oriented approach which helps students to think critically on the solution procedure to obtain the alternate solution and helps class room teaching more interesting. Collaborative learning is encouraged by the support of platforms like Google classroom. The Project Based Learning is adopted for the self-study components from 3rd semester onwards. The project allocation, monitoring and evaluation system is in place and is running effectively under senior faculty guidance. A rubric for project evaluation which covers all the quality criteria is also well maintained. Effectively designed open-ended experiments are adopted to challenge the student's critical thinking, analysis and design capabilities. The students are also trained on modern simulation tools. The industry visits, site visits, guest lectures etc. are conducted regularly on the latest topics and trends in the industry. Hands-on workshops by the industry experts are organized regularly. Elective courses are offered based on the student's individual interest.

The final year Projects are evaluated by external experts using a well-defined detailed rubric framework to ensure quality of the projects and the best projects are awarded prizes. Value added courses are undertaken on various relevant topics. The students are also trained in abstract writing, technical paper writing and literature survey. OBE is practiced in true spirit resulting in more focused all-round development of our students.

Modern Tool Usage: All classrooms are equipped with LCD projectors facilitating faculty to take classes and students to present their project/research work in classroom.

YouTube based E-tutorials developed by faculty assist students in comprehending the concepts and enable students to replay in clearing doubts at specific bottleneck points.

Technology is used for enhancing the learning ability of the graduates. Tools like Google meet, Zoom are used for online classes.

VJIT encourages faculty members to utilize ICT tools available at their disposal so that teaching-learning experience becomes more interesting. To optimize the delivery of education, teachers at VJIT use the following ICT Tools:

1. 82 LCD Projectors are available in classrooms/labs.
2. Desktop and Laptops are there in all Computer Labs and Faculty cabins.
3. Printers are installed at Labs, HOD Cabins and all prominent places.

Progress Report 2023-24

4. Photocopier machines are available in all buildings in VJIT campus.
5. Scanners are available at all prominent places.
6. Seminar hall equipped with all digital facilities is available for all departments.
7. One Auditorium with a seating capacity of 500 is digitally equipped with mike, projector and computer system.
8. Online Classes through Zoom, Google Meet, Microsoft Team
9. MOOC Platform (NPTEL, Coursera, SAP, Udemy, Edx etc)
10. Digital Library resources (DEL NET, etc)

Industry-Institute-Interaction: College has Industry-Institute Interaction Cell with coordinators at department level who work with representatives of various industries and train the students in their respective areas. The partnering industries provide internships, projects, and subsequently provide job offers to some of our students.

Student Support System: Participation of students in inter-college Hackathons and the prizes won by them is authentication of the support given from the Institute. The departments have also adopted many best practices with student centric methods. Remedial classes for the slow learners are conducted regularly. The Institution has several StudentClubs with an aim to inculcate the culture of innovation and encourage them to generate new ideas. The Institution ensures overall development of students through participatory learning experience.

VJIT takes responsibility in supporting student talent management, facilitating trainings in applied learning tasks focusing on short-term and long-term goals in areas of student development. The committed guidance never deteriorated even during tough Pandemic times by ensuring continuity in learning through:

- Faculty monitoring students to register for specific domain courses in Coursera. Preparing students to learn various courses including updated technologies under consideration.
- Students registered in courses of interest and eventually awarded with e-certificates.
- Cloud Technology is expended in using Google forms by faculty to conduct online assignments and examinations before and during pandemic period which helped in evaluation of the teaching learning process.
- Students presented progress of their project work by using ICT enabled tools and exhibiting their models to faculty.

Progress Report 2023-24

- The flipped classroom teaching advanced ability to prepare lectures and presentation. The query answering trait got improved among students by employing ICT tools.
- The teaching methods facilitated in suppressing passive mode among slow learners and improved their proactiveness.

Academic Calendar is prepared before the commencement of academic year and is approved in the academic council. Two semesters each with 90 working days are formulated for UG and PG programmes. The calendar clearly illustrates the duration of Classwork, Mid and End Examinations. The calendar is disseminated to students and faculty through circulars, display in notice boards, posting in website etc.

Once the calendar is released the other connecting academic activities take initiation in each of the departments. The Head of the Department allocates the courses to faculty members who in turn prepare the course outcomes (CO) for assigned courses. The faculty further map the COs with POs and PSOs employing the numeric weightages/ratings.

The teaching plan also envisages the value-added courses to cater to the needs of students preparing them to match their skills to industry requirements without any further training.

The continuous evaluation is also planned in the semester at appropriate time periods such that the faculty can conduct assignments & mid examinations in the stipulated slots.

The teaching plan comprises Blooms Level Taxonomy associated questions with an objective to test the cognitive skill levels of our students. The teaching plan envisages the evaluation procedure for answer scripts, seminar reports, project reports and is carried by appropriate rubrics prepared initially at the commencement of the semester.

1.6.3 Human Values & Professional Ethics

At VJIT, we believe that higher education must go hand-in-hand with character building and ethical development. Human Values and Professional Ethics are integrated into the academic framework and reinforced through a variety of student activities that nurture integrity, empathy, discipline, teamwork, and a sense of social responsibility.

This vision is reflected in the diverse range of activities our students actively participate in. These include paper presentations, project expos, hackathons, poster presentations, technical quizzes, and software application internships. Each of these events promotes critical thinking, innovation, and

Progress Report 2023-24

ethical collaboration. Activities such as sports fests and state-level athletic championships foster discipline, fairness, and teamwork—key professional values. Participation in national-level symposiums and certifications related to technical and professional skills further enhance students' commitment to continuous learning and responsible innovation.

By engaging in these co-curricular and extracurricular activities, students internalize core human values and develop the professional ethics essential for real-world challenges. At VJIT, these efforts are aimed at producing not just skilled graduates but ethical professionals ready to contribute positively to society and the industries they serve.

1.6.4 Research & Innovation Ecosystem

Vidya Jyothi Institute of Technology (VJIT), Located on an eco-friendly campus, is committed to promoting sustainability through research and innovation. The institution actively encourages faculty and students to undertake research projects aimed at solving real-world problems, particularly those that pose environmental hazards. This proactive approach reflects VJIT's dedication to academic excellence, societal relevance, and environmental responsibility.

Research and Development (R&D) Cell

The **Research and Development (R&D) Cell** at VJIT plays a central role in fostering a strong research culture across disciplines. Specialized research laboratories have been established under its supervision to facilitate high-quality research by faculty and students. Notably, the Departments of **Computer Science and Engineering** and **Mechanical Engineering** have been recognized as official research centers by **Jawaharlal Nehru Technological University, Hyderabad (JNTUH)**.

To encourage research productivity, the institution offers **special incentives**, including financial awards and sanctioned research leave, to faculty members involved in quality research initiatives. VJIT researchers have published extensively in peer-reviewed **national and international journals**, including those indexed in **Scopus, SCI**, and recognized by **UGC**.

The institute has constituted a **Research Advisory Board**, comprising **eight eminent experts** from reputed universities and industries. This board is entrusted with guiding institutional research

Progress Report 2023-24

policies, offering strategic direction, and promoting the overall growth and development of research activities.

Further, the institution has signed **Memorandums of Understanding (MoUs)** with reputed industries to facilitate collaborative research and product development across various engineering domains. VJIT also provides **consultancy services** to industry partners, reflecting its practical engagement with the technological and industrial ecosystem.

Entrepreneurship Development Cell (EDC) – Swashakthi

The **Entrepreneurship Development Cell (EDC)**, branded as "**Swashakthi**," was established in 2015 to instill entrepreneurial thinking among students. Since its inception, the EDC has consistently conducted **awareness programs, workshops, and innovation challenges** aimed at fostering startup culture and self-reliance among the student community.

The **VJIT Entrepreneurial Ecosystem**, initiated in the same year, has been instrumental in mentoring and supporting student-led innovations from ideation to startup formation. Over the past decade, VJIT students have actively participated in the **JNTU-H EXCITE Design Workshops**, conducted in collaboration with **HYSEA** and **TASK**, winning numerous awards and receiving **seed funding** for their innovative projects.

Incubation and Industry Collaboration

VJIT houses several **on-campus incubation centers** and **collaborates with national and international organizations** to promote innovation and entrepreneurship. Key incubation and partnership networks include:

- **MSME-recognized Incubation Center**
- **Confederation of Indian Industry (CII)**
- **DATA READY Technology Corp., Toronto, Canada**
- **Association of Lady Entrepreneurs of India (ALEAP WE-HUB), Hyderabad**
- **National Entrepreneurship Network (NEN), Wadhvani Foundation**
- **Centre for Entrepreneurship Development (CED)**

Progress Report 2023-24

These collaborations provide invaluable exposure, mentorship, funding avenues, and access to global entrepreneurial networks for budding innovators.

Institute Innovation Council (IIC)

VJIT has established an **Institute Innovation Council (IIC)** in collaboration with the **Ministry of Human Resource Development's Innovation Cell (MIC)** to promote a vibrant innovation culture on campus. The IIC serves as a platform to support students and faculty in developing creative ideas into scalable ventures.

Under this initiative, the institute organized the **MHRD IIC Industrial Talk Series**, featuring expert speakers and interactive sessions. Active participation from students and faculty members demonstrated the institution's strong innovation-driven ethos. Additionally, the IIC conducted a **workshop on Intellectual Property Rights (IPR)** to raise awareness on patent filing procedures, legal frameworks, and the importance of protecting innovations.

National Innovation and Startup Policy (NISP)

VJIT has adopted the **National Innovation and Startup Policy (NISP)** with the aim of positioning the institute as a **hub for startups, entrepreneurship, IPR ownership, technology licensing, and equity sharing in startups**, with a strong emphasis on **rural enterprise development**.

The policy promotes a comprehensive entrepreneurial ecosystem that identifies, mentors, and nurtures the innovative capacities of students, faculty, and staff. It provides strategic support in the form of **funding opportunities, investment connections, incubation, and networking platforms**, ensuring that innovative ideas are transformed into successful ventures.

Intellectual Property Rights (IPR) Cell

The **IPR Cell** at VJIT is a proactive initiative that encourages the **filing of patents and protection of innovations** developed within the institute. It serves as a resourceful platform for faculty members, students, and research scholars to learn about intellectual property, share their work, and stay updated on the latest developments in the field.

The cell offers **practical exposure, awareness programs, and consultation services** to help innovators navigate the patenting process and ensure legal protection for their technologies. By

Progress Report 2023-24

institutionalizing the culture of innovation and IPR, the cell not only enhances the academic profile of the institute but also contributes meaningfully to societal advancement.

Conclusion

Through its integrated efforts across research, innovation, entrepreneurship, and industry collaboration, **VJIT continues to be a frontrunner in shaping the next generation of thinkers, creators, and entrepreneurs.** The institute's commitment to academic excellence, environmental sustainability, and social impact defines its growing stature in the national innovation landscape.

Faculty Development Programmes and Achievements

1.7.1

Faculty Development Programmes

Faculty members are widely regarded as the most valuable resource in any institution of higher education, serving as the primary facilitators of knowledge and skill development for students. At the Engineering Institute, faculty are increasingly expected to be innovative educators and effective mediators between students and knowledge. These expectations stem from evolving curricula and the demands of a competitive industry. As a result, faculty must now acquire new knowledge and a diverse skill set—including managing multiple roles, mentoring, and integrating technology into teaching, learning, and research. Mastery of emerging ICT tools has also become essential.

At VJIT, Faculty Development Programs (FDPs) have evolved from focusing on qualification enhancement to emphasizing overall quality enrichment. These programs are designed to equip faculty with the tools needed to navigate the rapid changes and emerging trends in engineering education. The FDPs organized in the academic year 2022–23 have been instrumental in further honing teaching effectiveness.

1.7.3 Faculty Certifications

At VJIT, Hyderabad, faculty members across various departments have actively pursued professional development through reputed certification platforms. In the Civil Engineering department, faculty completed 2 certifications offered by The National Small Industries Corporation Ltd. Technical Services Centre. The Mechanical Engineering department recorded 1

Progress Report 2023-24

certification through Udeemy. Faculty from the Electronics and Communication Engineering (ECE) department demonstrated significant engagement with 24 certifications completed via NPTEL. In the Computer Science and Engineering (CSE) department, 7 certifications were undertaken through CISCO.

The Information Technology (IT) department showed notable participation, with faculty completing 11 certifications from IIT Bombay, 8 from CISCO, and 2 from NPTEL, making a total of 21 certifications. In the Data Science (DS) department, 1 certification was secured through CISCO. Additionally, the Humanities and Sciences (HS) department reported 1 certification through NPTEL, while the MBA department faculty completed 2 certifications from the same platform.

These achievements highlight the dedication of VJIT faculty to continuous learning and upskilling through recognized national and international certification programs.

1.8.5

Mentoring System

VJIT believes that mentoring system has a positive impact on students' continuous progress and achievement. Hence, Institute has adopted effective mentoring system for the development of its students. Our experienced faculty establish a positive and constructive relationship with the students to foster their personal and professional growth.

Our mentoring system has shown a tremendous change in the students' ability to reach their goals and realize their dreams. This was possible by maintaining a positive classroom atmosphere, in which the faculty are quite approachable to the students and they successfully reinforce learning skills by alleviating students' mental blocks. The students have always looked up to our faculty

Progress Report 2023-24

who have been serving as role models sharing their personal experiences and history of their careers.

- The results achieved by our students are a perfect example of our sound mentoring system; the results being both output and outcome-based.
- Increasing student attendance percentage is yet another milestone in our mentoring system.
- Students' keen interest in curricular, co-curricular and extra-curricular activities, their active participation in various student clubs to enhance their personality is another achievement of our robust mentoring system.

VJIT also promotes psychosocial mentoring system to boost the confidence levels of its future professionals. Our able faculty serve as a consistent source of advice and support to the students to build self-confidence and self-esteem by motivating an open talk about their fears and anxiety that hinder their concentration on academics. A deep insight into the multiple backgrounds of the students that inflict their academic development has helped us to counsel them to overcome their insecurities. This has been a focal point of our strong and efficacious mentoring system. Another major area of focus in mentoring system is the academic/career factor. We have been active listeners to the students who project a plethora of ideas and have been extending our support to them in exploring a range of opportunities and possibilities, thereby strongly supporting them in critical decision-making. It is our primary responsibility to explore suitable, sustainable academic and career options hand-in-hand with the students and helping them overcome their stigma about their abilities. The motto of our mentoring system is the viable student-faculty interaction for a persistent development of our students.

Mentoring system to help at individual level:

Types of mentoring: All round mentoring

Frequency of Meetings: Fortnight (and need based)

Mentoring process

Mentoring is for overall development of the student. Counseling books are maintained by faculty where all details of the students are recorded. The following details are maintained in the counseling book of each student:

- Personal Information
- Past Academic Performance
- List of academic achievements
- Monthly attendance

Progress Report 2023-24

The mentors will meet the students periodically and monitor their performance and their progress. Guidance is given to students for the improvement. The followings are take care by each mentor.

- Monitoring Regularity of the students.
- Monitoring Performance of the students.
- Personal Counseling for Career Guidance
- The parents of poorly performing students are informed through SMS and call.
- Students are encouraged to participate in technical events.

1.10 Training and Placements

1.10.1 Training & Placements

Training & Placement Cell – VJIT

The Training & Placement (T&P) Cell at VJIT plays a pivotal role in shaping the careers of students by equipping them with the necessary skills and facilitating placement opportunities. Each year, students participate in 80 to 100 on-campus and off-campus placement drives, with approximately 80% of eligible students getting placed in reputed companies.

To meet the evolving demands of the industry and transform students into industry-ready professionals, the T&P Cell conducts a wide array of activities, including:

- Technical and Soft Skills Training
- Workshops and Guest Lectures
- Alumni Interaction Sessions
- Mock Interviews
- Online and Offline Assessments

Progress Report 2023-24

Training Structure

- Engineering Students: Training begins from the 2nd year and continues upto to the 4th year.
- MBA Students: Training is primarily conducted during the 1st year.
- Placement Drives: For B.Tech students, recruitment begins at the end of the 3rd semester and continues up to the 8th semester.

Internships & Industry Collaboration

In collaboration with the Institution-Industry Interface (III) Cell, the T&P Cell actively facilitates internship opportunities during the 8th semester. The Cell also drives industry partnerships and MoUs with leading companies to enhance student exposure and learning. Centers of Excellence at VJIT resulting from these collaborations include:

- Virtusa CoE in Software Testing
- Qlik CoE in Data Analytics
- Lean Techno CoE in Manufacturing
- TalentSprint CoE in Career Readiness

Training Partners & Platforms

To deliver the highest quality training, the Cell has partnered with renowned organizations such as:

- Cantilever Labs
- Talentio
- Suntech

To ensure students stay connected with current technological advancements, recent MoUs have been signed with:

- Facehiring
- Crampete
- One Compiler
- GoHexa

These platforms support online learning, coding, and technical certification, enabling students to develop job-relevant skills and certifications.

Leadership & Support

The T&P Cell is led by Dr. Siddhartha Ghosh, who brings over 15 years of experience in training and placements. He is ably supported by:

- Assistant TPOs
- 1 Soft Skills Trainer
- 1 Aptitude Trainer
- 6 Department Staff Coordinators
- 40+ Student Coordinators from various branches

2. Research and Development Activities

2.1 Research and Promotion Policy

VJIT constructively focuses on Innovations by faculty and students and groom them for research and development as a stepping stones to reach the institute vision in the key area on Engineering and Management. The Main aim of Research & Development Centre at the Institution level is to promote Research & Innovation among the faculty & students that helps for a social cause. Dr. D. Arunakumari Professor, Department of Computer science Engineering is the Institutional Research Co-ordinator of the Centre. The R&D Centre of the college works in three distinct aspects viz., pursuing Academic and sponsored research, bringing innovation from engineering and imparting standards among all the research pursued. To promote research and innovation, many new centres of excellence and innovative labs have been established. The best research practices and ideas are shared amongst departments. R&D Center involves in identifying thrust areas on research, developing projects leading to publications in National/International Journals

Progress Report 2023-24

and conferences. The centre helps in developing co-operative and complimentary research among various Departments under VJIT to explore advanced technologies. The Centre holds periodical Review meetings on the progress of research being carried out by staffs and students. The Center also renders help to pursue funded projects once it is sanctioned. The Centre also guides in writing projects, to culminate in filing patents.

Treading this path, the Institution evinced interest in research amongst the students from first year of their study. Necessary environment and facilities were created. Centralized labs/design centers titled propel labs were established. These labs are broad based and not confined to a single area/discipline. Student groups (multidisciplinary) work on various engineering projects in these labs - concept to designing the prototype. The labs are open for students of all disciplines. Each Lab is headed by a faculty and supported by competent technical staff who volunteers to act as mentors for the students and ensure that students conduct the research. Currently about 300 students are working in these labs. Creative thinking skills of the students and mentoring by faculty guides result in development creating systematic processes and products. These research labs help the students to build prototypes which enable them to participate in competitions both in India & Abroad.

The aims and objectives of VJIT Research & Development Centre is enumerated hereunder:

- Encourage Faculty and students to take up research
- Monitor activities of centers of excellence/innovative labs/incubation centers
- Collaboration with foreign universities for Research activities
- Facilitate management grants/incentives for promoting research
- Assist in patenting
- Conducting research conclaves

Some of the unique research facilities created are shown here under:

- ICI Knowledge Center
- Nano Materials Synthesis laboratory.
- NI LAbview Academy school
- Cypress semiconductors Center of excellence on Embedded & IoT
- VLSI Laboratory

Progress Report 2023-24

- Signal Image and Video Processing Laboratory
- 3D Printing Lab
- Internet of Things (IoT)
- Centre of Excellence in Data Analytics in association with Qlik,

The institution has introduced number of Initiatives towards Promoting Research activities in the institution.

- Cash incentives for research publications in refereed journals
- Management funded Research Promotion Scheme
- Deputation of faculty to participate in Workshop, seminar and conferences
- Financial assistance to faculty for presenting technical papers in national, international conferences/seminars
- Centers of excellence/Innovative labs/Incubation centers
- Incentives for faculty for fetching external research grants

- MSME incubation center to facilitate consultancy activities
- Supporting measures for patent filing
- Continuous augmentation of labs with state of art equipment and software
- Incentive Scheme for Research Activities:
- The Management has implemented the following incentive scheme to the faculty to promote research activities.
 - a) Annual Book Allowance of Rs.2000/-
 - b) Full Annual membership fee for Indian Professional Body in their respective domain c) 75% of the Annual Membership Fee for a Foreign Professional Body in their Respective Domain.
 - d) The Annual expenditure in lieu of extending all the above benefits shall put together not exceed Rs.15, 000/- Per faculty.
- Collaboration with Core industries for Research activities
- Cash incentive for writing technical & literature Books
- Incentives for faculty for fetching external research grants

Research Hierarchy

Progress Report 2023-24

Organizational Chart of R & D

Roles and Responsibilities of R & D Cell

The Role of R & D Cell:

Objectives:

- To enhance the Research Ecosystem of the college
- To promote Academic Research in the college with Faculty and students
- To preserve the Code of ethics of the college while publishing
- To help the faculty in applying for funds in the form of Sponsored research / Grants from government and non government agencies
- To pave path for the teachers, students and researchers to collaborate for research

Responsibilities of R & D Cell

To help faculty, researchers and students to

- Know research methodology
- Methodology to develop projects
- Process of converting projects into prototype and in turn into products

Progress Report 2023-24

- Enhancing their knowledge on Intellectual property rights and Patents
- Preserve code of ethics while publishing papers / thesis
- Conduct skill development courses that enhancing the capability of students and Faculty.

Intellectual Property Rights Cell (IPR)

Objectives of IPR Cell:

- To provide IPR Information in Protection with Orientation to Faculty & Students.
- To guide & advise Researchers on how to obtain & sustain Patents with IPR Cell.
- To facilitate routing of Patent searchers through IPR.
- To get necessary clearances from competent authorities while filling Patents and other IPRs like Copyrights Registration and Design Registration, etc. through IPR Cell.
- To evolve the procedures for commercialization of Patented Technologies with Students and Faculty.
- To organize various IPR awareness Programmes in Collaboration with Research Organization in VJIT Campus.

4 EXTENSION ACTIVITIES UNDERTAKEN

4.1 Entrepreneur Development Cell (EDC) / Institution Innovation Council (IIC)

EDC of the institute is committed to the cause of encouraging entrepreneurship among students. The cell invites various renowned entrepreneurs to share their experiences. Lectures and awareness programs are regularly conducted to enlighten the students about the joys and problems of entrepreneurship. Guest lectures are conducted throughout the year to involve the students in the various activities.

Objectives of EDC

- To organize Entrepreneurship Awareness Camps, Entrepreneurship Development Programs, Faculty Development Programs and Skill Development Programs in the college/institution for the benefit of students
- To motivate and develop entrepreneurship among the students
- To initiate innovative student projects each year for new innovative product development
- To arrange interaction with entrepreneurs and create a mentorship scheme for student entrepreneurs
- To facilitate creation of entrepreneur's club in each college to foster the culture of entrepreneurship amongst students

Item No. 2: To approve the Panel of Examiners

The Chairperson explained on the requirement and emphasized on the panel of examiners, whose services will be utilized, as and when required for preparation of the question paper for End Semester examination and also for evaluation of the Answer scripts of the End Semester Examinations. The panel of the examiners will be prepared in consultation with the senior faculty of the department. They will be paid remuneration as per the recommendations of College Finance Committee.

Resolution (2): The committee of BoS, after discussion, authorized the Chairperson of BoS to prepare the Panel of examiners, as and when required in consultation with the senior faculty members for M.Tech Electrical Power Systems under R23 regulations. The same may be submitted to the Examination branch (Autonomous) for further processing.

Item No. 1: Approval of R23 M.Tech 1st Year I & II Semesters Syllabi

a) **The Chairperson presented the syllabi of the following core subjects of M.Tech 1st**

Year I Semester viz.

1. Advanced CAD
2. Additive Manufacturing
3. Research Methodology & IPR
4. Advanced Computer Aided Design Lab
5. 3D Printing Lab

b) **The Chairperson presented the syllabi of the following core subjects of M.Tech 1st**

Year II Semester viz.

1. Computer Integrated Manufacturing
2. Manufacturing Systems: Simulation Modeling & Analysis
3. Mini Project with Seminar
4. Robotics Lab
5. Computer Aided Manufacturing Lab

c) **The Chairperson also presented the syllabi of Professional Electives to be offered during M.Tech 1st Year I semester viz.**

Professional Elective 1:

1. Finite Element and Boundary Element Methods
2. Experimental Stress Analysis
3. Green Manufacturing

Professional Elective 2:

1. Intelligent Manufacturing Systems
2. IOT & Industry 4.0
3. Optimization Techniques & Applications

d) **The Chairperson also presented the syllabi of Professional Electives to be offered during M.Tech 1st Year II semester viz.**

Professional Elective 3:

1. Automation in Manufacturing
2. Computer Aided Process Planning
3. Industrial Robotics

Professional Elective 4:

1. Mechatronics
2. MEMS: Design and Manufacturing
3. Fuzzy Logic & Neural Networks

Handwritten signatures and notes at the bottom of the page:
- Several handwritten signatures in blue and black ink.
- A central vertical line with a horizontal crossbar.
- The word "Syllabi" written in green ink.
- The initials "ACL" written in black ink.

e) The Chairperson also presented the syllabi of Audit Courses to be offered during M.Tech 1st Year I & II semester viz.

1. English for Research Paper Writing
2. Disaster Management
3. Sanskrit for Technical Knowledge
4. Value Education
5. Constitution of India
6. Pedagogy Studies
7. Stress Management by Yoga
8. Personality Development through Life Enlightenment Skills

Item No. 2: Approval of R23 M.Tech 2nd Year I & II Semesters Syllabi

a) The Chairperson presented the syllabi of the following subjects of M.Tech 2nd Year I Semester viz.

1. Dissertation Work Review -I

b) The Chairperson presented the syllabi of the following subjects of M.Tech 2nd Year II Semester viz.

1. Dissertation Work Review -II
2. Dissertation Viva-Voce

c) The Chairperson presented the syllabi of Professional Electives and Open Electives to be offered during M.Tech 2nd Year I semester viz.

Professional Elective 5:

1. Design for Manufacturing & Assembly
2. Composite Materials
3. Artificial Intelligence Manufacturing

Open Electives:

1. Business Analytics
2. Waste to Energy
3. Concurrent Engineering
4. Industrial Safety
5. Product Design and Process Planning

Handwritten signatures and marks at the bottom of the page:

- Top center: A large handwritten '1' with a horizontal line through it.
- Bottom left: A signature in blue ink.
- Bottom center-left: A signature in blue ink.
- Bottom center-right: A signature in blue ink.
- Bottom right: A signature in blue ink.
- Far right: A signature in green ink with the word 'Syllabi' written above it.

Noted and Approved.

RESOLUTIONS

- 1. All the previous minutes were incorporated as per the previous BOS meeting**

Agenda No. 1: Approval of M.Tech. (Embedded Systems) Course Structure under R-23 regulations

The chairman of BoS presented I & II year course structure of M.Tech. (Embedded Systems) under R-23 regulations.

Resolution (1): *After detailed discussion board members approved I & II year course structure of M.Tech. (Embedded Systems) under R-23 regulations.*

Agenda No. 2: Approval of M.Tech. (Embedded Systems) I and II Year Syllabi under R-23 regulations

The Chairman presented I & II Year syllabi of M.Tech. (Embedded Systems) under R-23 regulations.

Resolution (2): *After detailed discussion board members approved I & II Year syllabi of M.Tech. (Embedded Systems) under R23 regulations.*

Agenda No. 3: Approval of Courses / Equivalent Subjects (for detained Students of Old Regulations) along with their syllabi of the subjects offered to students under R19 / R15 Regulations

Resolution (3): *Kindly grant powers to the Chairman of BoS to take decision regarding Approval of Courses / Equivalent Subjects (for detained students of old regulation) along with their syllabi of the subjects offered to students under R19 / R15 Regulations*

Agenda No. 4: Approval of Panel of examiners

The Chairperson emphasized the necessity of Panel of Examiners. Their services will be utilized in the preparation of End-Semester Question paper(s) and Evaluation of End-Semester Examination Answer Scripts. They will be paid remuneration as per the recommendations of College Finance Committee.

Resolution (4): *The committee on BoS in ECE to prepare the Panel of examiners in consultation with the senior teachers for all the M.Tech (Embedded Systems) courses under R-23 regulations. The same may be submitted to the Examination branch (Autonomous) for further processing.*

She requested the criteria in-charges to complete the data collection by **15-08-2023** taking note of the benchmarks for the various metrics for the NAAC accreditation. She also informed them that the document with benchmarks mentioned against each metrics will be disseminated through mail (Annexure 2).

She reiterated the in-charges to take clear geo-tagged photographs to be included in AQAR 2022-23 before **30-06-2023**.

The coordinator informed the members that so far one of the best practices in VJIT is Prayukthi where students from the SC/ST background are trained for placements. She requested members to give suggestions for VJIT's best practices.

The IQAC Chairman, informed the members of best practices followed at VJIT.

1. Memorizing system
2. Project based learning
3. Peer knowledge sharing to be implemented in VJIT (Senior students sharing knowledge with junior students)

Resolution: Noted and appreciated

Item No 4: To discuss the salient features of B.Tech R22 Academic Regulation

The coordinator apprised the committee of the regulation R22. She presented the salient features of B.Tech R22.

1. Equal distribution of credits across all years (B.Tech)
2. Academic Criteria to be promoted to the next year: One major change is that student has to score a minimum even in the internal assessment.

Ms. Srilatha, Academic Coordinator, informed the committee that under the R21 regulations, there is a provision for B.Tech students to opt for a Minor or Honors program.

For a Minor program student can identify one area of specialization in an area different from the major discipline in his/her V Semester. Only top 50% of the total class without any active backlogs up to III semester are eligible. He/she has to acquire 18 additional credits over and above the required 160 credits for B. Tech degree. The name of the Minor will appear on the degree certificate.

For a Honors program students should have a minimum CGPA of 7 or above at the end of the III Semester. Only top 30% of the total class are eligible to register for Honors program. He/she has to acquire 20 additional credits over and above the required 160 credits for B. Tech degree and should not have received 'F' grade throughout the program in first attempt.

Applications will be called for well in advance allowing students to choose from a list, the details of which are mentioned in VJIT website.

(Details about the Minor and Major programs are given in VJIT website <https://vjit.ac.in/autonomy/#academicregulations>).

Resolution: Noted and approved

Item No 7: To discuss the feedback

The coordinator discussed the Student Satisfaction Survey (SSS) for the academic year 2022-23. Around 50% of all students responded. It observed that more than 80% students were satisfied with the teaching-Learning process at VJIT. A similar response was observed in the feedback received for the infrastructure facilities available at VJIT.

The student representatives mentioned that few teachers use local language as a medium of instruction occasionally.

Mr Sathvik, student representative, informed that students are not giving importance to non-credit courses. The Committee Chair, informed that non-credit courses are mandatory courses and students have to pass these courses to get their degree.

Mr Sathvik opined that students should be given small topics for presentation to improve their communication skills. He also suggested that extra hours after college hours be utilized for preparing students for topics beyond the syllabus and to help them participate in hackathons.

Resolution: Noted

Item No 8: To present the results analysis for the B.Tech 2018-22 batch

2. PURPOSE OF THIS MoU & AREAS OF COLLABORATION

The purpose of this MoU is to establish a framework for potential cooperation between the Parties and to provide a structure & encourage further discussions between the Parties regarding:

1. Knowledge sharing of both the parties
2. Internships and recruitments: recruitment for technical personnel and interns for Skyroot from the pool of the Institute students.
3. Conduct Technical events / Training Programmes in the area of Launch vehicles and Allied technologies.
4. Supporting the active engagement of the Institute in space research & developmental activities through various research and development projects, like ISRO-Respond/DRDO/Tri-services projects by being a co-principal investigator.
5. Utilization of facilities in various departments of the Institute
6. Faculty Exchange programmes & Industrial Visits
7. Subsidized launch prices for the Institute payloads.

The details with respect to the exact contract amount, deliverables, duties of the Parties, Intellectual Property Rights, payments, contract price, and such other details in relation to the foregoing shall be specified under a mutually agreed definitive agreement between the Parties, if any. **However, this Clause does not bind either Party to carry out all or either of the collaboration areas nor compels either Party to share their technology, know-how or any other details.**

3. TERM AND TERMINATION

The Effective Date of this MoU shall be the date mentioned hereinabove. This MoU shall expire in 3 (three) years from its Effective Date unless the Parties terminate this MoU in writing at an earlier date by giving a 15 (fifteen) days prior written notice or enter into a definitive agreement. The Parties may renew this MoU upon its expiry, or extend the term prior to expiry upon mutual agreement.

4. EXPENSES

The Parties agree that any costs, expenditure, including legal expenses, incurred for and under this MoU shall be borne by the Parties individually. The execution, expiration or termination of this MoU shall not create any financial obligation on the other Party unless agreed under any definitive agreement duly signed by both the Parties.

5. WARRANTIES AND REPRESENTATION

This clause shall be binding. Each Party to this MoU warrants and represents to have the required and necessary right and authority to enter into this MoU and the signatories herein for and on behalf of the Parties are fully authorized and empowered to execute this MoU on behalf of its concerned Party.

6. CONFIDENTIALITY AND INTELLECTUAL PROPERTY

This Clause shall be binding.

6.1 In addition to the obligation under the Mutual Non-Disclosure Agreement signed between the Parties as on 27/3/2023, and notwithstanding the termination or expiration of this MoU, the Parties obligation with respect to the Confidential Information, including intellectual property, received under this MoU shall remain as long as such information remains confidential. The Party disclosing Confidential Information under this MoU shall be known as the Disclosing Party and the Party receiving such Confidential Information shall be known as the Receiving Party.

6.2 Additionally, neither Party shall use, disclose, reproduce, distribute, sell or resell, reverse engineer any Confidential Information of the other Party under or in relation to this MoU without the prior written consent of the other Party nor shall attempt to or conduct any act which may cause harm, damage, loss to the Disclosing Party. Neither Party, either by signing of this MoU or doing any act mentioned herein, grants to the other Party either

MOU between SKYROOT & VIIT

expressly or impliedly, by estoppel or otherwise, any rights, title, interest, ownership, of any of its Confidential Information or license under trademark, design, patent, copyright, invention, technical information, know-how, etc. under process or owned by such Party.

6.3 Furthermore, neither Parties may use other Party's Confidential Information, or its products, technical information, technology and know-how and such other information whether patented, registered, licensed or not, in any way outside the framework of this MoU, unless expressly authorized in writing by the Party who owns them.

6.4 In the event of creation of any intellectual property by joint efforts of the Parties under this MoU, both Parties shall have the ownership of such intellectual property. The ratios of ownership and such other details shall be laid down in a separate definitive agreement. However, neither Party shall transfer, sell, assign any right, title or ownership of such intellectual property or create a charge over such intellectual property without the prior written consent of the other Party.

6.5 However, this Clause shall not apply to such Confidential Information which the Receiving Party is able to prove that such information (a) was part of the public domain at the time of disclosure or properly became part of the public domain, by publication or otherwise but not including breach of this MoU by the Receiving Party; (b) was rightfully acquired by Receiving Party prior to disclosure by the Disclosing Party; (c) was independently developed by Receiving Party or its Representatives without reference to the Confidential Information of the Disclosing Party, or (d) is required to be disclosed to a Government, Investigative Agency, Court of competent jurisdiction or any competent authority, provided, however, that Receiving Party and its Representatives, to the extent legally permissible, shall provide Disclosing Party prompt prior written notice of such requirement, shall consult with and assist the Disclosing Party in obtaining a protective order prior to such disclosure, and shall only disclose the portion of Confidential Information which it has been advised by written opinion of counsel (including any in-house legal counsel) and is legally required to be disclosed and shall use its best efforts to obtain assurance that confidential treatment shall be accorded to such information whether the protective order is obtained or not.

6.6 Deletion of Confidential Information: Within 15 (fifteen) days from the written request by Disclosing Party or upon termination or expiration, whichever is applicable, the Receiving Party shall delete and destroy all the Confidential Information, irrespective of its form and the medium of disclosure. In the event it retains a copy of such Confidential

MOU between SKYROOT & VJIT

Information for regulatory and compliance purposes, it shall specify it in writing to the Disclosing Party and the Confidentiality obligations shall continue as long as such Confidential Information is retained.

7. GOVERNING LAW AND JURISDICTION

This Clause shall be binding. This MoU shall be governed by and interpreted in accordance with the laws prevailing in India. Both Parties irrevocably submit to the exclusive jurisdiction of the Courts in Hyderabad, India for any action or proceeding arising out of or in connection with this MoU.

8. DISPUTE RESOLUTION:

This Clause shall be binding. In the event any claim, dispute, difference ("**Dispute**") arises from or in connection to this MoU, the Parties shall attempt to resolve the Dispute amicably through its representatives. In case of failure to resolve such Dispute amicably within 60 (sixty) days from the date it was first notified to the other Party, the Parties shall refer and finally submit such unresolved dispute for Arbitration administered by the International Arbitration and Mediation Center, Hyderabad, India ("**IAMC**") and carried in accordance with its arbitration rules ("**IAMC Rules**"). The seat for the arbitration proceedings shall be India and the venue shall be Hyderabad, India. The Arbitral tribunal shall consist of a sole arbitrator appointed by the Parties mutually. However, in case of failure to do so, the Council shall appoint a sole arbitrator in accordance with IAMC Rules. The Arbitration proceedings must be conducted in English and the award by the Arbitral Tribunal shall be final and binding on the Parties. The Parties shall have the right to injunctive relief, even during the 60 (sixty) days process of amicable settlement, in addition to monetary damages claimed under this MoU.

9. INDEPENDENT CONTRACTOR:

The Parties are independent contractors and nothing in this MoU shall be construed to create a partnership, joint venture, franchise, fiduciary, agency or employment between the Parties. Neither Party has any authority, whether expressed or implied, to assume or create any obligations on behalf of the other Party or bind the other Party to any future contract, agreement or undertaking.

10. DISCLOSURE TO THIRD-PARTY & PUBLICITY

This Clause shall be binding. Neither Party shall make any reference to the other Party, the discussions between the Parties, other Party's logo, tradename or to this MoU or any activities undertaken in relation to this MoU, to any Third Party or make it publicly available, through any form or medium without the prior written consent, via email or otherwise, of the other Party.

11. LIABILITY:

This clause shall be binding. Except for breach of confidentiality obligations and damage caused by wilful misconduct, neither Party shall be liable to the other Party for any indirect, incidental, punitive, special or consequential damage incurred by said Party, arising out of or in connection with this Agreement. Consequential damage includes but not limited to any financial and / or commercial loss, loss of profit or loss of order. However, the Party causing any damage by wilful misconduct shall be liable to the other Party for the amount of the actual damage/ loss incurred by the other Party.

12. EFFECT:

With the exception of clauses specified as "binding", the execution, expiration or termination of this MoU shall not create any binding obligation on either Party. This MoU does not mandate either Party to spend finances, perform the potential areas of collaboration nor is an agreement to enter in any future definitive agreement.

13. GENERAL

This Clause shall be binding.

13.1 No Assignment:

Neither Party may assign all or any of its rights or obligations under this MoU to any Third Party without the prior written consent of the other Party. This MoU shall be binding upon and inure to the benefit of the Parties permitted successors and assigns. Assigning of this MoU does not release either Party from the confidentiality obligations under this MoU.

MOU between SKYROOT & VIIT

13.2 Entire Agreement:

Except for the **Mutual Non-Disclosure Agreement** signed between the Parties as on **27/03/2023**, this MoU constitutes the entire understanding between the Parties hereto with respect to the subject matter hereof, and supersedes all prior oral or written agreements, understandings in relation to the subject matter hereof.

13.3 Amendment:

No amendment, modification, or change shall be made to this MoU unless set forth in writing and duly signed by the representatives of both Parties.

13.4 Severability:

The provisions of this MoU are severable and in the event any provision under this MoU is held to be invalid, illegal or unenforceable, such invalidity, illegality or unenforceability shall not affect or impair remaining provisions of this MoU.

13.5 Waiver:

No failure or delay of either Party in exercising any right or remedy with respect to this MoU shall operate as a waiver of that right or remedy. Any waiver of a right or remedy under this MoU must be in writing and signed by its respective representative.

13.6 Notices:

All notices, summons, communications, shall be made in the name of and to the addresses mentioned hereinbelow:

Minutes of the 23rd Academic Council meeting held on 10th June, 2023

The Chairman of the Academic Council, Dr E. Saibaba Reddy, Principal, VJIT, welcomed all the members and introduced the external members to the Council members and thanked everyone for attending the meeting in person.

He thanked Dr. A. Padmaja for her eleven years of service at VJIT as a Principal and introduced her in the new role of Dean, Accreditations & Ranking.

He initiated the proceedings of the meeting as per the agenda items circulated.

Item 1: Action taken report of 18th to 22nd Academic Council meetings conducted during 27th October 2022 to 4th April 2023

Principal has presented the minutes of the 18th to 22nd academic council meetings held during 27th October 2022 to 4th April 2023 for Approval.

He informed the members that due to various unavoidable reasons a greater number of meetings were conducted for approvals in the short period in the last academic year.

Dr Asha Rani, one of the JNTUH Nominees, advised to take approvals well in advance for any changes or modifications that are made with respect to Exam Branch or any other revisions that are made by JNTUH to implement at its Autonomous colleges.

She also enquired about any malpractice cases arose while discussing the ATR of 21st AC meeting minutes.

Principal informed that there were a few cases and were processed according to the procedure then in place.

Resolution: *The Academic council has approved the minutes of the 18th to 22nd meetings of the academic council.*

PRINCIPAL

Item 2: To ratify the minutes of Board of studies and syllabi of 2nd year B.Tech. programs held during the period 28th March 2023 to 1st April 2023 for all the B.Tech. programs under R22 Regulations

Principal has placed the Course structures of II Year B. Tech program, which were approved by Board of Studies meetings under R22 Regulations, applicable to the B.Tech students admitted from the academic year 2022-2023.

Dr Asha Rani suggested allotting two practice hours for QMLR course attributing to One Credit instead of two Lecture hours.

Principal informed that, it will be implemented in principle to all other such courses.

Dr Utta Balaji suggested considering DBMS Theory and Lab as one Course.

Dr Asha Rani said the concept of merging Theory with Lab is leading to failures and that is the reason behind bifurcating Theory and Lab for a few courses.

Dr M.V. Krishna Murthy asserted that lack of practice will lead to a smaller number of job opportunities and lower pay package.

Dr Asha Rani suggested teaching Theory for two classes and the remaining two classes for Practice. She also suggested assigning two faculty members during Practice sessions. She also informed to convert the remaining class work to teach new courses and allot few to Placement and Training. She brought to the notice of Chair, to suggest JNTUH the recommendations made by the industry personnel in the meeting, to change few courses which cater industry needs.

During the discussion on the need for a Real Time Research Project in B. Tech. II year, Dr Asha Rani said that it is introduced by JNTUH as an initiative of NEP to support Multiple Exit. So, if

a student wishes to leave the Program after two years, he/ she can leave the Institution and such students will be given a Diploma Certificate on successful completion of two years,

Dr Murthy emphasised on the introduction of two statistics courses and Linear Algebra in CSE (DS) & CSE (AI & ML) Programs.

Dr Lakshmi Narayan, HoD of Mathematics brought to the notice of Council members that Linear Algebra is offered in B. Tech. I year for all the Programs and Probability & Statistics is offered in II year of B. Tech. Program.

Dr M.V. Krishna Murthy suggested offering Communication engineering Courses to EEE students as well. Principal informed the Council members that they are offered as Open Electives and the students can opt for it.

Principal informed the members about adopting the peer tutoring option enabling senior students to teach junior students, it was appreciated by the external members.

Regarding MBA Course structure, Dr Utha Balaji iterated Business Analytics Course needs more practice hours than Lecture hours. He also told to offer Corporate Governance as an Elective. Dr Murthy informed that as most of the jobs in the market are on Finance specialisation only; there is a need for students to have good skill in Excel.

Resolution: The council ratified the minutes of Board of studies and syllabi of II year for all the B.Tech. programs under R22 Regulations.

Item 3: Proposed additional intake of B.Tech. programs for the academic year 2023-24

Principal has presented the variation in Intake in few B, Tech. , M. Tech. & MBA programs

Proposed Intake for the 2023-24				
S. No	Name of the Course	Existing Intake 2022-23	Proposed Intake 2023-24	Remarks
1	B.Tech. Civil Engineering	120	60	Approved by AICTE & waiting for JNTUH Approval
2	B.Tech. CSE (AI&ML)	60	180	Approved by AICTE & waiting for JNTUH Approval
3	MBA	60	120	Approved by AICTE & waiting for JNTUH Approval
4	M. Tech (VLSI)	24	0	Approved by AICTE & waiting for JNTUH Approval

Dr Asha Rani opined the closure of M. Tech (VLSI Design) is a tough option that the Institution has taken, as there will be a good demand for it in future.

Principal informed that there were a smaller number of admissions in the Program since past few years, and hence we were forced to take such a decision.

Resolution: Noted and Approved

Item 4: Approval of Academic Calendars for the academic year 2023-24 of 2nd, 3rd & 4th B.Tech, 2nd year M.Tech and 2nd year MBA

Dr. Saibaba Reddy presented the Academic Calendars of B. Tech. 2nd, 3rd & 4th year M. Tech. & M.BA 2nd year for the academic year 2023-2024.

Resolution: The Academic Council members noted and approved the Academic calendars of B. Tech. 2nd, 3rd & 4th year, M. Tech. & M.BA 2nd year for the academic year 2023-2024.

Item 5: To approve the procedure to adopt the implementation of grace marks for the students admitted under R19 regulation onwards.

Principal brought to the notice of the Council members that the Grace marks procedure adopted by JNTUH will be followed by VJIT until there is any change in the procedure suggested by JNTUH.

Dr Asha Rani suggested to take prior approval through circulation mode as and when the University revises its procedures.

Resolution: The Academic Council members noted and approved.

Item 6: Result Analysis of B.Tech (2019-23), M.Tech (2020-22) and MBA (2020-22) Programs

The principal presented the academic performance of U.G. and P.G. Programs.

Dr Asha Rani expressed satisfaction over the academic performance of the students at VJIT,

Dr Murthy suggested tracking the performance of students of a particular batch over the four years.

Resolution: The Academic Council members noted and approved.

Item 7: To ratify and approve the B.Tech, M.Tech and MBA program results

Processing committee

The Principal informed the Council about the re-constitution of Results Processing Committee.

Resolution: The council ratified the formulation of new Results Committee.

Item No 8: To approve M.Tech. R22 Regulations

Dr Saibaba Reddy informed the members that the R22 M. Tech regulations of JNTUH will be adopted at VJIT from 2023-2024 (R23)

Resolution: The Council Members Noted and approved.

Item No. 9: Seed money proposals approved for the academic year 2022-23

The Chairman informed the members that seed money was sanctioned to 5 faculty members during the academic year 2022-2023.

The members appreciated and suggested the Departments to focus on specific areas and also to involve students as Co-investigators.

Resolution: *The Council Members noted and approved*

Item No. 10 Research projects granted & applied.

The Chairman presented the list of Research projects applied by the faculty members of VJIT for various funding agencies by the faculty of VJIT. He also brought to the notice of the Council that a DST Project is sanctioned to CSE & AI Departments.

Resolution: *The Council Members appreciated and noted the Points.*

Item No. 11: Placements statistics for the academic year 2019-23 batch

The Principal presented the data of students recruited by various companies. He also listed out the companies that visited the college during the last year.

Dr Krishna Murthy suggested highlighting the Median salary instead of Average pay package.

Dr Asha Rani suggested opting for Finishing school to grab the Industry competency and to attract more number of Core jobs.

Resolution: *The Council members noted the data.*
